A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

In 1922, at the age of two, Petey's distraught parents commit him to the state's insane asylum,

unaware that their son is actually suffering from severe cerebral palsy. Bound by his wheelchair and struggling to communicate with the people around him, Petey finds a way to remain kind and generous despite the horrific conditions in his new "home." Through the decades, he befriends several caretakers but is heartbroken when each eventually leaves him. Determined not to be hurt again, he vows to no longer let hope of lifelong friends and family torment him. That changes after he is moved into a nursing home and meets a young teen named Trevor Ladd; he sees something in the boy and decides to risk friendship one last time. Trevor, new to town and a bit of a loner, is at first weary of the old man in the wheelchair. But after hearing more of his story, Trevor learns that there is much more to Petey than meets the eye. Petey is a touching story of friendship, discovery, and the uplifting power of the human spirit.

A National Bestseller, a New York Times Notable Book, and an Entertainment Weekly Best Book of the Year from the author of *Extra Life* “By turns a medical thriller, detective story, and paean to city life, Johnson's account of the outbreak and its modern implications is a true page-turner.” —The Washington Post “Thought-provoking.”

—Entertainment Weekly It's the summer of 1854, and London is just emerging as one of the first modern cities in the world. But lacking the infrastructure—garbage removal, clean water, sewers—necessary to support its rapidly expanding population, the city has become the perfect breeding ground for a terrifying disease no one knows how to cure. As the cholera outbreak takes hold, a physician and a local curate are spurred to action—and ultimately solve the most pressing medical riddle of their time. In a triumph of multidisciplinary thinking, Johnson illuminates the intertwined histories of the spread of disease, the rise of cities, and the nature of scientific inquiry, offering both a riveting history and a powerful explanation of how it has shaped the world we live in.

SOON TO BE A MAJOR MOTION PICTURE The stunning Booker Prize-winning novel from the author of *Amnesty* and *Selection Day* that critics have likened to Richard Wright's *Native Son*, *The White Tiger* follows a darkly comic Bangalore driver through the poverty and corruption of modern India's caste society. "This is the authentic voice of the Third World, like you've never heard it before" (John Burdett, *Bangkok 8*). The white tiger of this novel is Balram Halwai, a poor Indian villager whose great ambition leads him to the zenith of Indian business culture, the world of the Bangalore entrepreneur. On the occasion of the president of China's impending trip to Bangalore, Balram writes a letter to him describing his transformation and his experience as driver and servant to a wealthy Indian family, which he thinks exemplifies the contradictions and complications of Indian society. A special fiftieth anniversary edition of Kurt Vonnegut's masterpiece, "a desperate, painfully honest attempt to confront the monstrous crimes of the twentieth century" (Time), featuring new introduction by Kevin Powers, author of the National Book Award finalist *The Yellow Bird*. Selected by the Modern Library as one of the 100 best novels of all time *Slaughterhouse-Five* an American classic, is one of the world's great antiwar books. Centering on the infamous World War II firebombing of Dresden, the novel is the result of what Kurt Vonnegut described as a twenty-three-year struggle to write a book about what he had witnessed as an American prisoner of war. It combines historical fiction, science fiction, autobiography, and satire in an account of the life of Billy Pilgrim, a barber's son turned draftee turned optometrist turned abductee. As Vonnegut had, Billy experiences the destruction of Dresden as a POW. Unlike Vonnegut, he experiences time travel, or coming "unstuck in time." An instant bestseller, *Slaughterhouse-Five* made Kurt Vonnegut a cult hero in American literature, a reputation that only strengthened over time, despite his being banned and censored by some libraries and schools for content and language. But it was precisely those elements of Vonnegut's

writing—the political edginess, the genre-bending inventiveness, the frank violence, the transgressive wit—that have inspired generations of readers not just to look differently at the world around them but to find the confidence to say something about it. Authors as wide-ranging as Norman Mailer, John Irving, Michael Crichton, Tim O'Brien, Margaret Atwood, Elizabeth Strout, David Sedaris, Jennifer Egan, and J. K. Rowling have all found inspiration in Vonnegut's words. Jonathan Safran Foer has described Vonnegut as "the kind of writer who made people—young people especially—want to write." George Saunders has declared Vonnegut to be "the great, urgent, passionate American writer of our century, who offers us . a model of the kind of compassionate thinking that might yet save us from ourselves." Fifty years after its initial publication at the height of the Vietnam War, Vonnegut's portrayal of political disillusionment, PTSD, and postwar anxiety feels as relevant, darkly humorous, and profoundly affecting as ever, an enduring beacon through our own era's uncertainties. "Poignant and hilarious, threaded with compassion and, behind everything, the cataract of a thundering moral statement."—The Boston Globe

Only her art class offers any solace, and it is through her work on an art project that she is finally able to face what really happened at that terrible party: she was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. Her healing process has just begun when she has another violent encounter with him. But this time Melinda fights back, refuses to be silent, and thereby achieves a measure of vindication. In Laurie Halse Anderson's powerful novel, an utterly believable heroine with a bitterly ironic voice delivers a blow to the hypocritical world of high school. She speaks for many a disenfranchised teenager while demonstrating the importance of speaking up for oneself. *Speak* was a 1999 National Book Award Finalist for Young People's Literature.

