only six fleet aircraft carriers and little more than 1,000 combat aircraft was not sheer luck but the culmination of more than two decades of determined preparation. This thorough study, with detailed drawings and photographs, explains and illustrates the trial and error process which went into developing the aircraft, airships and ships of the interwar period. The critical factors that shaped Naval Aviation after World War I—naval treaties, fleet tactics, government programs, leadership and organization, as well as the emergence of Marine Corps and Coast Guard aviation—are discussed in depth.

*More and more sailors and powerboaters are buying and relying on electronic and electric devices aboard their boats, but few are aware of proper installation procedures or how to safely troubleshoot these devices if they go on the blink. Some love affairs refuse to be confined... To time. To place. To this mortal coil. This novel is based on a true story. The macabre events, such as they were, took place during the height of the Great Depression in Key West, Florida. Carl Tanzler von Cosel, an eccentric German scientist, and Elena Hoyos, a beautiful young girl, fell in love. But this is not your ordinary love affair. Some bonds endure the ravages of disease and the threat of prison, family disownment, and the devils and angels themselves. Some love affairs are stronger than death.*
