“It is not simply that [Dos Passos] has a keen eye for people, but that he has a keen eye for so many different kinds of people.”—The New York Times Marking the end of “one of the most ambitious projects that an American novelist has ever undertaken” (Time), The Big Money brings us back to America after the Great War, a nation on the upswing. Industrialism booms. The stock market surges. Lindbergh takes his solo flight. Henry Ford makes automobiles. From New York to Hollywood, love affairs to business deals, it is a country taking the turns too fast, speeding toward the crash of 1929. Ultimately, whether the novels of John Dos Passos’s classic USA Trilogy are read together or separately, they paint a sweeping portrait of collective America—and showcase the brilliance and bravery of one of its most enduring and admired writers. The Big Money, focusing on a passionate pilot whose compromises culminate in despair and an actress led astray by her ambitions, completes this “fable of America’s materialistic success and moral decline” (American Heritage).

*Various disciplines that deal with Achaemenid rule offer starkly different assessments of Persian kingship. While Assyriologists treat Cyrus's heirs as legitimate successors of the Babylonian kings, biblical scholars often speak of a "kingless era" in which the priesthood took over the function of the Davidic monarch. Egyptologists see their land as uniquely independently minded despite conquests, while Hellenistic scholarship tends to evaluate the interface between Hellenism and native traditions without reference to the previous two centuries of Persian rule. This volume brings together in dialogue a broad array of scholars with the goal of seeking a broader context for assessing Persian kingship through the anthropological concept of political memory.*

*Horace Fletcher, an American health-food advocate of the Victorian era, earned the nickname ""The Great Masticator"" through his advocacy that food needed to be chewed thirty-two times before being swallowed. At the age of 58, he conducted a series of strength and endurance experiments at the Yale Gymnasium versus college athletes which claimed that Fletcher could outperform these athletes. Fletcher also had a great interest in human excreta, believing that it evidenced one's true nutrition. He also advocated for a low-protein diet as a means of health and well-being. Through this 1913 volume Fletcher explains his theories of health and well-being and how, you too, can become a Fletcherite.*

With his U.S.A. trilogy, comprising THE 42nd PARALLEL, 1919, and THE BIG MONEY, John Dos Passos is said by many to have written the great American novel. While Fitzgerald and Hemingway were cultivating what Edmund Wilson once called their "own little corners," John Dos Passos was taking on the world. Counted as one of the best novels of the twentieth century by the Modern Library and by some of the finest writers working today, U.S.A. is a grand, kaleidoscopic portrait of a nation, buzzing with history and life on every page. The trilogy opens with THE 42nd PARALLEL, where we find a young country at the dawn of the twentieth century. Slowly, in stories artfully spliced together, the lives and fortunes of five characters unfold. Mac, Janey, Eleanor, Ward, and Charley are caught on the storm track of this parallel and blown New Yorkward. As their lives cross and double back again, the likes of Eugene Debs, Thomas Edison, and Andrew Carnegie make cameo appearances.

Though American author Winston Churchill often focused on historical events as inspiration for his novels, his later work more often explored the way that events conspired to shape his characters' opinions and values. In A Far Country, protagonist Hugh Paret enters his career as a corporate lawyer full of high-minded ideals, but begins to change his outlook as he gains experience in the business world. Winston Churchill (30 November 1874 – 24 January 1965) was a British politician and statesman who served as the Prime Minister of the United Kingdom from 1940 to 1945 and again from 1951 to 1955. As Prime Minister, Churchill led Britain to victory over Nazi Germany during World War II. Churchill was also an officer in the British Army, a non-academic historian, and a writer (as Winston S. Churchill). He won the Nobel Prize in Literature in 1953 for his overall, lifetime body of work. Churchill was born into the family of the Dukes of Marlborough, a branch of the Spencer family. His father, Lord Randolph Churchill, was a charismatic politician who served as Chancellor of the Exchequer; his mother, Jennie Jerome, was an American socialite. As a young army officer, he saw action in British India, the Anglo–Sudan War, and the Second Boer War. He gained fame as a war correspondent and wrote books about his campaigns. At the forefront of politics for fifty years, he held many political and cabinet positions. Before the First World War, he served as President of the Board of Trade, Home Secretary, and First Lord of the Admiralty as part of Asquith's Liberal government. During the war, he continued as First Lord of the Admiralty until the disastrous Gallipoli Campaign caused his departure from government. He then briefly resumed active army service on the Western Front as commander of the 6th Battalion of the Royal Scots Fusiliers.
