'Superbly told' The Times 'Richly imagined'

Sunday Times 'An engrossing, seamlessly

written deliberation on the enduring power of art' Mail on Sunday Assyria, in the reign of Ashurbanipal. For Aurya and Sharo, every day is a struggle for survival. One evening, everything changes. Soon, they are on the barge of King Ashurbanipal, bound for the city of Nineveh. Their fates become inextricably bound to that of the king – and the injured lion captured by his men. Twenty-six centuries later, British-Iraqi archaeologist Katya joins a dig in Mosul to protect the ancient ruins of Nineveh from looters. But the real world crashes in to their studious idyll when ISIL storm Mosul – and take Katya, Salim and local girl Lola hostage. 'Dual timeline novels often fail: one strand is more interesting than the other, or the links between the two are contrived. Not here. Both stories are superbly told and share the same preoccupation – the coexistence of cruelty and creative beauty' The Times, Historical Novel of the Month

The book 'Comprehensive Guide to VITEEE Online Test with 3 Online Tests 5th Edition' covers the 100% syllabus in Physics, Chemistry and Mathematics as per latest exam pattern. The book also provides the solved paper of 2017 & 2018. The book also introduces the English Grammar, Comprehension & Pronunciation portion as introduced in the syllabus in the last year. The book is further empowered with 3

Online Tests. Each chapter contains Key Concepts, Solved Examples, Exercises in 2 levels with solutions.

With the 2013 edition of Ferri's Clinical Advisor, you can access current diagnostic and therapeutic information on more than 700 common medical conditions faster and more effectively than ever before. Dr. Ferri's popular "5 books in 1" format provides quick guidance on vitamin-D deficiency, statin-induced muscle syndrome, postural tachycardia syndrome (POTS), and much more. With Expert Consult online access, you can search the complete contents, review 40 online-only topics, and download patient teaching guides. Rapidly find the answers you need with separate sections on diseases and disorders, differential diagnosis, clinical algorithms, laboratory results, and clinical preventive services, plus an at-a-glance format that uses cross-references, outlines, bullets, tables, boxes, and algorithms to expedite reference. Review normal values and interpret results for more than 200 lab tests. Get the insurance billing codes you require, including ICD-9-CM codes, to expedite insurance reimbursements. Improve your practice's efficiency with cost-effective referral and consultation guidelines. Access an abundance of online-only material at www.expertconsult.com,

This book reports on various techniques for fault location on cross bonded cables, identifies the best method and describes the construction of a full fault locator system. The developed system is able of pinpointing the fault location on long cross-bonded cable systems and will be installed in Danish substations for monitoring the coming cable-based transmission grid. The work was conducted as part of a collaborative project between the department of energy technology at Aalborg University and the Danish transmission system operator for electricity and natural gas, Energinet.dk. The 3 volume-set LNCS 11566, 11567 + 11568 constitutes the refereed proceedings of the Human Computer Interaction thematic area of the 21st International Conference on Human-Computer Interaction, HCII 2019, which took place in Orlando, Florida, USA, in July 2019. A total of 1274 papers

The goal of this text is to expand one's practice of minimally invasive colorectal surgery by implementation of various advanced reduced port and single techniques. The authors present a comprehensive operative technique text to teach and implement single incision and reduced port laparoscopic colorectal surgery best practices into clinical practice. The text is divided into three main sections: perioperative considerations; focused operative techniques, tips and tricks; and step-by-step details of common colorectal procedures. Each case is paired with intraoperative photos and video accompaniment to facilitate understanding the technique, reproducing the steps, and implementing single incision laparoscopic colorectal surgery. The extensive illustrations and links to video make this a truly interactive text. With the aid of this text, surgeon experienced in laparoscopy, as well as those looking to expand their minimally invasive arsenal will be able to successfully incorporate single incision laparoscopic techniques into practice

This book contains an Access Code in the starting pages to access the 32 Online Tests. NTA JEE Main 40 Days Crash Course in Physics is the thoroughly revised, updated & redesigned study material developed for quick revision and practice of the complete syllabus of the JEE Main exams in a short span of 40 days. The book can prove to be the ideal material for class 12 students as they can utilise this book to revise their preparation immediately after the board exams. The book contains 27 chapters of class 11 & 12 and each Chapter contains: # JEE Main 5 Years at a Glance i.e., Past 5 years QUESTIONS of JEE Main (2018- 2014) both Online & Offline with TOPIC-WISE Analysis. # Detailed Mind-Maps covers entire JEE Syllabus for speedy revision. # IMPORTANT/ CRITICAL Points of the Chapter for last minute revision. # TIPS to PROBLEM SOLVING - to help students to solve Problems in shortest possible time. # Exercise 1 CONCEPT BUILDER- A Collection of Important Topic-wise MCQs to Build Your Concepts. # Exercise 2 CONCEPT APPLICATOR - A Collection of Quality MCQs that helps sharpen your concept application ability. # Answer Keys & Detailed Solutions of all the Exercises and Past years problems are provided at the end of the chapter. # ONLINE CHAPTER TEST - A Test of 15 Questions for each chapter to check your command over the chapter. # 3 ONLINE MOCK TESTS - To get familiar with exam pattern and complete analysis of your Performance.

The International Symposium on Experimental

Robotics (ISER) is a series of bi-annual meetings which are organized in a rotating fashion around North America, Europe and Asia/Oceania. The goal of ISER is to provide a forum for research in robotics that focuses on novelty of theoretical contributions validated by experimental results. The meetings are conceived to bring together, in a small group setting, researchers from around the world who are in the forefront of experimental robotics research. This unique reference presents the latest advances across the various fields of robotics, with ideas that are not only conceived conceptually but also explored experimentally. It collects robotics contributions on the current developments and new directions in the field of experimental robotics, which are based on the papers presented at the 14th ISER held on June 15-18, 2014 in Marrakech and Essaouira, Morocco. This present fourteenth edition of Experimental Robotics edited by M. Ani Hsieh, Oussama Khatib, and Vijay Kumar offers a collection of a broad range of topics in field and human-centered robotics.

- The book is distributed into around 28 topics exactly following the chapter sequence of the NCERT books of class 11 and 12.
- The questions in each topic are immediately followed by their detailed solutions. The book constitutes around 4600 most important MCQs.

This monograph assesses in depth the application of recursive Bayesian filters in

Access Free Mm Publications Mm Online Placement Test

structural health monitoring. Although the methods and algorithms used here are well established in the field of automatic control, their application in the realm of civil engineering has to date been limited. The monograph is therefore intended as a reference for structural and civil engineers who wish to conduct research in this field. To this end, the main notions underlying the families of Kalman and particle filters are scrutinized through explanations within the text and numerous numerical examples. The main limitations to their application in monitoring of high-rise buildings are discussed and a remedy based on a synergy of reduced order modeling (based on proper orthogonal decomposition) and Bayesian estimation is proposed. The performance and effectiveness of the proposed algorithm is demonstrated via pseudo-experimental evaluations.

The book 'Comprehensive Guide to VITEEE Online Test with 3 Online Tests 7th Edition' covers the 100% syllabus in Physics, Chemistry and Mathematics as per latest exam pattern. The book also provides the solved papers of 2017 to 2019. The book also introduces the English Grammar, Comprehension & Pronunciation portion as introduced in the syllabus in the last year. The book is further empowered with 3 Online Tests. Each chapter contains Key Concepts, Solved Examples, Exercises in 2 levels with solutions.
