The ever-growing demand for commercial activities at sea has meant that ships are rapidly developing and that the rules governing their construction and operation are changing. Practical Ship Design records these changes, their outcomes and the reasoning behind them. It deals with every aspect of ship design and handles a wide range of both merchant ships and naval ships with authority. It provides coverage of cargo ships and passenger ships, tugs, dredgers and other service craft. It also includes concept design, the effect of regulations, the preparation of specifications and matters of costs and economics. Drawing on the author’s extensive practical experience, Practical Ship Design is likely to interest everybody involved in the design, construction, repair and operation of ships. Students and the most experienced professionals will all benefit from the book’s vast store of design data and its conclusions and recommendations.

The Centers for Disease Control and Prevention (CDC) established the Vessel Sanitation Program (VSP) in the 1970s as a cooperative activity with the cruise ship industry. The program assists the cruise ship industry in fulfilling its responsibility for developing and implementing comprehensive sanitation programs to minimize the risk for acute gastroenteritis. Every vessel that has a foreign itinerary and carries 13 or more passengers is subject to twice-yearly inspections and, when necessary, re-inspection. Practical Ship DesignElsevier

Presents a detailed guide to ocean cruising, with descriptions of cruise ships and comparisons based on cabin facilities, service, destinations, and food, with special advice for singles, families, seniors, and the physically handicapped. This is an essential aid in the initial design and planning of a project. The relevant building type is located by a comprehensive index and cross reference system, a condensed commentary covers user requirements, planning criteria, basic dimensions and other considerations of function, siting aspect etc. A system of references based on an extensive bibliography supports the text. In every section plans, sections, site layouts, design details and graphs illustrated key aspects of a building type's design. Most illustrations are dimensioned or scaled - the metric system of measurement is used throughout, and the equivalent in feet/inches can easily be read either off a graphic scale on the page or from the built-in conversion table. The illustrations are international in origin and include both well know and less famous designers. Architects Data is primarily a handbook of building types rather than of construction techniques and details. However its treatment of components (such as doors and windows) and of spaces for building services is extremely thorough, since consideration of this data is an essential element of the planning process. The opening pages of basic data on man and his buildings cover critical subjects such as scale, drawing practice, noise, light and space for the same reason. Particular attention has also been paid to the implications of energy conservation, means of escape from fire and the needs of the elderly and the disabled.

Carol Milford is an exuberant, liberal-hearted woman who marries a man from a small town. After they marry they settle in his home-town, Gopher Prairie, which Carol finds narrow and ugly. She throws herself into reforming the town, but is met only with derision by her own class. She decides to leave, but finds that the world outside is just as flawed as Gopher Prairie. She remains uncowed, however, declaring "I do not admit that dish-washing is enough to satisfy all women!"

Order Now for Fall 2020! The novel coronavirus has likely changed the lives of most, if not all, people around the world. As we know, education is key—even for the youngest of readers. This series will take a look at what COVID-19 is, what a coronavirus is, the people risking their lives each day to keep the world moving, and the amazing technology that exists and is being created to fight the disease. Other titles will cover what social distancing and distance learning are, and what kids can do to connect with their friends, teachers, family, and community during these unprecedented times. Aligned to Common Core Standards and correlated to state standards. Abdo Kids Jumbo is an imprint of Abdo Kids, a division of ABDO.

'The Political Theatre' is among the most important documents of the modern stage. It tells of the foundation and flowering in Weimar Germany of a new form of theatre - epic theatre - designed to bring on to the stage the real political issues of the time, and to do so with all the aids that modern technology could supply. This book aims to aid decision-makers in planning, siting, designing, and operating composting facilities. It is also useful to citizens, regulators, consultants, and vendors interested in the composting of yard trimmings and municipal solid waste.

In Cruise Confidential, Brian David Bruns spills the dirt – or in this case, the dirty water – on those romantic, fun-filled vacations at sea. His hilarious chronicle of the year he spent working for Carnival Cruise Lines takes readers down into the areas where the crew works and lives, leaving readers gasping with laughter as they’re assaulted nonstop with events that range from the absurd to the utterly bizarre. Stewards fighting over food. Cutlery allowances and other nonsensical rules. What the crew calls those onboard (no, it’s not “passengers”). And of course, the sex. An abundance of ready, willing, and able bodies eager for action on a vessel replete with nooks and crannies leads to love in some mighty strange, and seemingly impossible, places. Breezy, entertaining, and informative, Cruise Confidential is essential reading for those planning a cruise or for anyone who just needs a good laugh.

