This course covers aspects like HSE, Process, Mechanical, Electrical and Instrumentation & Control that will enable you to apply for any position in the Oil and Gas Industry.

REA's TEXES PPR EC-12 (160) Test Prep with Online Practice Tests (6th ed.) Gets You Certified and in the Classroom! Fully revised and updated 6th edition! Our test prep is designed to help teacher candidates master the information on the TEXES PPR EC-12 (160) exam and get certified to teach in Texas. It's perfect for college students, teachers, and career-changing professionals who are looking to teach Early Childhood through Grade 12 in Texas. Written by a leading specialist in teacher education, our complete study package contains an in-depth review of all four state-defined domains and the 13 competencies, including discussions of key educational concepts and theories, as well as relevant laws. A diagnostic test and three full-length practice tests are offered online in a timed format with instant scoring, diagnostic feedback, and detailed explanations of answers. Each test features every type of question, subject area, and skill you need to know for the exam. Our online practice tests replicate the Pearson TEXES question format, allowing you to assess your skills and gauge your test-readiness. The book includes two of the three practice tests in print. The online tests at REA's Study Center offer the most powerful scoring and diagnostic tools available today. Automatic scoring and instant reports help you zero in on the topics and types of questions that give you trouble now, so you'll succeed when it counts. Every practice exam comes with detailed feedback on every question. We don't just say which answers are right - we explain why the other answer choices are wrong - so you'll be prepared on test day. This complete test prep package comes with a customized study schedule and REA's test-taking strategies and tips. This test prep is a must-have for anyone who wants to teach EC-12 in Texas!

The Nelson Modular Science series is made up of three books divided into single, double and triple award modules presented in an accessible format. Book 1 covers the six single award and one coursework modules; Book 2 contains six double award modules; and Book 3 covers the six triple award modules. Each module is covered in self-contained units. This teacher's file includes practical support sheets and addresses Sc1 investigations. Works sheets are provided to integrate the use of ICT throughout science. Additional GCSE-style questions and modular tests should enhance learning and recall of information.

The Insight Meditation twelve-month correspondence course is an unparalleled home immersion in vipassana meditation and philosophy, presented by the cofounders of the Insight Meditation Society, Sharon Salzberg and Joseph Goldstein. Cultivate the sacred environment of a retreat in your own home, with the help of a personal instructor. Includes twelve sequential lessons, an 88-page workbook with interactive exercises, and more.

Each topic is treated from the beginning, without assuming prior knowledge. Each chapter starts with an opening section covering an application. These help students to understand the relevance of the topic: they are motivational and they make the text more accessible to the majority of students. Concept Maps have been added, which together with Summaries throughout, aid understanding of main ideas and connections between topics. Margin points highlight key points, making the text more accessible for learning and revision. Checkpoints in each chapter test students' understanding and support their private study.

Comprehensive mathematics foundation section. Work on formulae and equations, the mole, volumetric analysis and other key areas are included. Can be used as a course book as well as for exam practice.

Chemistry For You has been written for a wide range of middle-ability students who will benefit from its motivational style, leading them to better achievement at GCSE. This edition offers comprehensive coverage of the new GCSE specifications.

This book offers you a brief, but very involved look into the operations in the drilling of an oil & gas wells that will help you to be prepared for job interview at oil & gas companies. From start to finish, you'll see a general prognosis of the drilling process. If you are new to the oil & gas industry, you'll enjoy having a leg up with the knowledge of these processes. If you are a seasoned oil & gas person, you'll enjoy reading what you may or may not know in these pages. This course provides a non-technical overview of the phases, operations and terminology used on offshore drilling platforms. It is intended also for non-drilling personnel who work in the offshore drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. No prior experience or knowledge of drilling operations is required. This course will provide participants a better understanding of the issues faced in all aspects of drilling operations, with a particular focus on the unique aspects of offshore operations.
