Everything Your American History Textbook Got Wrong

**A “fascinating” look at what students in Russia, France, Iran, and other nations are taught about America (The New York Times Book Review). This “timely and important” book (History News Network) gives us a glimpse into classrooms across the globe, where opinions about the United States are first formed. History Lessons includes selections from textbooks and teaching materials used in Russia, France, Iran, Saudi Arabia, Cuba, Canada, and others, covering such events as the American Revolution, the Cuban Missile Crisis, the Iran hostage crisis, and the Korean War—providing some alternative viewpoints on the history of the United States from the time of the Viking explorers to the post-Cold War era. By juxtaposing starkly contrasting versions of the historical events we take for granted, History Lessons affords us a sometimes hilarious, often sobering look at what the world thinks about America’s past. “A brilliant idea.” —Foreign Affairs**

**Based on expert review and research, this book provides an innovative standard and guide to social studies textbooks used in kindergarten through 12th grade classrooms for content, style, and design. The standards provide a foundation for individuals to select satisfactory textbooks and to help educators and school boards in the adoption of instructional materials. Chapter 1 addresses the problems of textbook content and style. Chapter 2 discusses the vast business of social studies publishing and the increased complexity of textbook packaging with the movement away from state-level adoption of textbooks. Chapter 3 focuses on the content of social studies textbooks with a comparison of past and present textbooks, a discussion of revisionism and reality, and a look at religion in textbooks. Chapter 4 examines the style and story of textbooks and finds that although the content of past textbooks may be flawed, the prose is superior to recent textbooks. Ideas on narrative, readability, vocabulary, instructional design, history, and style provide ways for textbooks to improve. Chapter 5 addresses the issue of format and proposes clarity and simplicity in technical design of books. Chapter 6 provides an outline to review textbooks for content and style and instructional activities and teacher guidance materials for usefulness. Chapter 7 includes an annotated list of the major U.S. and world history textbooks. (CK)**
