

National Geographic Readers Meerkats

Uses humour and real science to illuminate the gross, strange, morbid, and outright absurd realities of our bodies, our earth, and our universe.

Discusses physical characteristics, behavior, habitats, and life cycle of wild cats.

"A look at meerkats, including their habitats, physical characteristics such as their tails, behaviors, relationships with humans, and their stable status in the world today"--

This lavishly illustrated title offers unique insight into the world of the muchloved Meerkat. It is unique since it is the first book on the subject written by a professionally qualified nature conservationist - one who has over two decades' worth of experience in wild Meerkat research and conservation. It explores every aspect of these mammals' fascinating lives, and even has a crash course in how to speak Meerkat! -- Grant McIlrath

Amazing Animals: Meerkats

Coral Reefs

National Geographic Readers: Night Sky

A basic exploration of the appearance, behavior, and habitat of meerkats, the African mammals that live in mobs. Also included is a story from folklore explaining why meerkats are always on the lookout.

A look at the social and emotional lives, as well as communication methods, of meerkats.

Take a tour around the world to meet all kinds of bears in this delightful pre-reader. Kids love bears and in this book they'll be introduced to them all: Grizzly, polar, sun, sloth, black, and brown. Great full-colour photos reveal details about how and where they live.

Perfect for beginning and young readers, National Geographic Pre-readers include simple, expert-vetted text and large, engaging photos on every page. A vocabulary tree at the beginning of the book introduces kids to key words in concept groups, helping kids make connections between words. Plus, a wrap-up activity gives kids a chance to use what they've learned, while expanding their understanding of the world.

A bear cub and its family prepare to hibernate for the winter.

Koalas

Flutter, Butterfly!

Animal Parents and Babies

Most animals have enemies that want to do them harm, so they need some type of protection. Some have developed clever ways to hide; others have good tricks to scare their attackers away; some are good at escaping from danger. Different creatures use speed to run, fly or swim away, while some retaliate with sharp teeth, horns, beaks and claws.

Learn about the cute and fuzzy creatures known as meerkats and spend a day in the Kalahari Desert. A series of questions and answers introduces children to the life and habitat of Little Meerkat. Through playful and informative text early readers learn what meerkats eat, where they live, and how they scamper and play together. Patricia J. Wynne's scientifically accurate illustrations make these exotic animals come to life in any climate. Back matter includes additional child-friendly facts perfect for the earliest of animal lovers.

Reading Gems is a series designed to spark a love of reading. It is a supplementary reading programme that is graded into four levels to perfectly suit a child's reading ability from an emerging reader to a confident, independent reader. Parents and teachers can be reassured that children are reading books that support their ability, challenge their reading skills and encourage reading confidence with every word on the page.

An introduction to koalas covers where they live, what they eat, and how they communicate, and follows the animal's development from cub to adult.

Meerkat

Dolphins

Who is that howling from deep in the woods? Wolves and coyotes might have similar calls, but they have several differences! This engaging title uses simple text, clear photos, and side by side comparisons to show beginning readers the differences between these lookalike predators.

Everyone loves the smile on a dolphin's face. Though smart enough to become theme park tricksters, dolphins are first and foremost wild mammals. Melissa Stewart's lively text outlines our responsibility to conserve their natural environment. This high-interest book also offers an interactive experience to boost awareness of these adorable creatures. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

Through a series of flip-up postcards addressed to his family, Sunny Meerkat documents his travels as he searches for the perfect place for him to live.

Meerkats live in colonies that work together to hunt for food and protect one another from soaring predators. Readers will learn a lot more awesome facts with simple sentences and exciting photographs. Aligned to Common Core Standards and correlated to state standards. Abdo Kids Jumbo is an imprint of Abdo Kids, a division of ABDO.

Kids will learn all about the night sky, from the moon to constellations to planets, in this new National Geographic Reader. The level 2 text provides accessible, yet wide-ranging information for beginning readers. From the Trade Paperback edition.

When baby meerkats are born, they are only the size of an adult hand. But even though they are small, they quickly take on big responsibilities within the complex meerkat community. From keeping a lookout for predators and prey, to foraging for food, these baby meerkats spend a lot of time fighting to be in charge!

Lions

Meet the Meerkat

National Geographic Readers: Ponies

National Geographic Readers: Dolphins

It ' s early morning in an African desert. Suddenly, from a small hole in the sandy ground, a little meerkat appears. Then another and another pops out. Soon a whole family, or mob, of meerkats leaves its underground home. As the adult meerkats look for breakfast, some tiny pups play close to the burrow under the watchful eye of an adult. In Meerkat ' s Burrow, kids will explore the underground and above-ground world of a meerkat family through clear text and large, full-color photos. Age-appropriate activities, such as imagining what it ' s like inside the burrow, and critical-thinking questions give readers a chance to gain insights beyond the facts and figures. Fun information, such as the fact that meerkats dig special tunnels to dive into to escape predators, is sure to delight young readers.
