Attention Deficit Hyperactivity Disorder, or ADHD, causes problems with physical activity levels, focusing on family and control of impulses. Even though some people prefer to believe that men and women who are overly active or cannot focus on family have behavioral issues that can be corrected with good discipline, studies show that ADHD is a real condition, possibly with genetic or environmental causes. The Center for Disease Control recognizes ADHD is one of the most common neurobehavioral disorders that are diagnosed in both adults and children. Though many adults often have difficulties sitting still or focusing on tasks, those with ADHD can lead to progressively more serious problems at work and at home. Not all men and women with ADHD have the same degree of physical activity. Some may have a low degree of activity, while others may be highly active. Symptoms include chronic daydreaming, fidgeting, constant motion, inability to listen, inability to sit quietly, problems taking turns, speaking out of turn and difficulty paying attention. Researchers believe ADHD may have a strong genetic component because of their work with twins. Other proposed causes may be exposure to lead, alcohol and tobacco use during pregnancy, low birth weight, premature delivery and brain injury. No research concludes that poverty, family problems, and too much television or consuming large amounts of sugar causes ADHD, though these factors may exacerbate symptoms. These are serious problems that can seriously affect your marriage. If you see any of these symptoms in your spouse or partner you need to pick up a copy of this book : *The Effect ADHD Has On Marriage* by Terence A. Williams that will help you not only understand your spouse better but alleviate a lot of the stress you are going through.

National Book Award Finalist A heartstrong story of family and romance, tribulation and tenacity, set on the High Plains east of Denver. In the small town of Holt, Colorado, a high school teacher is confronted with raising his two boys alone after their mother retreats first to the bedroom, then altogether. A teenage girl—her father long since disappeared, her mother unwilling to have her in the house—is pregnant, alone herself, with nowhere to go. And out in the country, two brothers, elderly bachelors, work the family homestead, the only world they've ever known. From these unsettled lives emerges a vision of life, and of the town and landscape that bind them together—their fates somehow overcoming the powerful circumstances of place and station, their confusion, curiosity, dignity and humor intact and resonant. As the milieu widens to embrace fully four generations, Kent Haruf displays an emotional and aesthetic authority to rival the past masters of a classic American tradition.

Shadow on the Mountain recounts the adventures of a 14-year-old Norwegian boy named Espen during World War II. After Nazi Germany invades and occupies Norway, Espen and his friends are swept up in the Norwegian resistance movement. Espen gets his start by delivering illegal newspapers, then graduates to the role of courier and finally becomes a spy, dodging the Gestapo along the way. During five years under the Nazi regime, he gains—and loses—friends, falls in love, and makes one small mistake that threatens to catch up with him as he sets out to escape on skis over the mountains to Sweden. Preus incorporates archival photographs, maps, and other images to tell this story based on the real-life adventures of Norwegian Erling Storrusten, whom Preus interviewed in Norway. Praise for *Shadow on the Mountain* **STARRED REVIEWS** "Newbery Honor winner Preus infuses the story with the good-natured humor of a largely unified, peace-loving people trying to keep their sanity in a world gone awry. Based on a true story, the narrative is woven with lively enough daily historical detail to inspire older middle-grade readers to want to learn more about the Resistance movement and imitate Espen's adventures." —Kirkus Reviews, starred review "This engrossing offering sheds light on the Norwegians' courage during World War II. Preus masterfully weds a story of friendship with the complications faced by 14-year-old Espen and his friends as Nazi restrictions and atrocities become part of their everyday lives...This is at once a spy thriller, a coming-of-age story, and a chronicle of escalating bravery. Multidimensional characters fill this gripping tale that keeps readers riveted to the end." —School Library Journal, starred review "A closely researched historical novel... relates this wartime tale with intelligence and humor...Ms. Preus deftly uses together historical fact (Espen is based on a real-life spy) and elements of Norwegian culture to conjure a time and place not so terribly long ago." —The Wall Street Journal "Margi Preus, who won a Newbery honor for *Heart of a Samurai*, returns with another riveting work of historical fiction... This fine novel, which includes an author's note, a timeline, a bibliography and even a recipe for invisible ink, is based on extensive research... The result is an authentic coming-of-age story, perfect for readers fascinated by the diary of Anne Frank or Lois Lowry's classic, *Number the Stars*." —BookPage "The final chapters, which chronicle Espen's dramatic escape to Sweden—days and nights of mountain skiing, Nazis in hot pursuit—take the book into adventure-thriller territory without losing the humanity that characterizes Preus's account." —The Horn Book Magazine "Preus makes crystal clear the life imperiling risks that Espen undertakes and the danger to his family." —The Bulletin of the Center for Children's Books "As readers understand the risks that Espen took, they will want to learn more about this period. That Espen escaped to Sweden by traveling at night on skis with five different guides should intrigue them." —Library Media Connection Awards VOYA Top Shelf for Middle School Readers 2012 list 2013 Notable Books for a Global Society Dorothy Canfield Fisher Book Award

