The international legal framework of human rights presents itself as universal. But rights do not exist as a mere framework; they are enacted, practiced, and debated in local contexts. *Rights After Wrongs* ethnographically explores the chasm between the ideals and the practice of human rights. Specifically, it shows where the sweeping colonial logics of Western law meets the lived experiences, accumulated histories, and humanitarian debts present in post-colonial Zimbabwe. Through a comprehensive survey of human rights scholarship, Shannon Morreira explores the ways in which the global framework of human rights is locally interpreted, constituted, and contested in Harare, Zimbabwe,

and Musina and Cape Town, South Africa. Presenting the stories of those who lived through the violent struggles of the past decades, Morreira shows how supposedly universal ideals become localized in the context of post-colonial Southern Africa. *Rights After Wrongs* uncovers the disconnect between the ways human rights appear on paper and the ways in which it is possible for people to use and understand them in everyday life.

This landmark book is concerned with the civil power of the news. This power can be seen in the ways the news engages with public sentiment through a focus on three invariant civil concerns: identity, legitimacy and risk. The book analyses how news stories engage with these concerns to make civil and anti-civil judgements, which influence public sentiment and

determine the boundaries we place and maintain around the society we live in. Through historical and contemporary examples of this boundary shaping and maintenance, *The Civil Power of the News* presents a bold and original account of the architecture of news, the influence it has on our conceptions of civility, and, ultimately, the power it wields.

NEW STUDENT GETS OLD TEACHER The bad news is that Cara Landry is the new kid at Denton Elementary School. The worse news is that her teacher, Mr. Larson, would rather read the paper and drink coffee than teach his students anything. So Cara decides to give Mr. Larson something else to read—her own newspaper, *The Landry News*. Before she knows it, the whole fifth-grade class is in on the project. But then the principal finds a

This report presents a quantitative assessment of how the presentation of news has changed over the past 30 years and how it varies across platforms. Over time, and as society moved from “ old ” to “ new ” media, news content has generally shifted from more-objective event- and context-based reporting to reporting that is more subjective, relies more heavily on argumentation and advocacy, and includes more emotional appeals.

The Sunshine State has an exceptionally stormy past. Vulnerable to storms that arise in the Atlantic, Caribbean, and Gulf of Mexico, Florida has been hit by far more hurricanes than any other state. In many ways, hurricanes have helped shape Florida's history. Early efforts by the French, Spanish, and English to claim the territory as their own were often thwarted by hurricanes. More recently, storms have affected such massive projects as Henry Flagler's Overseas Railroad and efforts to manage water in South Florida. In this book, Jay Barnes offers a fascinating and informative look at Florida's

hurricane history. Drawing on meteorological research, news reports, first-person accounts, maps, and historical photographs, he traces all of the notable hurricanes that have affected the state over the last four-and-a-half centuries, from the great storms of the early colonial period to the devastating hurricanes of 2004 and 2005--Charley, Frances, Ivan, Jeanne, Dennis, Katrina, and Wilma. In addition to providing a comprehensive chronology of more than one hundred individual storms, Florida's Hurricane History includes information on the basics of hurricane dynamics, formation, naming, and forecasting. It explores the origins of the U.S. Weather Bureau and government efforts to study and track hurricanes in Florida, home of the National Hurricane Center. But the book does more than examine how hurricanes have shaped Florida's past; it also looks toward the future, discussing the serious

threat that hurricanes continue to pose to both lives and property in the state. Filled with more than 200 photographs and maps, the book also features a foreword by Steve Lyons, tropical weather expert for the Weather Channel. It will serve as both an essential reference on hurricanes in Florida and a remarkable source of the stories--of tragedy and destruction, rescue and survival--that foster our fascination with these powerful storms.

The long-awaited prequel to the bestseller **FOURTH GRADE RATS** George, aka "Suds," has just entered third grade, and he's heard the rhyme about "first grade babies/second grade cats/third grade angels/fourth grade rats," but what does this mean for his school year? It means that his teacher, Mrs. Simms, will hold a competition every month to see which student deserves to be awarded "the halo" - which student is best-behaved, kindest to

others, and, in short, perfect. Suds is determined to be the first to earn the halo, but he's finding the challenge of always being good to be more stressful than he had anticipated. Does he have to be good even outside of school? (Does he have to be nice to his annoying little sister?) And if Mrs. Simms doesn't actually see him doing a good deed, does it even count? A warm, funny return to elementary school from master storyteller Spinelli.

Mr. Hatch is tall and thin and lonely, and he does not smile. On Valentine's Day, he gets a surprise package in the mail. It is a heart-shaped, satin box filled with chocolates. "Somebody loves you", the note reads. He leaps for joy, he talks with his neighbors (something he has never done), and he even throws a party and makes many new friends. Never mind that the package was delivered to the wrong address!

Editing is often seen as one item on a list of steps in the writing process—usually put somewhere near the end, and often completely crowded out of writer's workshop. Too many times daily editing lessons happen in a vacuum, with no relationship to what students are writing. In *Everyday Editing*, Jeff Anderson asks teachers to reflect on what sort of message this approach sends to students. Does it tell them that editing and revision are meaningful parts of the writing process, or just a hunt for errors with a 50/50 chance of getting it right—comma or no comma? Instead of rehearsing errors and drilling students on what's wrong with a sentence, Jeff invites students to look carefully at their writing along with mentor texts, and to think about how punctuation, grammar, and style can be best used to hone and communicate meaning. Written in Jeff's characteristically witty style, this refreshing and practical guide

offers an overview of his approach to editing within the writing workshop as well as ten detailed sets of lessons covering everything from apostrophes to serial commas. These lessons can be used throughout the year to replace Daily Oral Language or error-based editing strategies with a more effective method for improving student writing.

How do the media represent obesity and eating disorders? How are these representations related to one another? And how do the news media select which scientific findings and policy decisions to report? *Multi-disciplinary in approach, Obesity, Eating Disorders and the Media* presents critical new perspectives on media representations of obesity and eating disorders, with analyses of print, online, and televisual media framings. Exploring abjection and alarm as the common themes linking media framings of obesity and eating disorders, *Obesity, Eating Disorders and the Media* shows how the media similarly position these conditions as dangerous extremes of body size and food practice. The volume then investigates how

Traditional text types (or genres) are

complex linguistic, sociocultural and cognitive phenomena that can only be analysed in flexible interdisciplinary frameworks fusing structural and process-oriented approaches and combining quantitative description with qualitative interpretation and evaluation. The theoretical and methodological implications of the prototypical text type concept which is developed in this book are explored in an exhaustive case study of a representative (ie prototypical) genre: the wedding report, a conventional type of news report published in local English newspapers. The distinctive

contextual and textual features — situational context, text production processes, function, thematic structure, and form on the macro- and microlevel — are analysed synchronically and diachronically. The linguistic findings are integrated into a comprehensive view of the interplay between the genre as a linguistic frame and its sociocultural context. The study puts special emphasis on addressing the methodological problems arising from the inherent fuzziness of traditional text types, and can thus serve as a detailed working model of genre analysis, designed to be adapted to the specific

Creating a Classroom Newspaper

"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by

Download Free Newspaper Report Template

providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps:

- Boost reading comprehension
- Improve organizational and study skills
- Enhance speaking abilities
- Develop analytical capabilities

TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current

Download Free Newspaper Report Template

curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.
