Third International Conference, DTGS 2018, St. Petersburg, Russia, May 30 - June 2, 2018, Revised Selected Papers, Part I

A Practical Approach

Multi-Tier Application Programming with PHP

The 13th International Conference on Human-Computer Interaction, HCI International 2009, was held in San Diego, California, USA, July 19-24, 2009, jointly with the Symposium on Human Interface (Japan) 2009, the 8th International Conference on Engineering Psychology and Cognitive Ergonomics, the 5th International Conference on Universal Access in Human-Computer Interaction, the Third International Conference on Virtual and Mixed Reality, the Third International Conference on Internationalization, Design and Global Development, the Third International Conference on Online Communities and Social Computing, the 5th International Conference on Augmented Cognition, the Second International Conference on Digital Human Modeling, and the First International Conference on Human Centered Design. A total of 4,348 individuals from academia, research institutes, industry and governmental agencies from 73 countries submitted contributions, and 1,425 papers that were judged to be of high scientific quality were included in the program. These papers address the latest research and development efforts and highlight the human aspects of the design and use of computing systems. The papers accepted for presentation thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas.

This book has unique 3 Stage guaranteed learning system with interactive software. It contains Training Kit for Windows 98/Me, Word, Excel, Access 2000 and Internet. The CD-ROM contains Self learning tutorials on Windows, Word, Excel, Access, Internet plus Busylite financial Accounting & SmartCop Anti Virus Software.

Explains how to build interactive Web sites with the PHP scripting language and the MySQL database.

Developing web applications using PHP
