This collection on peace education includes contributions from an international group of scholars representing a wide variety of geographical conflict areas and exemplifying the multiple venues of peace educational labour. A strong emphasis is given to integrative and sustained long-term peace education efforts.

The nation of Pakistan was born out of the trauma of Partition from India in 1947. Its cricket team evolved in the chaotic aftermath. Initially unrecognised, underfunded and weak, Pakistan's team grew to become a major force in world cricket. Since the early days of the Raj, cricket has been entwined with national identity and Pakistan's successes helped to define its status in the world.

Defiant in defence, irresistible in attack, players such as A.H.Kardar, Fazal Mahmood, Wasim Akram and Imran Khan awed their contemporaries and inspired their successors. The story of Pakistan cricket is filled with triumph and tragedy. In recent years, it has been threatened by the same problems affecting Pakistan itself: fallout from the 'war on terror', sectarian violence, corruption, crises in health and education, and a shortage of effective leaders. For twenty years, Pakistan cricket has been stained by the scandalous behaviour of the players involved in match-fixing. Since 2009, the fear of violence has driven Pakistan's international cricket into exile. No one knows when it will return home. But Peter Osborne's narrative is also full of hope. For all its troubles, cricket gives all Pakistanis a chance to excel and express themselves, a sense of identity and a cause for pride in their country. Packed with first-hand recollections, and digging deep into political, social and cultural history, Wounded Tiger is a major study of sport and nationhood.

were 27 film series produced and released by Columbia Pictures from 1926 through 1955. This reference book covers the origins of the popular fictional characters featured, as well as their appearances in other media (comics, novels, radio and television). Also provided are thumbnail biographies of the actors who brought these characters to life. The films themselves are examined in detail, with release dates, cast and production credits, synopses, reviews, the author's summation, the publicity "tag lines," and the songs heard. Additionally, most of the outdoor locations used in filming such Columbia western series as Wild Bill Saunders and The Durango Kid are identified.

In the past 30 years, Diane Keaton has been an actress, a director and a photographer. This work begins with her early years in California, but the primary focus is on her film career from the 1970s through the present. The author examines Keaton's image as star and public figure, drawing on information from interviews (including personal conversations with Keaton), feature pieces, press releases, books, photographs, posters, films, and reviews of films. Each chapter provides an overview of the significant events and influences in Keaton's life during a particular period, along with a thematic and stylistic analysis of that period's feature films, television movies, and photography. The film analyses include an examination of themes and technical elements such as cinematography, mise-en-scene, movement, editing, sound, acting, costumes, set, and narrative structures.

Asking if there is humor in any religious text might seem blasphemous to many readers. Religious texts are there to instruct us, not entertain us. Religious texts are serious works, not frivolous. However, if part of being human entails having a sense of humor, then it would be more surprising indeed for Scripture not to have humor. Humor instructs us as much as it entertains us. God at the Improv seeks to show that being religious and being humorous are not opposites, but actually work in tandem to enhance and enliven our faith and practice.

In these divided and divisive times, what is the future course for our politics? In this ground-breaking book, Nick Timothy, one of Britain's leading conservative thinkers and commentators, explores the powerful forces driving great changes in our economy, society and democracy. Drawing on his experience at the top of government, Timothy traces the crisis of Western democracy back to both the mistaken assumptions of philosophical liberalism and the rise of ideological ultra-liberalism on left, right and centre. Sparing no sacred cows, he proposes a new kind of conservatism that respects personal freedom but also demands solidarity. He argues that only by rediscovering a unifying sense of the common good and restoring a mutual web of responsibilities between all citizens and institutions can we reject the extremes of economic and cultural liberalism, overcome our divisions, and remake one nation. He goes on to outline an ambitious practical plan for change, covering issues ranging from immigration to the regulation of Big Tech. Nick Timothy's original, forensic and thought-provoking analysis is a must-read for anybody tired by the old dogmas of the liberal left, right and centre. It is a major contribution to the debate on the future of conservatism as it grapples with geopolitical shifts, cultural change, and economic uncertainty.

