The Story of how Many Thousands of Men and Women Have Recovered from Alcoholism

The Boxford Mosaic

An eye-opening biography of one of the most influential psychiatrists of the modern age, drawing from his lectures, conversations, and own writings. In the spring of 1957, when he was eighty-one years old, Carl Gustav Jung undertook the telling of his life story. Memories, Dreams, Reflections is that book, composed of conversations with his colleague and friend Aniela Jaffé, as well as chapters written in his own hand, and other materials. Jung continued to work on the final stages of the manuscript until shortly before his death on June 6, 1961, making this a uniquely comprehensive reflection on a remarkable life. Fully corrected, this edition also includes Jung's VII Sermones ad Mortuos. This fascinating full-color book tells the complete story behind the most spectacular and innovative Roman mosaic ever found in Britain. The Boxford Mosaic, dating from around 350AD, is one of just three mosaics of its kind in the world - a masterpiece of Roman artistry and a beautifully preserved link to the past. Yet it lay hidden beneath a field in Boxford, England, for some 1,600 years until it was fully uncovered in the summer of 2019. The book reveals the inside story of its rediscovery, excavation and the myths depicted on it.

A Unique Survivor from the Roman Age

Since precious few architectural drawings and no theoretical treatises on architecture remain from the premodern Islamic world, the Timurid pattern scroll in the collection of the Topkapi Palace Museum Library is an exceedingly rich and valuable source of information. In the course of her in-depth analysis of this scroll dating from the late fifteenth or early sixteenth century, G ü lu Necipo lu throws new light on the conceptualization, recording, and transmission of architectural design in the Islamic world between the tenth and sixteenth centuries. Her text has particularly far-reaching implications for recent discussions on vision, subjectivity, and the semiotics of abstract representation. She also compares the Islamic understanding of geometry with that found in medieval Western art, making this book particularly valuable for all historians and critics of architecture. The scroll, with its 114 individual geometric patterns for wall surfaces and vaulting, is reproduced entirely in color in this elegant, large-format volume. An extensive catalogue includes illustrations showing the underlying geometries (in the form of incised "dead" drawings) from which the individual patterns are generated. An essay by Mohammad al-Asad discusses the geometry of the muqarnas and demonstrates by means of CAD drawings how one of the scroll's patterns could be used to design a three-dimensional vault.

"[A] relentless exploration . . . The story of Meyer's murder, and its cover up, is one more fascinating footnote to the Kennedy assassination." –David Talbot, New York Times-bestselling author The death of Mary Meyer left many Americans with questions. Who really killed her? Why did CIA counterintelligence chief James Angleton rush to find and confiscate her diary? Had she discovered the plan to assassinate her lover, President Kennedy, with the trail of information ending at the steps of the CIA? Was it only coincidence that she was killed less than three weeks after the release of the Warren Commission Report? Fans of The Murder of Mary Russell, JFK: A Vision for America, and other JFK books will love Mary's Mosaic. Building and relying on years of interviews and painstaking research, author Peter Janney follows the key events and influences in Mary Pinchot Meyer's life–her first meeting with Jack Kennedy; her support of her secret lover, President Kennedy, as he worked towards the pursuit of world peace and away from the Cold War; and her exploration of psychedelic drugs. Fifty years after the assassinations of President Kennedy and Mary Meyer, this book helps readers understand why both took place. Author Peter Janney fought for two years to obtain documents from the National Personnel Records Center and the US Army to complete this third edition. It includes a final chapter about the mystery man who could be the missing piece to learn the truth behind Meyer's murder. "Reads like a John Grisham thriller crossed with an Oliver Stone movie." –The Boston Globe "A fascinating story . . . Peter Janney's unsparring analysis moves us closer to a reckoning." –Oliver Stone

Engages with the materiality of medieval manuscripts to illustrate the importance of the study of physical texts to literary appreciation, and studies marginal annotation, the physical characteristics of manuscripts and books, and miniature illustrations to show how the book was encountered and understood by medieval producers and readers.

MYSTERY MOSAICS. PASSION. COLOR BY NUMBER BOOK FOR ADULTS. This is a unique color by number mosaic book, where final pictures appear only after you color all square sections. Each section is 3*3 mm. 25 pictures open mostly all sides of the Passion essence. For example, for somebody music is a passion, for others - sport, old cars, travel or jewelry, etc. You will remember or recover your passion while coloring. This process looks like Sudoku from the first side, but it is not. It's a new format of color by number mosaic book - stress relief and mindware. The unique palette of 22 colors (18 classics and 4 additional color shades), is easy to find in any pen, pencil or felt-tip set. Each color suits a particular number on the picture. The palette is located at the backside of the cover. In any case, you can use 18 colors, changing 4 additional shades into the similar in the palette. You can choose your method of coloring - to color squares completely or to color with crosses like in Sudoku. This method will suit for those who like Sudoku and for those who consider 3*3 mm. sections a little bit uncomfortable for eyes. Who that cares much to know the history of man, and how the mysterious mixture behaves under the varying experiments of Time, has not dwelt, at least briefly, on the life of Saint Theresa. She has not smiled with some gentleness at the thought of the little girl walking forth one morning hand-in-hand with her still smaller brother, to go and seek martyrdom in the country of the Moors? Out they toddled from rugged Avila, wide-eyed and helpless-looking as two fawns, but with human hearts, already beating to a national idea; until domestic reality met them in the shape of uncles, and turned them back from their great resolve. That child-pilgrimage was a fit beginning. Theresa's passionate, ideal nature demanded an epic life: what were many-volumed romances of chivalry and the social conquests of a brilliant girl to her? Her flame quickly burned up that light fuel; and, fed from within, soared after some illimitable satisfaction, some object which would never justify weariness, which would reconcile self-despair with the rapturous consciousness of life beyond self. She found her epos in the reform of a religious order.

Contractor Shannon Hammer steels her nerve to pin down a killer in the latest Fixer-Upper Mystery from the New York Times bestselling author of Premeditated Mortar. . . . Shannon could not be happier that her hunky thriller-writing boyfriend, Mac, has moved in, and it is a good thing they are living together because they are both busier than ever. Mac is hosting writing retreats at his now vacant lighthouse mansion, while Shannon and her crew build Homefront, a quaint Victorian village of tiny homes for veterans in need. Mac's latest guests are proving to be a handful though, and Shannon has heard some grumbling from the luminaries of Lighthouse Cove about her latest passion project. But nothing can throw a wrench in their plans except a malicious murder. When one of Shannon's new friends is found brutally bludgeoned with a mallet near the lighthouse on Mac's property, the couple hammers out a suspect list and searches for a motive. As they drill deeper for clues, more violence strikes and a new victim winds up in a coma. The pressure is on, and Shannon and Mac will have to move fast to find an unhinged killer dead set on demolishing anyone who gets in their way. . . .

Even before the myth of Prometheus, fire played a crucial ecological role around the world. Numerous plant communities depend on fire to generate species diversity in both time and space. Without fire such ecosystems would become sterile monocultures. Recent efforts to prohibit fire in fire dependent communities have contributed to more intense and more damaging fires. For these reasons, foresters, ecologists, land managers, geographers, and environmental scientists are interested in the behavior and ecological effects of fire. This book will be the first to focus on the chemistry and physics of fire as it relates to the ways in which fire behaves and the impacts it has on ecosystem function. Leading international contributors have been recruited by the editors to prepare a didactic text/reference that will appeal to both advanced students and practicing professionals.
