all it takes to master the times tables. Have a stopwatch on your phone? Use it to see how fast your student can complete each page. This helps to develop instant recall of math facts. Kids also enjoy the challenge of beating their former time. Especially if you reward them for their successes.

This Progress with Oxford Multiplication, Division and Fractions Age 7-8 workbook will help your child to progress with these core maths skills while having fun, moving onto the new skills expected at Key Stage 2. Each Progress with Oxford book is focused on the skills your child will need to master at each stage of the school curriculum. The books are precisely matched to your child's age to make sure they are aligned with school expectations for their year, helping children to fully achieve their potential. The series has been created to help

every child develop essential skills at home, with minimal help and support. Picture clues are used to show very young children how to complete activities, whilst reminder boxes, tips and advice support older children to become self-sufficient learners. A lively character accompanies your child through all the colourful and engaging activities, and fun stickers are included to reward their work. A handy progress chart at the end of each book captures their achievements, so you both know what to do next. Find further support on the Oxford Owl at Home website, which provides specific advice on helping your child develop their maths skills, and fun activities to extend their skills.