From 1928 through 1982, when Columbia Pictures Corporation was a traded stock company, the studio released some of the most famous and popular films dealing with horror, science fiction and fantasy. This volume covers more than 200 Columbia feature films within these genres, among them Close Encounters of the Third Kind, The 7th Voyage of Sinbad, Earth vs. the Flying Saucers and The Revenge of Frankenstein. Also discussed in depth are the vehicles of such horror icons as Boris Karloff, Bela Lugosi, and John Carradine. Additionally highlighted are several of Columbia's lesser known genre efforts, including the Boston Blackie and Crime Doctor series, such individual features as By Whose Hand?, Cry of the Werewolf, Devil Goddess, Terror of the Tongs and The Creeping Flesh, and dozens of the studio's short subjects, serials and made-for-television movies.

**Martin Scorsese's current position in the international film community is unrivaled, and his name has become synonymous with the highest standards of filmmaking excellence. He is widely considered America's best living film director, and his Taxi Driver and Raging Bull appear frequently on worldwide surveys of the best films of all time. Here, in the first biographical account of this artist's life, Vincent LoBrutto traces Scorsese's Italian-American heritage, his strict Catholic upbringing, the continuing role of religion in his life and art, his obsessive love of cinema history, and the powerful impact that the streets of New York City had on his personal life and his professional career. Meanwhile, the filmmaker's humble, soft-spoken public persona tells only part of the story, and LoBrutto will delve into the other side of a complex and often tortured personality. Scorsese's intense passion, his private relationships, his stormy marriages, and his battles with drugs and depression are all chronicled here, and, in many cases, for the first time. In addition, the book includes an interview with the director, as well as filmographies cataloging his work as a director, producer, actor, and presenter. As his Best Director award at the 2007**

**Oscars clearly demonstrated, Scorsese has become something like Hollywood royalty in recent years, finally enjoying the insider status and favor that eluded him for most of his career. But these recent developments aside, Scorsese is also notable as a distinctly American type of artist, one whose work-created in a medium largely controlled by commercialism and marketing-has always been unmistakably his own, and who thus remains a touchstone of artistic integrity in American cinema. In *Martin Scorsese: A Biography*, readers can examine not only the work of one of the form's genuine artists, but also the forces that have propelled the man behind it.**

Madmen may see monsters - but some monsters hide in plain sight From a basement office in London's notorious Bethlehem Hospital, former policeman and Pinkerton agent, Sebastian Becker investigates those whose dubious mental health may render them unfit to manage their own affairs. When Becker is sent to interview wealthy landowner Sir Owain Lancaster, he claims that the same dark creatures who killed his family and colleagues in the Amazon have followed him home and are responsible for the deaths of two local young girls. It is not the first time that children have come to harm in his rural countryside town, though few are willing to speak of incidents from the past. Becker must determine whether this mad nobleman is insane and possibly a murderer, or if something more sinister is at work. From dank asylums to the lush and treacherous Amazon, through the makeshift studios of the early film industry and a traveling fair of freaks and illusions, Sebastian Becker's search for answers brings him face to face with madmen and monsters, both imagined and real.

*international students and staff in higher education Public health was the immediate concern when the Covid-19 pandemic struck in Asia, then in Europe and other parts of the world. The response of our education systems is no less vital. Higher education has played a major role in responding to the pandemic and it must help shape a better, more equitable and just post-Covid-19 world. This book explores the various responses of higher education to the pandemic across Europe and North America, with contributions also from Africa, Asia and South America. The contributors write from the perspective of higher education leaders with institutional responsibility, as well as from that of public authorities or specialists in specific aspects of higher education policy and practice. Some contributions analyse how specific higher education institutions reacted, while others reflect on the impact of Covid-19 on key issues such as internationalisation, finance, academic freedom and institutional autonomy, inclusion and equality and public responsibility. The book describes the various ways in which higher education is facing the Covid-19 pandemic. It is designed to help universities, specifically their staff and students as well as their partners, contribute to a more sustainable and democratic future.*
