A NATIONAL JEWISH BOOK AWARD FINALIST A Recommended Book From: The New York Times * Good Morning America * Entertainment Weekly * Electric Literature * The New York Post * Alma * The Millions * Book Riot A commanding debut and a poignant coming-of-age story about a devout Jewish high school student whose plunge into the secularized world threatens everything he knows of himself Ari Eden's life has always been governed by strict rules. In ultra-Orthodox Brooklyn, his days are dedicated to intense study and religious rituals, and adolescence feels profoundly lonely. So when his family announces that they are moving to a glitzy Miami suburb, Ari seizes his unexpected chance for reinvention. Enrolling in an opulent Jewish academy, Ari is stunned by his peers' dizzying wealth, ambition, and shameless pursuit of life's pleasures. When the academy's golden boy, Noah, takes Ari under his wing, Ari finds himself entangled in the school's most exclusive and wayward group. These friends are magnetic and defiant—especially Evan, the brooding genius of the bunch, still living in the shadow of his mother's death. Influenced by their charismatic rabbi, the group begins testing their religion in unconventional ways. Soon Ari and his friends are pushing moral boundaries and careening toward a perilous future—one in which the traditions of their faith are repurposed to mysterious, tragic ends. Mesmerizing and playful, heartrending and darkly romantic, *The Orchard* probes the conflicting forces that determine who we become: the heady relationships of youth, the allure of greatness, the doctrines we inherit, and our concealed desires.

Antarctica, the last place on Earth, is not famous for its cuisine. Yet it is famous for stories of heroic expeditions in which hunger was the one spice everyone carried. At the dawn of Antarctic cuisine, cooks improvised under inconceivable hardships, castaways ate seal blubber and penguin breasts while fantasizing about illustrious feasts, and men seeking the South Pole stretched their rations to the breaking point. Today, Antarctica's kitchens still wait for provisions at the far end of the planet's longest supply chain. Scientific research stations serve up cafeteria fare that often offers more sustenance than style. Jason C. Anthony, a veteran of eight seasons in the U.S. Antarctic Program, offers a rare workaday look at the importance of food in Antarctic history and culture. Anthony's tour of Antarctic cuisine takes us from hoosh (a porridge of meat, fat, and melted snow, often thickened with crushed biscuit) and the scurvy-ridden expeditions of Shackleton and Scott through the twentieth century to his own preplanned three hundred meals (plus snacks) for a two-person camp in the Transantarctic Mountains. The stories in *Hoosh* are linked by the ingenuity, good humor, and indifference to gruel that make Anthony's tale as entertaining as it is enlightening.

Wyatt Earp is one of the most legendary figures of the nineteenth-century American West, notable for his role in the gunfight at the O.K. Corral in Tombstone, Arizona. Some see him as a hero lawman of the Wild West, whereas others see him as yet another outlaw, a pimp, and failed lawman. Roy B. Young, Gary L. Roberts, and Casey Tefertiller, all notable experts on Earp and the Wild West, present in *A Wyatt Earp Anthology* an authoritative account of his life, successes, and failures. The editors have curated an anthology of the very best work on Earp—more than sixty articles and excerpts from books—from a wide array of authors, selecting only the best written and factually documented pieces and omitting those full of suppositions or false material. Earp ' s life is presented in chronological fashion, from his early years to Dodge City, Kansas; triumph and tragedy in Tombstone; and his later years throughout the West. Important figures in Earp ' s life, such as Bat Masterson, the Clantons, the McLaurys, Doc Holliday, and John Ringo, are also covered. Wyatt Earp ' s image in film and the myths surrounding his life, as well as controversies over interpretations and presentations of his life by various writers, also receive their due. Finally, an extensive epilogue by Gary L. Roberts explores Earp and frontier violence.

A complex mosaic of post oak and blackjack oak forests interspersed with prairies, the Cross Timbers cover large portions of southeastern Kansas, eastern Oklahoma, and north central Texas. Home to Native Americans over several thousand years, the Cross Timbers were considered a barrier to westward expansion in the nineteenth century, until roads and railroads opened up the region to farmers, ranchers, coal miners, and modern city developers, all of whom changed its character in far-reaching ways. This landmark book describes the natural environment of the Cross Timbers and interprets the role that people have played in transforming the region. Richard Francaviglia opens with a natural history that discusses the region ' s geography, geology, vegetation, and climate. He then traces the interaction of people and the landscape, from the earliest Native American inhabitants and

European explorers to the developers and residents of today ' s ever-expanding cities and suburbs. Many historical and contemporary maps and photographs illustrate the text.

