This book is intended to help students to prepare successfully for an exam in the subject "IAS / IFRS" or "Managerial Accounting". The aim of this book is to close the gap which exist by the explanations within the accounting textbooks and the requirements for exam solutions. To achieve the maximum score in a written exam the exact chains of the relevant paragraphs is often demanded, which then has to be linked to the present case. Therefore, for the students is more important to get a detailed solution for each case and not only a red line solution.