Dijk's biography studies the fascinating life of the famous Dutch mathematician and philosopher Luitzen Egbertus Jan Brouwer. Brouwer belonged to a special class of genius; complex and often controversial and gifted with a deep intuition, he had an unparalleled access to the secrets and intricacies of mathematics. Most mathematicians remember L.E.J. Brouwer from his scientific breakthroughs in the young subject of topology and for the famous Brouwer fixed point theorem. Brouwer's main interest, however, was in the foundation of mathematics which led him to introduce, and then consolidate, constructive methods under the name 'intuitionism'. This made him one of the main protagonists in the 'foundation crisis' of mathematics. As a confirmed internationalist, he also got entangled in the interbellum struggle for the ending of the boycott of German and Austrian scientists. This time during the twentieth century was turbulent; nationalist resentment and friction between formalism and intuitionism led to the Mathematische Annalen conflict ('The war of the frogs and the mice'). It was here that Brouwer played a pivotal role. The present biography is an updated revision of the earlier two volume biography in one single book. It appeals to mathematicians and anybody interested in the history of mathematics in the first half of the twentieth century.

This book examines planning education provision and approaches globally, through a comparative and longitudinal perspective. It explores the emergence of planning education in the 20th century, with its rich variation and yet a remarkable degree of cross-fertilization. Each of the sections of the book is framed by an overview essay which has been prepared by the editors to provide the reader with a critical exposure to relevant scholarship drawing on the detailed case studies and exploratory essays on key issues in planning education. The first part of this volume focuses on the emergence of planning education programs in the twentieth century as a way to understand the current planning education environment. Then we explore how education in urban, regional and spatial planning has developed in different ways in different countries and continents. The final part of this volume aims to envision how planning can adapt and develop to remain relevant to the development of human environments in the 21st century. Urban planning education has become a pervasive practice throughout the world as urbanization and development pressures have increased over the past half century, and as demand increased for professional trained experts to guide those processes. The approaches vary widely, based in part upon the discipline from which the planning program developed as well as the context-specific challenges within the country or region where the program resides.

A Hit Below the Waterline: Where the Crew Lives, Eats, Wars, and Parties -- One Crazy Year Working on

Berlitz Cruising & Cruise Ships 2016

A Slice of Saturday Night

If you want a holiday that's hassle-free, virtually pre-paid, and that lets you see lots of places while only needing to pack and unpack once, then you should try a cruise. This best-selling book is the cruise industry bible: it gives you all the information you need to choose the right cruise for you. Meticulously updated every year by cruise expert Douglas Ward, it is divided into two main parts: the first helps you work out what you're looking for in a cruise holiday and how to find it; the lively text and colour photographs describe every aspect of life on board, including safety, the highs and lows of the cruise experience and how to save money. The second part contains unbiased reviews and fascinating detail of almost 300 ocean-going cruise vessels, and grades them on service, food, entertainment and facilities, using an internationally recognised ratings system.

This is the first focused and detailed textbook on acoustic virtual reality. Auralization is the creation of audible acoustic sceneries from computer-generated data. The term "auralization" is to be understood as being analogue to the well-known technique of "visualization". In visual illustration of scenes, data or any other meaningful information, in movie animation and in computer graphics, we describe the process of "making visible" as visualization. In acoustics, auralization is taking place when acoustic effects, primary sound signals or means of sound reinforcement or sound transmission, are processed to be presented by using electro-acoustic equipment. This book is organized as a comprehensive collection of basics, methodology and strategies of acoustic simulation and auralization.

As a First Lieutenant and Infantry Platoon Leader for the U.S. Army National Guard, Paul Rieckhoff was charged with leading thirty-eight men in Iraq. He spent almost a year in one of the bloodiest and most volatile areas of Baghdad. And when he finally came home, he vowed to tell Americans the harrowing truth. He does just that, uncensored and unrehearsed, "and with wit and passion" (Arianna Huffington), in Chasing Ghosts-the first criticism of the Iraq war written by a soldier who fought in it.

Luke Managan opened his first Salt restaurant in Sydney in 1999, and there are now several Salt and Salt grill restaurants worldwide. Salt Grill brings together the signature dishes from these restaurants, alongside Luke’s favourites. Suitable for the home cook and with more than 140 recipes, this book includes simple twists on old favourites like Orange Lamingtons, Rum Raisin and Chocolate Bread and Butter pudding and a Waldorf Salad with Bresaola; and untwisted standards like Lobster Thermidor, Salt and Pepper Squid and Floating Islands. Salt Grill captures the signature freshness and elegance of Luke’s food, in recipes that you can cook at home for your family and friends.

Imagine My Face is a long, epic, narrative poem telling the story of a Caribbean-American family encountering discrimination, hardship and adversity. As disciplined, hard-working Christians, even when faced with tragedy and heartbreak they continue to persevere, strengthened by the will of God, and inspired by each other. The physical descriptions for the main protagonists are excluded to allow readers the opportunity to visualize a family with sentimental, and emotional connection to them. This epic poetry was inspired by human rights movements, such as the Black Lives Matter Movement, Women’s Right for Equality and others.

