There aren’t any sketches or 3D models—you see the lighting layout in a full-page photo, taken from above during the live shoot, so you can see exactly where everything’s positioned (the subject, the photographer, the lighting, the background—you name it—you see it all). Plus, you’ll see side, over-the-shoulder, and more behind-the-scenes views, so you can absolutely nail the lighting every time. **LEARN THE LIGHTING SETUPS THE PROS USE** Each year, Scott trains thousands of professional photographers during his Light It. Shoot It. Retouch It. LIVE! seminar tour and now, for the first time ever, he’s taken that incredibly popular style of learning and put in into book form. How to control and shape your light without breaking the bank The camera settings, gear, and power settings for every shot The retouching techniques the pros really use to make their subjects look their very best How to retouch hair, eyes, lips, skin, and lots of other little retouching tricks that make a really big difference How to create high-contrast portrait effects without buying expensive plug-ins A host of insider tricks, invaluable shortcuts, and kick-butt special effects to give you a real advantage over the competition Plus, Scott includes a special bonus chapter that shows how to create these same studio looks using off-camera hot shoe fl ashes and the modifi ers made for them. There’s never been a book like it.