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

This book provides a summary of state-of-the-art methods and research in the analysis of credit. It thereby supplies very useful insights into this vital area of finance that has previously been insufficiently taught and researched in academia. The book, which includes an overview of processes that are utilized for estimating the probability of default and the loss given default for a wide array of debts, will be useful in evaluating individual loans and bonds as well as managing entire portfolios of such assets. Each of the chapters in the book is written by authors who presented and discussed their contemporary research and knowledge at the First International Conference on Credit Analysis and Risk Management that was held July 21–23, 2011 at Oakland University, Michigan, USA. This collection of writings by these experts in the field is uniquely designed to enhance the understanding of credit analysis in a fashion that permits a broad perspective on the science and art of credit analysis.

“It was as if Hamid knew what was going to happen to America and the world, and gave us a road map to our future... At once terrifying and ... oddly hopeful.” —Ayelet Waldman, The New York Times Book Review “Moving, audacious, and indelibly human.” —Entertainment Weekly, “A” rating The New York Times bestselling novel: an astonishingly visionary love story that imagines the forces that drive ordinary people from their homes into the uncertain embrace of new lands, from the author of *The Reluctant Fundamentalist* and the forthcoming *The Last White Man*. In a country teetering on the brink of civil war, two young people meet—sensual, fiercely independent

Nadia and gentle, restrained Saeed. They embark on a furtive love affair, and are soon cloistered in a premature intimacy by the unrest roiling their city. When it explodes, turning familiar streets into a patchwork of checkpoints and bomb blasts, they begin to hear whispers about doors—doors that can whisk people far away, if perilously and for a price. As the violence escalates, Nadia and Saeed decide that they no longer have a choice. Leaving their homeland and their old lives behind, they find a door and step through. . . . Exit West follows these remarkable characters as they emerge into an alien and uncertain future, struggling to hold on to each other, to their past, to the very sense of who they are. Profoundly intimate and powerfully inventive, it tells an unforgettable story of love, loyalty, and courage that is both completely of our time and for all time.

A moving true story of American struggle. Royal, Nebraska, population eighty-one--where the church, high school, and post office each stand abandoned, monuments to a Great Plains town that never flourished. But for nearly twenty years, they had a zoo, seven acres that rose from local peculiarity to key tourist attraction to devastating tragedy. And it all began with one man's outsize vision. When Dick Haskin's plans to assist primatologist Dian Fossey in Rwanda were cut short by her murder, Dick's devotion to primates didn't die with her. He returned to his hometown with Reuben, an adolescent chimp, in the bed of a pickup truck and transformed a trailer home into the Midwest Primate Center. As the tourist trade multiplied, so did the inhabitants of what would become Zoo Nebraska, the unlikeliest boon to Royal's economy in generations and, eventually, the source of a power struggle that would lead to the tragic implosion of Dick Haskin's dream. A resonant true story of small-town politics and community perseverance and of decent people and questionable choices, Zoo Nebraska is a timely requiem for a rural America in the throes of extinction.

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and

an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

For twenty years, the Roman Empire conquered its way through modern-day Germany, claiming all lands from the Rhine to the Elbe. However, when at last all appeared to be under control, a catastrophe erupted that claimed the lives of 10,000 legionnaires and laid Rome's imperial ambitions for Germania into the dust. In late September of 9 AD, three Roman legions, while marching to suppress a distant tribal rebellion, were attacked in a four-day battle with the Germanic barbarians. The Romans, under the leadership of the provinces governor, Publius Quinctilius Varus, were taken completely by surprise, betrayed by a member of their own ranks: the German officer and secret rebel leader, Arminius. The defeat was a heavy blow to both Rome's military and its pride. Though the disaster was ruthlessly avenged soon afterwards, later attempts at conquering the Germans were half-hearted at best. Four days in September thoroughly examines the ancient sources and challenges the hypotheses of modern scholars to present a clear picture of the prelude to the battle, the fighting itself and its aftermath.

*Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of*

McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.
