'Malcolm Smith's Research Methods in Accounting provides a useful addition to the limited number of books on research methods that are addressed specifically to the area of accounting. For students taking DBA degrees in the area, it is probably an ideal companion' - The European Accounting Review Research in accounting is concerned with solving problems, investigating relationships and building a body of knowledge. With this in mind, this book will provide a clear and concise overview of the conduct of applied research studies in accounting. It provides the principal building blocks of how to implement research in accounting and related fields. This book provides students with: - an understanding of contemporary research ideas in
