The sociopathic scientist Paolo Cortázar and the Mephistophelian prisoner James Holden are only two of the dangers in a palace thick with intrigue, but Teresa has a mind of her own and secrets even her father the emperor doesn't guess. And throughout the wide human empire, the scattered crew of the Rocinante fights a brave rear-guard action against Duarte's authoritarian regime. Memory of the old order falls away, and a future under Laconia's eternal rule -- and with it, a battle that humanity can only lose -- seems more and more certain. Because against the terrors that lie between worlds, courage and ambition will not be enough...

Zombies, mutant animals, bioengineered weapons and surgically enhanced monsters: after all she's been through, Jill Valentine is ready to leave Raccoon City for ever. But the Umbrella Corporation isn't finished with Raccoon City. Under cover of night, mercenary teams have entered the city, along with something else - a lethal creature code-named Nemesis. Nemesis is on the hunt, and Jill is its prey. Nick Cruz thought it would be easy: join the Rest In Peace Department, solve his own murder, float up to heaven. But he wasn't counting on his new boss, his new partner, or the demonic newborn he'd meet on his first day out. Add to that the hellish imp who's searching for an archangel's sword and Cruz is headed for a whole mess of trouble! Life after death has never been this hard.

This is "the Word" -- one man's word, certainly -- about the art (and artifice) of the state of our computer-centric existence. And considering that the "one man" is Neal Stephenson, "the hacker Hemingway" (Newsweek) -- acclaimed novelist, pragmatist, seer, nerd-friendly philosopher, and nationally bestselling author of groundbreaking literary works (Snow Crash, Cryptonomicon, etc., etc.) -- the word is well worth hearing. Mostly well-reasoned examination and partial rant, Stephenson's *In the Beginning... was the Command Line* is a thoughtful, irreverent, hilarious treatise on the cyber-culture past and present; on operating system tyrannies and downloaded popular revolutions; on the Internet, Disney World, Big Bangs, not to mention the meaning of life itself.

Colin MacIntyre had an orderly but exciting life as a NASA astronaut. But then he is kidnapped by an ancient, self-aware starship; drafted as its captain to suppress a 5,000-year-old mutiny; and forced to declare himself Governor of Earth in order to mobilize the planet against alien attack. And that's the easy part. . . .

James Holden and his crew know the strengths and weaknesses of this new force better than anyone. Outnumbered and outgunned, the embattled remnants of the old political powers call on the *Rocinante* for a desperate mission to reach Medina Station at the heart of the gate network. But the new alliances are as flawed as the old, and the struggle for power has only just begun. As the chaos grows, an alien mystery deepens. Pirate fleets, mutiny and betrayal may be the least of the *Rocinante's* problems. And in the uncanny spaces past the ring gates, the choices of a few damaged and desperate people may determine the fate of more than just humanity.

Orphan Black meets *Lord of the Flies* in this riveting new thriller from the co-author of the *Virals* series. It's been happening since Min was eight. Every two years, on her birthday, a strange man finds her and murders her in cold blood. But hours later, she wakes up in a clearing just outside her tiny Idaho hometown—alone, unhurt, and with all evidence of the horrifying crime erased. Across the valley, Noah just wants to be like everyone else. But he's not. Nightmares of murder and death plague him, though he does his best to hide the signs. But when the world around him begins to spiral toward panic and destruction, Noah discovers that people have been lying to him his whole life. Everything changes in an eye blink. For the planet has a bigger problem. The Anvil, an enormous asteroid threatening all life on Earth, leaves little room for two troubled teens. Yet on her sixteenth birthday, as she cowers in her bedroom, hoping not to die for the fifth time, Min has had enough. She vows to discover what is happening in Fire Lake and uncovers a lifetime of lies: a vast conspiracy involving the sixty-four students of her sophomore class, one that may be even more sinister than the murders.
