From the beloved Pulitzer Prize-winning poet: an extraordinary memoir and blistering meditation on fatherhood, race, addiction, and ambition. Gregory Pardlo's father was a brilliant and charismatic man—a leading labor organizer who presided over a happy suburban family of four. But when he loses his job following the famous air traffic controllers' strike of 1981, he succumbs to addiction and exhausts the family's money on more and more ostentatious whims. In the face of this troubling model and disillusioned presence in the household, young Gregory rebels. Struggling to distinguish himself on his own terms, he hustles off to Marine Corps boot camp. He moves across the world, returning to the United States only to take a job as a manager-cum-barfly at his family's jazz club. Air Traffic follows Gregory as he builds a life that honors his history without allowing it to define his future. Slowly, he embraces the challenges of being a poet, a son, and a father as he enters recovery for alcoholism and tends to his family. In this memoir, written in lyrical and sparkling prose, Gregory tries to free himself from the overwhelming expectations of race and class, and from the tempting yet ruinous legacy of American masculinity. Air Traffic is a richly realized, deeply felt ode to one man's remarkable father, to fatherhood, and to the frustrating yet redemptive ties of family. It is also a scrupulous, searing examination of how manhood can be fashioned in our cultural landscape.

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

On September 14, 1716, Boston Light became the first lighthouse established in Colonial America. With many ships floundering in the treacherous waters of the Massachusetts harbor, there was a great need for navigational aid. At night and during storms, it was difficult to discern the entrance to the main shipping channel of Nantasket Roads, situated between the Brewster islands and the town of Hull. The ledges had become a graveyard for ships, resulting in great loss to human life and cargo—a deterrent to European colonization efforts. Ship captains and merchants petitioned the colonial government for a lighthouse to be erected on Little Brewster Island as a way of safe passage to the inner harbor. Three hundred years later, Boston Light continues to serve its purpose. Today, the lighthouse is protected by an ever-present Coast Guard civilian keeper and a cadre of specially trained Coast Guard Auxiliary volunteer assistant keepers.

Merging scholarly research and biographical narrative, She Calls Herself Betsey Stockton reveals the true life of a freed and highly educated slave in the Antebellum North. Betsey Stockton's odyssey began in 1798 in Princeton, New Jersey, as "Bet," the child of a slave mother, who captured the heart of her owner and surrogate father Ashbel Green, President of Princeton University. Advanced lessons at Princeton Theological Seminary matched her with lifelong friends Rev. Charles S. Stewart and his pregnant bride Harriet, as the three endured an 158-day voyage as Presbyterian missionaries to the Sandwich Islands in1823. Armchair sailors will savor Stockton's own pre-Moby Dick whaleship journal of her time at sea, a shipboard birth, and life at Lahaina, Maui, where Stockton is celebrated as founding the first school for non-royal Hawaiians. Back on US soil, Stockton became surrogate mother to the Stewarts' three children, sailed with missionaries on the Barge Canal to the Ojibwa Mission School, and later returned to her hometown, establishing a church and four schools which are the centers of a still-vibrant African American Historic District of Witherspoon-Jackson.

A glorious photographic tour of the public and private gardens of New Jersey—from historic formal gardens of former estates, to suburb gardens, horticulturists' havens, and fresh takes on front yards. The most densely populated state in the nation and one of the original thirteen, home to the largest public iris garden in the country, and the glacier-swept endpoint of the last Ice Age—for Nancy Berner and Susan Lowry, who look to gardens as an entry to the history and culture of a region, New Jersey presents an array of surprising diversity. Its temperate climate makes it possible to grow a wide range of plants, while its complex topography—ranging from mountains to rolling hills and flat basins, the scrubby Pine Barrens and the rich Coastal Plain—demands innovative approaches to design. The twenty-eight selected gardens—from Skylands, with its specimen trees, woodland and rock gardens, and lilac collection close to the New York border, to the elegant formal gardens of Short Hills, Bernardsville, and Oldwick, to a wildlife garden filled with frogs and butterflies and a lighthouse garden near Cape May—illustrate the ways in which New Jersey's long garden traditions are upheld to this day. Gemma and Andrew Ingalls' stunning photographs bring out the manifold ways in which a garden might speak to us in its owner's or designer's voice, expressing a particular point of view.

