This book is crammed with puzzles designed to stimulate each of your brain's cognitive functions, keeping it strong and fit. Many different types of puzzles are included, and each of the five levels increases the challenge of solving them. Includes three self-evaluations that allow you to assess your improvement in areas such as focus, attention, memory, and more. With these puzzles, exercising your brain can be fun! The consultant is Dr. Elkhorn Goldberg, a Ph.D. neuropsychologist who created the Manhattan-based Cognitive Enhancement Program, a fitness center for the brain and who wrote The Executive Brain: Frontal Lobes and the Civilized Mind; and The Wisdom Paradox: How Your Mind Can Grow Stronger as Your Brain Grows Older.

Eleanor Smith's Hull House Songs: The Music of Protest and Hope in Jane Addams's Chicago reprints Eleanor Smith's 1916 folio of politically engaged songs, together with interdisciplinary critical commentary from sociology, history, and musicology.

Forty very short stories that reimagine the genre of crime writing from some of today's most imaginative and thrilling writers "An intriguing take on crime/noir writing, this collection of 40 very short stories by leading and emerging literary voices—Amelia Gray, Brian Evenson, Elizabeth Hand, Carmen Maria Machado, Benjamin Percy, Laura van den Berg and more—investigates crimes both real and imagined. Despite their diminutive size, these tales promise to pack a punch." —*Chicago Tribune*, 1 of 25 Hot Books for Summer *Tiny Crimes* gathers leading and emerging literary voices to tell tales of villainy and intrigue in only a few hundred words. From the most hard-boiled of noirs to the coziest of mysteries, with diminutive double crosses, miniature murders, and crimes both real and imagined, *Tiny Crimes* rounds up all the usual suspects, and some unusual suspects, too. *With illustrations by Wesley Allsbrook and flash fiction by Carmen Maria Machado, Benjamin Percy, Amelia Gray, Adam Sternbergh, Yuri Herrera, Julia Elliott, Elizabeth Hand, Brian Evenson, Charles Yu, Laura van den Berg, and more, Tiny Crimes* scours the underbelly of modern life to expose the criminal, the illegal, and the deprived.

"As novelist and poet Andrei Codrescu points out in the essay that accompanies this selection of photographs from the Getty Museum's collection, Evans's photographs are the work of an artist whose temperament was distinctly at odds with Beals's impassioned rhetoric. Evans's photographs of Cuba were made by a young,

still maturing artist who - as Codrescu argues - was just beginning to combine his early, formalist aesthetic with the social concerns that would figure prominently in his later work."--Jacket.

Getting cancer is like a bomb going off in your life. Having chemotherapy can feel like another bomb. If you're getting ready for chemotherapy, you probably have many questions-but searching for answers on the internet can be overwhelming and the pamphlets from your oncologist don't begin to tell you all you need to know. You may be scared, confused or exhausted. You'll want to know what to expect and how to prepare for chemotherapy - and so will your loved ones who are supporting you. In her concise and easy-to-read guidebook, Braving Chemo, Harvard-educated physician and breast cancer survivor Beverly A. Zavaleta MD cuts through the confusion to provide you with clear answers to your most urgent chemotherapy questions. ¿Can I keep my hair from falling out? ¿What should I eat? ¿How can I keep my spirits up when I'm worried about dying?Combining her medical expertise with a survivor's experience and insight, Dr. Zavaleta provides practical advice on topics such as where to find reliable information about your treatment regimen, what you should take to your chemo session, and how to keep up your strength. Braving Chemo also confronts the challenges of cancer recovery and coping with fear of death. Whether you are a chemotherapy patient or a cancer caregiver, Braving Chemo is a valuable resource about what to expect during chemo, how to minimize the side effects, and how to live life as normally as possible when life itself is on the line.