The cruise industry is one of the fastest growing segments of tourism. Although, cruise tourism is a recent development in Asia and the Pacific as compared to the traditional destinations in the Caribbean and the Mediterranean, it has been growing at double-digit rates fuelled by the increasing demand from the North-East Asia markets, namely from China.

In an engaging and anecdotal social history, Sian Evans's Maiden Voyages explores how women's lives were transformed by the Golden Age of ocean liner travel between Europe and North America. During the early twentieth century, transatlantic travel was the province of the great ocean liners. It was an extraordinary undertaking made by many women, whose lives were changed forever by their journeys between the Old World and the New. Some traveled for leisure, some for work; others to reinvent themselves or find new opportunities. They were celebrities, migrants and millionaires, refugees, aristocrats and crew members whose stories have mostly remained untold—until now. Maiden Voyages is a fascinating portrait of the era, the ships themselves, and these women as they crossed the Atlantic. The ocean liner was a microcosm of contemporary society, divided by class: from the luxury of the upper deck, playground for the rich and famous, to the cramped conditions of steerage or third class travel. In first class you'll meet A-listers like Marlene Dietrich, Wallis Simpson, and Josephine Baker; the second class carried a new generation of professional and independent women, like pioneering interior designer Sibyl Colefax. Down in steerage, you'll follow the journey of émigré Maria Rilfelmacher as she escapes poverty in Europe. Bustling between decks is a crew of female attendants, including Violet 'The Unsinkable Stewardess' Jessop, who survived the Titanic dsaster. Entertaining and informative, Maiden Voyages captures the golden age of ocean liners through the stories of the women whose transatlantic journeys changed the shape of society on both sides of the globe.

As the need to slow climate change becomes increasingly urgent, growing numbers of people are looking to dramatically reduce the carbon footprint of their own buildings by using more ecologically sound techniques. Ecohouse provides design information about the latest low-impact materials and technologies, showcasing the newest and best 'green' solutions with international case studies demonstrating sustainable design in action around the world. This edition has been expanded to include advice on powering ecohouses using renewable energy - including wind, micro hydro and heat pumps - and an introduction to low-impact building materials such as lime, earth and hemp. New case studies from across the globe have been added to inspire readers with real-life examples of how to make an ecohouse work.

Little Theatre Musical Book, Music and Lyrics by The Heather Brothers. Characters: 4 male, 5 female Unit set. The Heather Brothers' homage to swinging sixties music was a smash hit at the King's Head Theatre and it enjoyed a long run after transferring to London's Arts Theatre. Slice has a lot of lively original songs in it, 30 of them, each neatly perched on the edge between parody of early rock and the real thing.-- Boston Globe. A pleasurable, lightly satirical revel in sixties manners and music ... with bite, kick and hanky panky.-- Guardian. Full of such clever, self mocking charm that it's difficult to come away feeling anything but thoroughly entertained.... The real pleasure comes from The Brothers' shameless poaching of an eclectic cross section of famous numbers.... Superb comic pastiche and sharp, cuff link humor.-- Time Out. A musical pastiche that takes you spinning back to the swinging decade to celebrate the eternal embarrassment of teen age.-- What's On.

Los Angeles magazine is a regional magazine of national stature. The centrality of the Himalayas as a connecting point or perhaps a sacred core for the Asian continent and its civilisations has captivated every explorer and scholar. The Himalaya is the meeting point of two geotectonic plates, three biogeographical realms, two ancient civilisations, two different language streams and six religions. This book is about the determinant factors which are at work in the Himalayas in the context of what it constitutes in terms of its spatiality, legends and myths, religious beliefs, rituals and traditions. The book suggests that there is no single way for understanding the Himalayas. There are layers of structures, imposition and superimposition of human history, religious traits and beliefs that continue to shape the Asian dynamics. An understanding of the ultimate union of the Himalayas, its confluences and its bridging role is essential for Asian balance. This book is a collaborative effort of an internationally acclaimed linguist, a diplomat-cum-geopolitician and a young Asianist. It provides countless themes that will be intellectually stimulating to scholars and students with varied interests. Please note: This title is co-published with KM Publishers, New Delhi. Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka.

This colorful book of food art invites even the most discriminating palate to play with his or her food. Edible ingredients are transformed into whimsical happy faces by the expert hand of chef Rudi Sodamin. In this inventive volume, he uses both everyday and luxury foods—grapes, apples, chile peppers, salmon roe, caviar, and black truffles, among many other items—to craft more than 150 funny faces that are sure to inspire both laughter and wonder. Like a modern Arcimboldo, Sodamin has carefully assembled these images using nothing but food items. Each face is a unique piece of art: vibrant in color, rich in texture, and constructed in an incredibly imaginative way. This book has a universal appeal that crosses all ages, languages, cultures—and food groups. Food Faces makes a great gift for anyone who needs a little lift.