In Colonial times, as the Chesapeake Bay and larger rivers became vital shipping channels, the need arose to mark Maryland's dangerous shoals and waterways. Lighthouses sprang up throughout the 1800s and early 1900s, including wood-framed cottages placed upon screw pile foundations that stood offshore in the unforgiving waters. Most of these unique structures did not survive, lost tragically to ice that also occasionally claimed the lives of the keepers who faithfully tended them and rescued mariners in trouble. With the advent of electricity and GPS, many beacons succumbed to vandalism and neglect, leaving a fraction remaining.

Now a USA TODAY BEST-SELLER, The Sound of Wings is a masterfully crafted tale of love, friendship, betrayal, and the risks we take in the pursuit of justice. Seventy-year-old Goldie Sparrows faces declining finances, questionable health, and a late husband who torments her from the beyond. She seeks refuge in her butterfly garden, which is filled with voices and memories from long ago. Jocelyn Anderson is a struggling writer who finds escape from her custody battle in the journal of her late mother-in-law. As she gets pulled through the pages of time, Jocelyn discovers her own husband has a hidden history she knows nothing about. Is this secret now Jocelyn's to keep? Krystal Axelrod is living a life she never dreamed she could have. And yet the demons of a dysfunctional childhood and mean girl culture from her cheerleading days cast their shadow over her ability to feel whole, capable, and worthy. Does Goldie hold the key to Krystal's path to freedom?

The debut collection by the Poet Laureate of the United States \* Winner of the 2002 Cave Canem Poetry Prize \* You are pure appetite. I am pure Appetite. You are a phantom In that far-off city where daylight Climbs cathedral walls, stone by stolen stone. --from "Self-Portrait as the Letter Y" The Body's Question by Tracy K. Smith received the 2002 Cave Canem Poetry Prize for the best first book by an African-American poet, selected by Kevin Young. Confronting loss, historical intersections with race and family, and the threshold between childhood and adulthood, Smith gathers courage and direction from the many disparate selves encountered in these poems, until, as she writes, "I was anyone I wanted to be."

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Meis that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective Peopletoa pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

As the number of available priests has declined, the Sunday Mass is becoming less and less available in some parishes and dioceses. Sunday Celebrations in the Absence of a Priest addresses this growing reality by providing the appropriate ritual to be used in the celebrating community. This revised ritual edition of Sunday Celebrations in the Absence of a Priest is fully bilingual, with Spanish and English printed side by side. It includes Morning Prayer, Evening Prayer, and two appendices, Directory for Sunday Celebrations in the Absence of a Priest and Gathered in Steadfast Faith. This beautifully bound ritual book includes three ribbons and is printed in two colors. It will be a welcome addition to the sacristy or library of every parish, school, convent, and religious house.

"Baby Rocket" is the story of an abandoned, adopted child, who, as an adult, must heal the traumatic ruptures of suicide and abuse in her past by becoming a detective of her own life.

A ¶deeply researched and bracing retelling¶ (Annette Gordon-Reed, Pulitzer Prize¶winning historian) of the American Revolution, showing how the Founders were influenced by overlooked Americans¶women, Native Americans, African Americans, and religious dissenters. Using more than a thousand eyewitness records, Liberty Is Sweet is a ¶spirited account¶ (Gordon S. Wood, Pulitzer Prize¶winning author of The Radicalism of the American Revolution) that explores countless connections between the Patriots of 1776 and other Americans whose passion for freedom often brought them into conflict with the Founding Fathers. ¶It is all one story,¶ prizewinning historian Woody Holton writes. Holton describes the origins and crucial battles of the Revolution from Lexington and Concord to the British surrender at Yorktown, always focusing on marginalized Americans¶enslaved Africans and African Americans, Native Americans, women, and dissenters¶and on overlooked factors such as weather, North America's unique geography, chance, misperception, attempts to manipulate public opinion, and (most of all) disease. Thousands of enslaved Americans exploited the chaos of war to obtain their own freedom, while others were given away as enlistment bounties to whites. Women provided material support for the troops, sewing clothes for soldiers and in some cases taking part in the fighting. Both sides courted native people and mimicked their tactics. Liberty Is Sweet is a ¶must-read book for understanding the founding of our nation¶ (Walter Isaacson, author of Benjamin Franklin), from its origins on the frontiers and in the Atlantic ports to the creation of the Constitution. Offering surprises at every turn¶for example, Holton makes a convincing case that Britain never had a chance of winning the war¶this majestic history revivifies a story we thought we already knew.

