Conquer Microsoft Access 2013—from the inside out! You're beyond the basics, so dive right into Access 2013—and use your skills to create sophisticated database apps! This supremely organized reference packs hundreds of timesaving solutions, troubleshooting tips, and workarounds. It's all muscle and no fluff. Discover how the experts tackle Access 2013—and challenge yourself to new levels of mastery. Build an Access Services web app with Microsoft SharePoint Server Automate your Access web app with data macros Create tables in your Access web app using built-in templates Aggregate and display your web app data using totals queries Use the Autocomplete control to quickly search for related data Create a Summary view to consolidate and group information Display related data on your views with the Related Items control Package your web app for use by others in your organization Plus—download chapters on building desktop databases For Intermediate and Advanced Users and Database Designers

With more than 275 applied examples and 10 projects, Access users can quickly build database solutions with ActiveX Data Objects (ADO), perform database tasks with Jet/Access Structured Query Language (SQL) and export/import Access data to and from XML both manually and programmatically. The book, which covers the latest release of Access and earlier versions, is divided into five parts: an introduction to VBA programming, manipulating databases with ADO, using DDL, event programming, and using ASP and XML. The text will show you how to write and debug your programming code with the Visual Basic Editor; understand and use common VBA programming structures such as conditions, loops, arrays, and collections; code a “message box” and reprogram characteristics of a database; query and manipulate your database from a Web browser with Active Server Pages (ASP) and many more practical techniques. Features: Covers in great detail the latest version of Access and all of its features. Includes more than 275 applied examples and 10 projects. Covers Office Web Apps