London is poised on the brink of World War 11. Timid, scrawny Willie Beech -- the abused child of a single mother -- is evacuated to the English countryside. At first, he is terrified of everything, of the country sounds and sights, even of Mr. Tom, the gruff, kindly old man who has taken him in. But gradually Willie forgets the hate and despair of his past. He learns to love a world he never knew existed, a world of friendship and affection in which harsh words and daily beatings have no place. Then a telegram comes. Willie must return to his mother in London. When weeks pass by with no word from Willie, Mr. Tom sets out for London to look for the young boy he has come to love as a son.

NATIONAL BESTSELLER • Set against London's racial and cultural tapestry, venturing across the former empire and into the past as it barrels toward the future, White Teeth revels in the ecstatic hodgepodge of modern life, flirting with disaster, confounding expectations, and embracing the comedy of daily existence. Zadie Smith's dazzling debut caught critics grasping for comparisons

and deciding on everyone from Charles Dickens to Salman Rushdie to John Irving and Martin Amis. But the truth is that Zadie Smith's voice is remarkably, fluently, and altogether wonderfully her own. At the center of this invigorating novel are two unlikely friends, Archie Jones and Samad Iqbal. Hapless veterans of World War II, Archie and Samad and their families become agents of England's irrevocable transformation. A second marriage to Clara Bowden, a beautiful, albeit tooth-challenged, Jamaican half his age, quite literally gives Archie a second lease on life, and produces Irie, a knowing child whose personality doesn't quite match her name (Jamaican for "no problem"). Samad's late-in-life arranged marriage (he had to wait for his bride to be born), produces twin sons whose separate paths confound Iqbal's every effort to direct them, and a renewed, if selective, submission to his Islamic faith.

NEW YORK TIMES BESTSELLER • "A world of invention and skulduggery, populated by the likes of Edison, Westinghouse, and Tesla."—Erik Larson "A model of superior historical fiction . . . an exciting, sometimes astonishing story."—The Washington Post From Graham Moore, the Oscar-winning screenwriter of The Imitation Game and New York Times bestselling author of The Sherlockian, comes a thrilling novel—based on actual events—about the nature of genius, the cost of ambition, and the battle to electrify America. New York, 1888. Gas lamps still flicker in the city streets, but the miracle of electric light is in its infancy. The person who controls the means to turn night into day will make history—and a vast fortune. A

young untested lawyer named Paul Cravath, fresh out of Columbia Law School, takes a case that seems impossible to win. Paul's client, George Westinghouse, has been sued by Thomas Edison over a billion-dollar question: Who invented the light bulb and holds the right to power the country? The case affords Paul entry to the heady world of high society—the glittering parties in Gramercy Park mansions, and the more insidious dealings done behind closed doors. The task facing him is beyond daunting. Edison is a wily, dangerous opponent with vast resources at his disposal—private spies, newspapers in his pocket, and the backing of J. P. Morgan himself. Yet this unknown lawyer shares with his famous adversary a compulsion to win at all costs. How will he do it? In obsessive pursuit of victory, Paul crosses paths with Nikola Tesla, an eccentric, brilliant inventor who may hold the key to defeating Edison, and with Agnes Huntington, a beautiful opera singer who proves to be a flawless performer on stage and off. As Paul takes greater and greater risks, he'll find that everyone in his path is playing their own game, and no one is quite who they seem. There is nothing lonelier than a cat who has been loved, at least for a while, and then abandoned on the side of the road. A calico cat, about to have kittens, hears the lonely howl of a chained-up hound deep in the backwaters of the bayou. She dares to find him in the forest, and the hound dares to befriend this cat, this feline, this creature he is supposed to hate. They are an unlikely pair, about to become an unlikely family.

Ranger urges the cat to hide underneath the porch, to raise her kittens there because Gar-Face, the man living inside the house, will surely use them as alligator bait should he find them. But they are safe in the Underneath...as long as they stay in the Underneath. Kittens, however, are notoriously curious creatures. And one kitten's one moment of curiosity sets off a chain of events that is astonishing, remarkable, and enormous in its meaning. For everyone who loves Sounder, Shiloh, and The Yearling, for everyone who loves the haunting beauty of writers such as Marjorie Kinnan Rawlings, Flannery O'Connor, and Carson McCullers, Kathi Appelt spins a harrowing yet keenly sweet tale about the power of love—and its opposite, hate—the fragility of happiness and the importance of making good on your promises.