The Budget in Brief

A history of the lighthouse which examines its technical development in the United States

In this new account of Franklin's early life, Pulitzer finalist Nick Bunker portrays him as a complex, driven young man who elbows his way to success. From his early career as a printer and journalist to his scientific work and his role as a founder of a new republic, Benjamin Franklin has always seemed the inevitable embodiment of American ingenuity. But in his youth he had to make his way through a harsh colonial world, where he fought many battles with his rivals, but also with his wayward emotions. Taking Franklin to the age of forty-one, when he made his first electrical discoveries, Bunker goes behind the legend to reveal the sources of his passion for knowledge. Always trying to balance virtue against ambition, Franklin emerges as a brilliant but flawed human being, made from the conflicts of an age of slavery as well as reason. With archival material from both sides of the Atlantic, we see Franklin in Boston, London, and Philadelphia as he develops his formula for greatness. A tale of science, politics, war, and religion, this is also a story about Franklin's forebears: the talented family of English craftsmen who produced America's favorite genius.

Provides weather predictions for the entire United States and includes such features as the best days for fishing, recipes from the Wild West, and tips for tightwads.

Water and light have seduced artists through the years and the quality of these elements at the New Jersey Shore continues to attract artists to this day. Between the late 1800s and 1940, an inspired group of painters were drawn to the New Jersey coastline, forming communities of artists.Jersey Shore Impressionists breaks new ground in the history of American art by recognizing the distinct influence of New Jersey and its Shore on impressionist era American painters. This book establishes - for the first time - a category of impressionist American painters who focused on, or were profoundly influenced by, the landscapes and seascapes of this Shore - from Sandy Hook and Highlands to the Barnegat Bay region to Cape May. "Not since 1964, nearly 50 years ago, and only once before that in 1938 has there been published a book on painters in New Jersey," says the book's author, Roy Pedersen. "Never until now has there appeared a survey of the regional impressionist painters of New Jersey. This book and the accompanying exhibition for the first time celebrate these unrecognized works into the history of New Jersey and American art." Jersey Shore Impressionists is produced in conjunction with a 2013 exhibition at the Morven Museum & Garden in Princeton, NJ. The exhibition, titled "Coastal Impressions: Painters of the Jersey Shore, 1880-1940" seeks to examine how the New Jersey shore was home to artist colonies whose output rivaled that of the better-known colonies of Old Lyme and Cos Cob, Connecticut, and Bucks County, Pennsylvania. In a Foreword, Richard J. Boyle, former director of the Pennsylvania Academy of the Fine Arts, describes the foundation of art colonies, and how they traveled from origins in mid-nineteenth century France to the plain-air attraction of the Jersey Shore's "special light." The first art colony - at Manasquan - forms around 1880 as young artists fresh from European training in Germany, France and Italy begin to arrive, and the book includes work from these artists - Will Hicok Low, Theodore Robinson, Albert Grantley Reinhart, Charles Freeman and Caroline Coventry Haynes. The next generation - Edward Boulton, Ida Wells Stroud, Julius Golz - trained in America, join and form new colonies to paint the unique light as well as the activities of the Shore. The passionate work created by these artists stands as an important, but unsung, chapter of American Impressionism and is celebrated in this book, establishing the important contribution to American art in general, and New Jersey's cultural heritage in particular.

*The best-selling phenomenon from Japan that shows us a minimalist life is a happy life. Fumio Sasaki is not an enlightened minimalism expert or organizing guru like Marie Kondo—he's just a regular guy who was stressed out and constantly comparing himself to others, until one day he decided to change his life by saying goodbye to everything he didn't absolutely need. The effects were remarkable: Sasaki gained true freedom, new focus, and a real sense of gratitude for everything around him. In Goodbye, Things Sasaki modestly shares his personal minimalist experience, offering specific tips on the minimizing process and revealing how the new minimalist movement can not only transform your space but truly enrich your life. The benefits of a minimalist life can be realized by anyone, and Sasaki's humble vision of true happiness will open your eyes to minimalism's potential.*

*Greetings from New Jersey is the first book to look back at the postcards that have played a part in New Jersey's travel industry. Helen-Chantal Pike organizes her book by the states six official tourism regions Gateway, Skylands, the Delaware River, the Southern Shore, Greater Atlantic City, and the Shore. Through her section introductions and lengthy captions, she offers a lively history of each region in general and each postcard in particular. Her final chapter describes the history of postcard use from 1893, and details the different collectible genres of postcards. Loaded with full-color reproductions of vintage postcards, Greetings from New Jersey will interest all residents, visitors, and historians.*
