From the author of The King's Favorite-a new novel based on a dazzling and decadent true story of Restoration England. The daughter of a poor nobleman, Louise leaves the French countryside for the court of King Louis XIV, where she must not only please the tastes of the jaded king, but serve as a spy for France. With few friends, many rivals, and ever-shifting loyalties, Louise learns the perils of her new role. Yet she is too ambitious to be a pawn in the intrigues of others. With the promise of riches, power, and even the love of a king, Louise creates her own destiny in a dance of intrigue between two monarchs-and two countries.

The World's Worst

Thomas E. Call IV shares the fascinating history of the Call family, which spans more than two hundred years, as well as his life story in this memoir. Call, who served in the Army during the Korean War, returned home to start a career with the U.S. Postal Service, starting as a temporary substitute mail carrier in Portsmouth, New Hampshire, in 1958. He'd go on to become national director of delivery for the entire U.S. Postal Service at its headquarters in Washington, D.C., retiring in 1988. He chronicles his successes and triumphs—as well as his domestic relationships—which ranged from heterosexual marriages to marrying a man thirty-four years younger and of a different cultural heritage. Many of Call's gay friends have told him that they knew who they were sexually at a young age, and they've wondered why he "switched teams" so late in life. The saying that "People don't change, but the times do" may have been true in his case. Any such thoughts were kept in the back of his mind as a young man.

In 1970, galvanized in part by the musical experiments of John Cage, Gavin Bryars, and Cornelius Cardew, students at Portsmouth College of Art formed their own symphony orchestra. Christened the Portsmouth Sinfonia, the primary requirement for membership specified that all players, regardless of skill, experience, or musicianship, be unfamiliar with their chosen instruments. This restriction, coupled with the decision to play "only the familiar bits" of classical music, challenged the Sinfonia's audience to reconsider the familiar, as the ensemble haplessly butchered the classics at venues ranging from avant-garde music festivals to the Royal Albert Hall. By the end of the decade, after three LPs of their anarchic renditions of classical and rock music and a revolving cast of over one hundred musicians-including Michael Nyman and Brian Eno-the Sinfonia would cease performing, never officially retiring. *The World's Worst: A Guide to the Portsmouth Sinfonia*, the first book devoted to the ensemble, examines the founding tenets,

organizing principles, and collective memories of the Sinfonia, whose reputation as "the world's worst orchestra" underplays its unique accomplishment as a populist avant-garde project. In the simple constraint that defined the ensemble, the trappings of European concert hall traditions commingled with an experimental approach to music, producing a sense of joyful collectivism that was shared with the Sinfonia's audiences. The unorthodox journey of the Portsmouth Sinfonia unfolds here through interviews with the orchestra's original members and publicist/manager, magazine publications, photographs, and unseen archival material, alongside an essay by Christopher M. Reeves.

Who's who in America

The History of New Hampshire

"For those who like their history rich in vivid details, Derek Beck has served up a delicious brew in this book....This may soon become everyone's favorite." —Thomas Fleming, author of *Liberty! The American Revolution* A sweeping, provocative new look at the pivotal years leading up to the American Revolution The Revolutionary War did not begin with the Declaration of Independence, but several years earlier in 1773. In this gripping history, Derek W. Beck reveals the full story of the war before American independence—from both sides. Spanning the years 1773-1775 and drawing on new material from meticulous research and previously unpublished documents, letters, and diaries, *Igniting the American Revolution* sweeps readers from the rumblings that led to the Boston Tea Party to the halls of Parliament—where

Ben Franklin was almost run out of England for pleading on behalf of the colonies-to that fateful Expedition to Concord which resulted in the shot heard round the world. With exquisite detail and keen insight, Beck brings revolutionary America to life in all its enthusiastic and fiery patriotic fervor, painting a nuanced portrait of the perspectives, ambitions, people, and events on both the British and the American sides that eventually would lead to the convention in Philadelphia on July 4, 1776. Captivating, provocative and inspiring, Igniting the American Revolution is the definitive history of these landmark years in our nation's history, whose events irrevocably altered the future not only of the United States and England, but the whole world. " Integrating compelling personalities with grand strategies, political maneuverings on both sides of the Atlantic, and vividly related incidents, Igniting the American Revolution pulls the reader into a world rending the British Empire asunder." Samuel A. Forman, author of the biography Dr. Joseph Warren

In 1929, in the blue-collar city of Portsmouth, Ohio, a company built a swimming pool the size of a football field; named Dreamland, it became the vital center of the community. Now, addiction has devastated Portsmouth, as it has hundreds of small rural towns and

suburbs across America--addiction like no other the country has ever faced. How that happened is the riveting story of Dreamland. With a great reporter's narrative skill and the storytelling ability of a novelist, acclaimed journalist Sam Quinones weaves together two classic tales of capitalism run amok whose unintentional collision has been catastrophic. The unfettered prescribing of pain medications during the 1990s reached its peak in Purdue Pharma's campaign to market OxyContin, its new, expensive--extremely addictive--miracle painkiller. Meanwhile, a massive influx of black tar heroin--cheap, potent, and originating from one small county on Mexico's west coast, independent of any drug cartel--assaulted small town and mid-sized cities across the country, driven by a brilliant, almost unbeatable marketing and distribution system. Together these phenomena continue to lay waste to communities from Tennessee to Oregon, Indiana to New Mexico. Introducing a memorable cast of characters--pharma pioneers, young Mexican entrepreneurs, narcotics

investigators, survivors, and parents--Quinones shows how these tales fit together. Dreamland is a revelatory account of the corrosive threat facing America and its heartland.
