Astral projection is the classic term for what today is more commonly called out-of-body experience or OBE. In this fascinating volume, Robert Bruce has drawn on his lifetime's experience not only traveling in the astral dimension, but teaching others to do so. Astral Dynamics provides, all in one package, a personal narrative, a "how-to," a troubleshooting guide, and a theoretical perspective. Whether you are a skeptic, a veteran astral projector, a novice or an armchair traveler--there is treasure here. Astral Dynamics provides the intelligent and motivated reader with everything needed to put theory into practice: Elements of Projection--Bruce's mind-split theory of what actually goes on during projection New Energy Ways (NEW)--His stunningly practical method of raising awareness by using touch, which Bruce calls tactile imaging. Core Skills--How to succeed at the three tasks that are essential to success in astral projection. Projection Technique--What you need to know to stop reading about astral projection and actually do it. The Akashic Connection--Speculations on things seen and heard while traveling in astral realms. Written in an engaging, unpretentious manner, Astral Dynamics is already considered to be a classic.

Bringing together ten leading researchers in the field of deliberative democracy, this important book examines the features of a Deliberative Mini-Public (DMP) and considers how DMPs link into democratic systems. It examines the core design features of DMPs and their role in the broader policy process and takes stock of the characteristics that distinguish them from other forms of citizen participation. In doing so, the book offers valuable insights into the contributions that DMPs can make not only to the policy process, but also to the broader agenda of revitalising democracy in contemporary times.

**Cultural Writing.**The second in the Frank Walters Memorial Series, **THE OKLAHOMA BASIC INTELLIGENCE TEST** is the first book of prose by North American Native author Don Birchfield. This book of essays has been described by Lee Francis as a delightful wedding of history and humor with a couple tablespoons of healthy irony thrown in for good measure. An excellent, well-written collection of essays [which] engages the reader from beginning to end. When the Choctaws talk from the 2,660 foot top of Rich mountain, you have to go all the way to the panhandle to find anywhere in Oklahoma where anyone can do any taller talking (Intermediate Choctology).

This book combines insights from language assessment literacy and critical language testing through critical analyses and research about challenges in language assessment around the world. It investigates problematic practices in language testing which are relevant to language test users such as language program directors, testing centers, and language teachers, as well as teachers-in-training in Graduate Diploma and Master of Arts in Applied Linguistics programs. These issues involve aspects of language testing such as test development, test administration, scoring, and interpretation/use of test results. Chapters in this volume discuss insights about language testing policy, testing world languages, developing program-level language tests and tests of specific language skills, and language assessment literacy. In addition, this book identifies two needs in language testing for further examination: the need for collaboration between language test developers, language test users, and language users, and the need to base language tests on real-world language use.

Vocabulary expert Marilee Sprenger presents the 25 essential words all students must know to succeed academically, along with strategies to teach them effectively.

*American English File Second Edition retains the popular methodology developed by world-renowned authors Christina Latham-Koenig and Clive Oxenden: language + motivation = opportunity. With grammar, vocabulary, and pronunciation practice in every lesson, students are equipped with a solid foundation for successful speaking. Plus - an array of digital resources provides even more choice and flexibility. Students can learn in the classroom or on the move with Online Practice. language assessment. The first goal is to explore the difference between fairness and justice in language assessment. The authors distinguish internal and external dimensions of the equitable and just treatment of individuals taking language tests which are used as gatekeeping devices to determine access to education and employment, immigrant status, citizenship, and other rights. The second goal is to show how the extent of test fairness can be demonstrated and improved using the tools of psychometrics, in particular the models collectively known as Rasch measurement. "This book will have an enormous impact on the field of language assessment. Using Rasch analysis models to explore and identify sources of unfairness, the authors make a compelling case for fairness in the design and implementation of language assessment instruments and for justice in the interpretation and use of test results. A real strength of the book is that it guides readers through analytical techniques in an accessible way." Dan Douglas, Professor Emeritus, Applied Linguistics Program, Iowa State University.*

**In the tradition of California the Beautiful, Galen Rowell's best-selling celebration of the natural beauty of the Golden State, comes Yosemite & the Eastern Sierra, featuring stunning color images by outdoor photographer Gary Crabbe. Here is a fresh look at the wonders of Yosemite National Park (visited by more than three million people each year), as well as the lesser-known vistas of the pristine wilderness that adjoins the eastern slopes of the Sierra Nevada. From the first light of sunrise cascading above an alpine creek to the last glint of sunset reflected on the joyful serenade of a waterfall ballet at Horsetail Falls, the spirit of the land will nourish your soul. The accompanying text of this small but exquisitely printed volume speaks through the voices of our great nature writers, from Ansel Adams and Galen Rowell to Joan Didion, Wallace Stegner, and Mark Twain. This is the perfect gift for anyone who has ever marveled at the beauty of Yosemite National Park and the glorious gallery of the Eastern Sierra's natural wonders.**
