In the late 1290s, an imprisoned Venetian merchant dictated an account of his amazing adventures in China. That book, *The Travels of Marco Polo*, was an instant success. Though scholars once derided Polo's tale, today's historians accept it as accurate. The original manuscripts are long lost, but now, for the first time, a modernized hybrid edition has been compiled from translations by William Marsden and Henry Yule. Comprising nearly 150 chapters, this superbly illustrated, silk-bound abridgement of this seminal work is a treasure worthy of its subject.

The author recounts his experiences traveling by motorcycle along the route Marco Polo described in his Travels, and clears up some puzzling aspects of the seven-hundred-year-old account

Marco Polo was nicknamed "Marco of the millions" because his Venetian countrymen took the grandiose stories of his travels to be exaggerated, if not outright lies. As he lay dying, his priest, family, and friends offered him a last chance to confess his mendacity, and Marco, it is said, replied "I have not told the half of what I saw and did." Now, in his new novel *The Journeyer*, Gary Jennings has imagined the half that Marco left unsaid as even more elaborate and adventurous than the tall tales thought to be lies. From the palazzi and back streets of medieval Venice to the sumptuous court of Kublai Khan, from the perfumed sexuality of the Levant to the dangers and rigors of travel along the Silk Road, *Marco meets all manner of people, survives all manner of danger, and, insatiably curious, becomes an almost compulsive collector of customs, languages and women. In more than two decades of travel, Marco was variously a merchant, a warrior, a lover, a spy, even a tax collector - but always a journeyer, unflagging in his appetite for new experiences, regretting only what he missed. Here - recreated and reimagined with all the splendor, the love of adventure, the zest for the rare and curious that are Jennings's hallmarks - is the epic account, at once magnificent and delightful, of the greatest real-life adventurer in human history. Marco Polo was the most famous traveller of his time. His voyages began in 1271 with a visit to China, after which he served the Kublai Khan on numerous diplomatic missions. On his return to the West he was made a prisoner of war and met Rustichello of Pisa, with whom he collaborated on this book. The accounts of his travels provide a fascinating glimpse of the different societies he encountered: their religions, customs, ceremonies and way of life; on the spices and silks of the East; on precious gems, exotic legends and wild beasts. He tells the story of the holy shoemaker, the wicked caliph and the three kings, among a great many others, evoking a remote and long-wished world with colour and immediacy. In 922 AD, an Arab envoy from Baghdad named Ibn Fadlan encountered a party of Viking traders on the upper reaches of the Volga River. In his subsequent report on his mission he gave a meticulous and astonishingly objective description of Viking customs, dress, table manners, religion and sexual practices, as well as the only eyewitness account ever written of a Viking ship cremation. Between the ninth and fourteenth centuries, Arab travellers such as Ibn Fadlan journeyed widely and frequently into the far north, crossing territories that now include Russia, Uzbekistan and Kazakhstan. Their fascinating accounts describe how the numerous tribes and peoples they encountered traded furs, paid tribute and waged wars. This accessible new translation offers an illuminating insight into the world of the Arab geographers, and the medieval lands of the far north.

Did Marco Polo reach China? This richly illustrated companion volume to the public television film chronicles the remarkable two-year expedition of explorers Denis Bellevau and Francis O'Donnell as they sought the answer to this controversial 700-year-old question. With Polo's book, *The Travels of Marco Polo*, as their guide, they journeyed over 25,000 miles becoming the first to retrace his entire path by land and sea without resorting to helicopters or airplaning. Surviving deadly skirmishes and capture in Afghanistan, they were the first Westerners in a generation to cross its ancient forgotten passageway to China, the Wakhan Corridor. Their camel caravan on the southern Road encountered the deadly singing sands of the Taklamakan and Gobi deserts. In Sumatra, where Polo was stranded waiting for trade winds, they lived with the Mentawai tribes, whose culture has remained unchanged since the Bronze Age. They became among the first Americans granted visas to enter Iran, where Polo fulfilled an important mission for Kublai Khan. Accompanied by 200 stunning full-color photographs, the text provides a fascinating account of the lands and peoples the two hardy adventurers encountered during their perilous journey. The authors' experiences are remarkably similar to descriptions from Polo's account of his own travels and life. Laden with adventure, humor, diplomacy, history, and art, this book is compelling proof that travel is the enemy of bigotry—a truth that resonates from Marco Polo's time to our own.

"I have read everything written on Marco Polo, and John Man's book is, by far, my favorite work on the subject. It's not only an over-due and important historical study, it's an entertaining ride every step of the way." — John Fusco, Creator of the Netflix original series Marco Polo
The true history behind the Netflix original series Marco Polo is the remarkable story of the world's most famous traveler, retracing his legendary journey from Venice to China, the moment East first met West. In 1271, a young Italian merchant named Marco Polo embarked on a groundbreaking expedition from Venice, through the Middle East and Central Asia to China. His extraordinary reports of his experiences introduced medieval Europe to an exotic new world of emperors and concubines, amazing cities, huge armies, unusual spices and cuisine, and imperial riches. Marco Polo also revealed the wonders of Xanadu, the summer capital of Mongol emperor Kublai Khan. Almost 750 years later, acclaimed author John Man traveled in Marco Polo's footsteps to Xanadu then on to Beijing and through modern China in search of the history behind the legend. In this enthralling chronicle, Man draws on his own journey, new archaeological findings, and deep archival study to paint a vivid picture of Marco Polo and the great court of Kublai Khan.

The Journeyer

Who knew that Marco Polo went to China, served Ghengis Khan for many years, and returned to Italy with the recipes for pasta and ice cream. But Frances Wood, head of the Chinese Department at the British Library, argues that Marco Polo not only never went to China, he probably never even made it past the Black Sea, where his family conducted business as merchants.Marco Polo's travels from Venice to the exotic and distant East, and his epic book describing his extraordinary adventures. A Description of the World, ranks among the most famous and influential books ever published. In this fascinating piece of historical detection, marking the 700th anniversary of Polo's journey, Frances Wood questions whether Marco Polo ever reached the country he so vividly described. Why, in his romantic and seemingly detailed account, is there no mention of such fundamentals of Chinese life as tea, foot-binding, or even the Great Wall? Did he really bring back pasta and ice cream to Italy? And why, given China's extensive and even obsessive record-keeping, is there no mention of Marco Polo anywhere in the archives?Sure to spark controversy, Did Marco Polo Go to China? tries to solve these and other inconsistencies by carefully examining the Polo family history, Marco Polo's activities as a merchant, the preparation of his book, and the imperial Chinese records. The result is a lucid and readable look at medieval European and Chinese history, and the characters and events that shaped this extraordinary and enduring myth.

Marco Polo Didn't Go There is a collection of rollicking travel tales from a young writer USA Today has called "Jack Kerouac for the Internet Age." For the past ten years, Rolf Potts has taken his keen postmodern travel sensibility into the far fringes of five continents for such prestigious publications as *National Geographic Traveler*, *Salon.com*, and *The New York Times Magazine*. This book documents his boldest, funniest, and most revealing journeys—from getting stranded without water in the Libyan desert, to crashing the set of a Leonardo DiCaprio movie in Thailand, to learning the secrets of tantric sex in a dubious Indian ashram. Marco Polo Didn't Go There is more than just an entertaining journey into fascinating corners of the world. The book is a unique window into travel writing, with each chapter containing a "commentary track"—endnotes that reveal the ragged edges behind the experience and creation of each tale. Offbeat and insightful, this book is an engrossing read for students of travel writing as well as armchair wanderers.
