An official tie-in to the globally popular video game traces the story of a new hero stranded in the world of Minecraft who must survive a harsh environment while unraveling the secrets of a mysterious island.

This official Minecraft novel is a journey into the unknown! Max and Alison are proof that differences don't stand in the way of friendship. Max is always on the lookout for a new adventure—even if it means getting into trouble—while Alison prefers to follow the rules. But both of them are fascinated by the beat-up old journal Max finds and the strange gate its secretive author, the Enchanter, describes: a portal to an otherworldly realm of danger called the Nether. After they use the journal's instructions to craft the portal, Max and Alison squabble over whether to remain safe in the Overworld or to journey into the Nether to find the Enchanter . . . until a fateful accident makes the decision for them.

Trapped in a scary new world, Max and Alison find an ally in Freya, a fierce warrior who has been living in the Nether with her beloved wolf, Bunny Biter. With Freya's help, and with the clues that lie in the pages of the mysterious journal, Max and Alison embark on a quest to find the Enchanter, even as the Nether pushes their skills—and their friendship—to the limit. Draw, color and create! This guided coloring book will let the artist get down to business of creating without having to deal with making the outline.

For as long as they can remember, the twin endermen Fin and Mo have lived in the mysterious land of the End. On the outskirts of the great enderman city of Telos, they explore ancient ruins under the watchful gaze of the mighty ender dragon. They have everything they need in the end ship they call home, and know everything there is to know about their world -- or so they think until the strangers from another dimension arrive. The invaders are called humans, and they've come to steal artifacts and slay the ender dragon. Fin and Mo are ready to protect their home from the trespassers, but when they come face-to-face with the humans, they discover that they aren't as prepared for battle as they'd thought. Caught off guard, the twins are trapped in the middle of a war between the endermen and the humans, with the future of their home at stake.

Many Christians live in guilt and shame for not being able to overcome certain emotional hardships. However, nothing is impossible for the Lord. He promises to walk beside us in the midst of emotional struggles. Sofia Pelayo is a living example of how the Lord has walked with her and has given her the strength and courage to overcome obsessive thoughts. In her early twenties, she was overpowered by anorexia—a horrible eating disorder that is characterized by obsessive and self-destructive thoughts about one's body. Ravaged by this disease and by other self-destructive behaviors, she secluded herself in much shame. The Lord, however, lured her out of the shadows with his love and allowed her to realize that one does not need to reach a level of perfection to be considered victorious in Christ. This memoir is an honest account of struggles, and greatly shows the Grace of God through these honest descriptions. Run your own Minecraft server: take total control of your Minecraft experience! Sticks and Stones presents a treasure trove of building and engineering ideas for children to employ in the great outdoors using the materials made readily available to them, from cabins and tipis to bridges and dams. Many smaller scale projects are included, too—such as how to make ochre paint with shale, make a fishing pole, and carve a marshmallow roasting stick. Opportunities and materials for constructive play exist everywhere in nature. Author Melissa Lennig (of the blog Fireflies and Mud Pies) introduces today's screen-overloaded kids to this world of fun waiting just outside the door. Whether camping or hanging out in the back yard, children will marvel at the wonderful, useful tools and playthings they can create with natural objects. Sticks and Stones details various designs for the ever-popular fort (cabins, tipis, survival shelters, etc.) and also covers structures such as bridges, fences, and dams, while explaining the STEAM principles behind each. In addition to structures, there are other ideas and projects for camping and the backyard, like a fire ring (explaining the types of fires, airflow, and safety), the always useful tripod, a travois, a rock garden, and toy boats. Along the way, there are multi-leveled reading opportunities in the form of quick features on considerations like mindfulness, campfire safety, mini STEAM design challenges, and more. Sticks and Stones is an essential resource for every junior outdoor adventurer.

