IN A BUSINESS LIKE MONSTER HUNTING, IT'S ALL ABOUT SETTING PRIORITIES The chaos god Asag has been quiet since the destruction of the City of Monsters, but Monster Hunter International know that he is still out there, somewhere—plotting, waiting for his chance to unravel reality. When Owen and the MHI team discover that one of Isaac Newton's Ward Stones is being auctioned off by Reptoids who live deep beneath Atlanta, they decide to steal the magical superweapon and use it to destroy Asag once and for all. But before the stone can be handed off, it is stolen by a mysterious thief with ties to MHI and the Vatican's Secret Guard. It's a race against time, the Secret Guard, a spectral bounty hunter, and a whole bunch of monsters to acquire the Ward Stone and use it against Asag. For as dangerous as the chaos god is, there is something much older—and infinitely more evil—awakening deep in the jungles of South America. At the publisher's request, this title is sold without DRM (Digital Rights Management). About Larry Correia and the Monster Hunter International series: “[E]verything I like in fantasy: intense action scenes, evil in horrifying array, good struggling against the darkness, and most of all people—gorgeously flawed human beings faced with horrible moral choices that force them to question and change and grow.” —Jim Butcher “[A] no-holds-barred all-out page turner that is part science fiction, part horror, and an absolute blast to read.” —BookReporter.com “If you love monsters and action, you'll love this

book. If you love guns, you'll love this book. If you love fantasy, and especially horror fantasy, you'll love this book."
–Knotclan.com *"A gun person who likes science fiction—or, heck, anyone who likes science fiction—will enjoy [these books] . . . The plotting is excellent, and Correia makes you care about the characters . . . I read both books without putting them down except for work . . . so whaddaya waitin' for? Go and buy some . . . for yourself and for stocking stuffers."* –Massad Ayoob *"This lighthearted, testosterone-soaked sequel to 2009's Monster Hunter International will delight fans of action horror with elaborate weaponry, hand-to-hand combat, disgusting monsters, and an endless stream of blood and body parts."* –Publishers Weekly on *Monster Hunter Vendetta*

Monster Hunter World: Iceborn is the expected and massive expansion for Monster Hunter: World. His events develop immediately after the events of the original game, and send hunters to explore the newly discovered northern lands, covered with snow and ice. When players fully explore this region, they will notice that it is the largest of all areas of the World at the moment. This new area is also home to several previously unseen creatures, as well as a number of already familiar monsters from past games who, with inherent bloodthirstiness, will try to feast on hunters. Iceborn will increase difficulty and a Master's rank will appear. The skill and craft systems familiar to World veterans will remain in their places, and in addition to them, new game mechanics will appear that will expand the combat potential of hunters. Finally, the most daring hunters are waiting for a meeting and an intense battle with the main monster of the new lands - Velhana.

Monsters surround us. They're everywhere; on TV, in movies ...they haunt our nightmares. But are they real? Do Vampires, Werewolves and Zombies really exist? And if so how can we survive against them? At last here is the comprehensive guide every Monster Hunter must have! Whether you're a weekend Bigfoot hunter or a hardcore Vampire slayer you simply can't afford not to own this book.

This guide features a full, beginning-to-end walkthrough written in an "ideal chronological order of events" format. Main quests are interspersed with side quests in the order in which they unlock, although some side quests and arena challenges may only be referenced instead of fully explained. These are typically quests that have you facing a monster you've already fought under similar circumstances that offer no unique reward for completion. For example, after completing most main quests you won't be able to attempt that quest again, but you'll usually unlock an identical side quest allowing you to hunt the same monster in the same area with the same success/failure conditions. Monster strategies will be discussed in detail as you encounter them throughout the walkthrough, featuring elemental and status information and drop lists. The guide also features a fully detailed bestiary for those who just want information about specific monsters unaccompanied by a walkthrough. Trophy/achievement information can also be found in a separate trophy/achievement guide, although be warned: many trophies/achievements in Monster Hunter World are easier said than done. Other features of this guide include: -- Information on crafting/harvesting. -- Side quests that unlock mantles, ingredients and other useful features. -- Field Researcher quests including where to catch rare fish, how to capture small monsters, and where to locate Grimalkynes/Gajalaka. -- Grimalkyne/Gajalaka quests. -- How to upgrade the Ancient Tree/Harvest Box and how to unlock various fertilizers. -- How the Elder Melder works, melding different items and decorations. -- Where to find the Powertalon and Armortalon, and how to upgrade them into the Powercharm and Armorcharm. -- Detailed information on how to unlock Tempered Monsters, the difference between Threat Level 1, 2 and 3 Tempered Monsters. -- Information on Feystones, including drop rates, the differences between the types (Mysterious, Gleaming, Worn and Warped). -- How to get Warrior's Streamstones and Hero's Streamstones.
