Audisee® eBooks with Audio combine professional narration and sentence highlighting for an engaging read aloud experience! Throughout history and into the modern day, people have moved from place to place to flee danger and seek out better lives. But immigrants and refugees often meet harsh realities on their journeys.

Learn about immigration and refugee resettlement within the United States and throughout the world. Follow both historical and recent large migrations, understand the challenges of life in a new country, and see how activists fight for immigrants' and refugees' rights. Read Woke™ Books are created in partnership with Cicely Lewis, the Read Woke librarian. Inspired by a belief that knowledge is power, Read Woke Books seek to amplify the voices of people of the global majority (people who are of African, Arab, Asian, and Latin American descent and identify as not white), provide information about groups that have been disenfranchised, share perspectives of people who have been underrepresented or oppressed, challenge social norms and disrupt the status quo, and encourage readers to take action in their community.

This book is designed to present, in one convenient source, comments published in periodicals about 325 automobile models manufactured since 1987 on a model-by-model basis. These periodicals range from general interest to specialized sources as well as repair manuals and other publications related to the individual models.

Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

The latest update to Bela Liptak's acclaimed "bible" of instrument engineering is now available. Retaining the format that made the previous editions bestsellers in their own right, the fourth edition of Process Control and Optimization continues the tradition of providing quick and easy access to highly practical information. The authors are practicing engineers, not theoretical people from academia, and their from-the-trenches advice has been repeatedly tested in real-life applications. Expanded coverage includes descriptions of overseas manufacturer's products and concepts, model-based optimization in control theory, new major inventions and innovations in control valves, and a full chapter devoted to safety. With more than 2000 graphs, figures, and tables, this all-inclusive encyclopedic volume replaces an entire library with one authoritative reference. The fourth edition brings the content of the previous editions completely up to date, incorporates the developments of the last decade, and broadens the horizons of the work from an American to a global perspective. Béla G. Lipták speaks on Post-Oil Energy Technology on the AT&T Tech Channel.

Unstoppable is a word defined as "difficult or impossible to preclude or stop." As a human quality, it is something that we associate with people such as sports superstars, those who do whatever it takes to inspire others and lead teams to the greatest of victories. Sometimes, an idea or person can become unstoppable. Unstoppable, like Charles Lindbergh crossing the Atlantic in a solo flight when no one had thought it was possible, or track star Roger Bannister breaking the four-minute mile barrier. Not everyone can be an explorer or a great athlete, but

anyone can be unstoppable in their chosen endeavors in life. If you are willing to possess an unwavering determination to succeed and a consistent willingness to learn and evolve, you can become unstoppable and triumph too. This book is about a personal struggle, one in which the author awoke from a coma after a terrible accident and faced a life of permanent paralysis. A long battle of driven determination resulted in Yanni Raz regaining his health and becoming a self-made millionaire after migrating from his native Israel to the United States. Through careers as a musician, a Starbucks barista, a salesman, a real estate whiz, a professional poker player and a hard money lender, Yanni learned reliable principles and the skills necessary for success. Unstoppable covers many topics including controlling your life, making the best decisions, creating new opportunities, properly assessing signals, expertly negotiating, and succeeding by storytelling across the media landscape. You'll learn about integrity in business, asset diversification, and many other life tips that thousands of people learn from Yanni on a daily basis. It is time to become fearless and lead a powerful life. With Yanni's new book Unstoppable, you can

Geoffrey Berg, a graduate of Cambridge University, England, believes the case for atheism has never been put in as forceful and logically cogent a way as it merits, least of all by the great philosophers. In this book he sets out to remedy that by strengthening some traditional atheistic arguments and by initiating some new logical arguments for atheism. Geoffrey Berg develops six simple completely logical arguments in clear language that practically everybody can understand in a way that has never been done before to prove that belief in God is not merely unsupported by Logic but is actually contrary to Logic. This is a groundbreaking book because it is probably the first attempt by a single author that devotes an entire book to absolutely disproving the existence of God, all the time matching verbal arguments with strictly logical formulations of the argument. It aims to crystallize the case for atheism in a way that has not been done before. It is likely in retrospect to be seen as a landmark book because some of the novel

arguments in this book are likely to be used hereafter by people around the world.