Losing and Finding My Father is an adult daughter's journey of discovery sparked

by the illness, coma, and subsequent death of her father. Having struggled for years to come to terms with a childhood marked by his invalidation and abuse, she attends to her ailing father, converses with him even during his coma, and uncovers the love hidden deep within their painful relationship. It is a story of loss -- loss of childhood trust, loss of self-esteem and desire for intimacy, loss of the father. Ultimately, it is a story of revelation -- about finding one's voice, softening emotional armor, forgiving the past, creating pathways to intimacy, and revising one's life story. Losing and Finding My Father offers a promise of growth and healing to children (and parents) of all ages and weaves together the following themes: * Challenging cultural attitudes about grief * Exploring "right relationship" with having been abused as a child * Authentic forgiveness * The power of emotions to heal * Conscious caretaking * Developing the capacity to have a healthy intimate relationship The book also offers a substantial appendix of self-help tools and exercises. From the foreword by Richard Schwartz, PhD, developer of the Internal Family Systems model of psychotherapy: "When her father was dying, Kira Freed had the courage to take the healing path. Her carefully and beautifully documented journey provides a model for anyone who might consider this difficult route." "If you've experienced the loss of a loved one who was a source of pain and challenges throughout your life, reach for Kira Freed's book Losing and Finding My Father. Her poignant stories, processing tools, and personal healing will give you hope, guidance, and a way forward -- through and beyond your own grief." -- Carol McClelland, PhD, author of The

Seasons of Change: Using Nature's Wisdom to Grow Through Life's Inevitable Ups and Downs "Losing and Finding My Father is Kira Freed's personal story, and this story is a teaching tale. In it, Kira shares her journey of resolving the effects of living with an abusive father whom she also loved deeply. Throughout, we are invited to share in the complex legacy of trauma intertwined with the healing opportunities that Kira courageously engaged. She also includes an appendix filled with a variety of approaches she used to support her healing -- powerful resources and practices for anyone taking this journey." -- Nancy J. Napier, LMFT, author of Getting Through the Day: Strategies for Adults Hurt as Children "Kira has written a poignant and intimate account of her father's dying and of her grief. In clear language she shares with us the struggles, pain, healings and even transformation that so many of us have experienced with the death of a parent. Reading her book will both comfort and inspire you." -- Alexandra Kennedy, psychotherapist and author of Losing a Parent and The Infinite Thread This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist

groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

This book analyses the mobilisation of race, rights and the law in Malaysia. It examines the Indian community in Malaysia, a quiet minority which consists of the former Indian Tamil plantation labour community and the urban Indian middle-class. The first part of the book explores the role played by British colonial laws and policies during the British colonial period in Malaya, from the 1890s to 1956, in the construction of an Indian "race" in Malaya, the racialization of labour laws and policies and labour-based mobilisation culminated in the 1940s. The second part investigates the mobilisation trends of the Indian community from 1957 (at the onset of Independent Malaya) to 2018. It shows a gradual shift in the Indian community from a "quiet minority" into a mass mobilising collective or social

movement, known as the Hindu Rights Action Force (HINDRAF), in 2007. The author shows that activist lawyers and Indian mobilisers played a crucial part in organizing a civil disobedience strategy of framing grievances as political rights and using the law as a site of contention in order to claim legal rights through strategic litigation. Highly interdisciplinary in nature, this book will be of interest to scholars and researchers examining the role of the law and rights in areas such as sociolegal studies, law and society scholarship, law and the postcolonial, social movement studies, migration and labour studies, Asian law and Southeast Asian Studies.

Modern Statistical, Systems, and GPSS Simulation, Second Edition introduces the theory and implementation of discrete-event simulation. This text: establishes a theoretical basis for simulation methodology provides details of an important simulation language (GPSS - General Purpose Simulation System) integrates these two elements in a systems simulation case study Valuable additions to the second edition include coverage of random number generators with astronomic period, new entropy-based tests of uniformity, gamma variate generation, results on the GLD, and variance reduction techniques. GPSS/PC is an interactive implementation of GPSS for the IBM-PC compatible family of microcomputers. The disk accompanying Modern Statistical, Systems, and GPSS Simulation contains the limited educational version of GPSS/PC with many illustrative examples discussed in the text.