Hundreds of people first attended the first West Indian Carnival held at Seymour Hall, London, in 1959. In this book you will meet some of those pioneers and share closely in their struggle to found a new life. This is, in particular, the autobiography of one of those young men.

Although Sam King seems destined to grow up a farmer on the banana plantations of Jamaica, his social and intellectual interests seek a different fulfilment. In Britain, after serving with the RAF during the war, he discovers his political vocation, becoming the first black mayor of the London Borough of Southwark, while around him his friends and colleagues are establishing the community that has become such a central part of modern Britain. More than just the story of the meeting of the fortunes of one man and two nations, this is an exploration of personal and cultural history and of belonging - a gracious and revealing account of determination, honesty and faith, of achievement, experience and of the importance of preserving memories for posterity .."....In Climbing Up the Rough Side of the Mountain, Sam King, co-founder of the charitable Windrush Foundation, recalls life on board: the trepidation in the eyes of his countrymen (and eight women) who paid #28/10s (#28.50) to make the voyage, how they lived and slept side-by-side, forced down meals of mashed-potato, and pulled up thier zoot suit collars to fend off the sea breezes." 'The Independent on Sunday'

Vulpes is the smartest pup of the litter and he grows into a fast, quick-witted fox whose abilities become legend among the forest's hunters. He leads them on hopeless chases, slipping away at the last moment--then he comes face to face with the hunter who is his greatest enemy.

It's 2001, and amidst the political turmoil in Haiti, three disparate lives collide: Yolande, an impoverished farmer desperately looking for the sister her abusive husband has sold into slavery; Maddy, an eager British journalist on her first overseas assignment, set on making a name for herself; and Clare, an ex-pat gynaecologist who's devoted the past eight years to healing Haiti's downtrodden women. Divided by language, lifestyle and personality yet all driven by painful memories buried in their pasts, the three women unite to search for the missing child. It's a quest that takes them deep into the city's underworld, where poverty is rife, black magic thrives and violence is king; a world in which appearances can be deceptive and where survival is by no means certain.

Part of John Muir's appeal to modern readers is that he not only explored the American West and wrote about its beauties but also fought for their preservation. His successes dot the landscape and are evident in all the natural features that bear his name: forests, lakes, trails, and glaciers. Here collected are some of Muir's finest wilderness essays,

ranging in subject matter from Alaska to Yellowstone, from Oregon to the High Sierra. This book is part of a series that celebrates the tradition of literary naturalists—writers who embrace the natural world as the setting for some of our most euphoric and serious experiences. These books map the intimate connections between the human and the natural world. Literary naturalists transcend political boundaries, social concerns, and historical milieus; they speak for what Henry Beston called the “other nations” of the planet. Their message acquires more weight and urgency as wild places become increasingly scarce.
