His Crosswords for Kids has sold nearly 60,000 copies, and his Great Crosswords for Kids is on its way to similar success; these oh-so-clever puzzles should scale the heights of popularity, too. Children will enjoy figuring out such kid-friendly clues as “Last name of the author of Curious George,” “One of Santa's helpers,” and “Sylvester the Cat chased him.” And while they're having a good time filling in the answers, youngsters will also improve their vocabulary, learn interesting facts, and boost their powers of concentration.

Don't think too hard or you'll never solve these logic puzzles and riddles. The answers to all 187 are easy once you catch the tricky wording. How can you tie a knot in a napkin by holding one end in each hand without letting go of it? Impossible, you say (or your friends will say, if you bet them). But: Cross your arms and hold a tip of the napkin in each hand. When you uncross your arms, the knot will be formed! Now try this riddle: I climbed up a cherry tree, where I found cherries. I did not pick cherries, nor did I leave cherries. How can you explain this? Answer: I climbed up a cherry tree with two cherries in my hand. I picked only one. I left the other one on the

tree. I did not "pick cherries," because I "picked a cherry." Take this dare: My bird can fly faster than any supersonic plane. Here's how: If you put my bird inside any plane and make it fly in the same direction as the plane, it will go faster than the plane. 96 pages, 52 b/w illus., 5 3/8 x 8 1/4.