This book offers readers a startling view of how blockchain technology will transform the financial industry in profound ways. Some of the world's top thinkers in blockchain have contributed chapters that survey the coming digital storm - how it will level the playing field, give individuals more financial power, and create greater transparency in operations. Written for the educated financial reader, it reveals how blockchain can create a token-based incentive system that aligns the interests of participants in large-scale initiatives, as well as the rewiring of global payment networks and innovative financing methods such as initial coin offerings to fund infrastructure development. The transition for the financial industry is bound to be complicated, but it presents enormous opportunity for those who understand the storm as it's brewing. "In Financial Services Revolution, Alex Tapscott opens a window into a dynamic future, featuring the early stages of a transition to a natively digital global economy, sporting various degrees of decentralization. It will be a complicated transition for financial, economic, social, and political systems, but I see it as one pregnant with hope and promise." - Joseph Lubin, CEO, ConsenSys "Nobody has a better handle on the coming digital storm and its broad implications than Alex Tapscott. In Financial Services Revolution, Alex lays out the blueprint for how to survive and then thrive in this era of digital disruption." - Harris Fricker, President and CEO, GMP Securities LP "Alex Tapscott is one of the blockchain industry's foremost leaders and earliest believers. His work as an investor, advocate, educator, and business builder has contributed immense value to the development of the digital asset market." - Cole Diamond, Chairman and CEO, Coinsquare "This book will help successful financial services leaders with a pressing need: to relentlessly push the boundaries of their tech knowledge, with imagination around its application." - Dean Connor, President and CEO, Sun Life Financial "Blockchain has the potential to transform financial services in profound ways, to level playing fields, favour collaboration over competition, and enable the individual to enjoy as much agency as the corporation does today in financial matters. This book explains how. A must-read." - Joseph Lubin, CEO, ConsenSys "This book shows how blockchain is a game changer for data and transfer of value -at the heart of financial and government services today. " - Linda Mantia, former Senior Executive Vice President and Chief Operating Officer, Manulife Financial "It was an honour to contribute to the Blockchain Research Institute's comprehensive investigation into blockchain's promise and the challenges that come with it. This is a must-read volume for anyone interested in this potentially transformative technology." - Michael Casey, Chief Content Officer, CoinDesk "Thoroughly researched and brimming with new insights, Financial Services Revolutionis required reading for every Wall Street banker and all who care about the future of money and finance." - Bill Barhydt, CEO and Founder, Abra "Alex Tapscott has been among the first and most thoughtful contributors to the global conversation on the future of finance. This book extends that dialogue. It looks at how financial services might approach a technological revolution originally designed to disintermediate it." - Matthew Roszak, Chairman and Co-founder, Bloq

Thrilling, heartbreaking, and, at times, absurdly funny, The Last Resort is a remarkable true story about one family in a country under siege and a testament to the love, perseverance, and resilience of the human spirit. Born and raised in Zimbabwe, Douglas Rogers is the son of white farmers living through that country ' s long and tense transition from postcolonial rule. He escaped the dull future mapped out for him by his parents for one of adventure and excitement in Europe and the United States. But when Zimbabwe ' s president Robert Mugabe launched his violent program to reclaim white-owned land and Rogers ' s parents were caught in the cross fire, everything changed. Lyn and Ros, the owners of Drifters-a famous game farm and backpacker lodge in the eastern mountains that was one of the most popular budget resorts in the country-found their home and resort under siege, their friends and neighbors expelled, and their lives in danger. But instead of leaving, as their son pleads with them to do, they haul out a shotgun and decide to stay. On returning to the country of his birth, Rogers finds his once orderly and progressive home transformed into something resembling a Marx Brothers romp crossed with Heart of Darkness: pot has supplanted maize in the fields; hookers have replaced college kids as guests; and soldiers, spies, and teenage diamond dealers guzzle beer at the bar. And yet, in spite of it all, Rogers ' s parents-with the help of friends, farmworkers, lodge guests, and residents-among them black political dissidents and white refugee farmers-continue to hold on. But can they survive to the end? In the midst of a nation stuck between its stubborn past and an impatient future, Rogers soon begins to see his parents in a new light: unbowed, with passions and purpose renewed, even heroic. And, in the process, he learns that the "big story" he had relentlessly pursued his entire adult life as a roving journalist and travel writer was actually happening in his own backyard. Evoking elements of The Tender Bar and Absurdistan, The Last Resort is an inspiring, coming-of-age tale about home, love, hope, responsibility, and redemption. An edgy, roller-coaster adventure, it is also a deeply moving story about how to survive a corrupt Third World dictatorship with a little innovation, humor, bribery, and brothel management.

Forest management has evolved from a mercantilist view to a multi-functional one that integrates economic, social, and ecological aspects. However, the issue of sustainability is not yet resolved. Quantitative Techniques in Participatory Forest Management brings together global research in three areas of application: inventory of the forest variables that determine the main environmental indices, description and design of new environmental indices, and the application of sustainability indices for regional implementations. All these quantitative techniques create the basis for the development of scientific methodologies of participatory sustainable forest management.
