It's a proverbial battle of David versus Goliath. A senior government employee has been embroiled in a bitter battle against one of the country's largest financiers, Wesbank. His Story is mired in alleged fraud, corruption and misconduct. The Grahamstown High Court this week dismissed with costs an appeal by Wesbank, a division of FirstRand - for the third time - against earlier rulings made in favour of Mzukisi Ndara. In the

pursuit for justice, Ndara has approached several high-ranking politicians, Parliament as the custodian of the country's laws, the Hawks and the courts. But 15 years into the battle, the matter has yet to be resolved. And some dockets containing vital evidence have gone missing. Ndara has now turned to the Director of Public Prosecutions as a last resort. - Long and Winding Road for Justice: Bulelwa Payi; Weekend Argus, March 19, 2019 Based on your statement, together with police evidential material and the circumstances of this matter, Wesbank and or its employees breached the contract in the form of

misrepresentations and acted in violation of various statutes as alluded to in your reports. - National Director of Public Prosecutions (NDPP) Advocate Shamila Batohi; September 24, 2019 Your story needs to be told for business and government to understand they can't keep turning a blind eye to their people who believe the end justifies the means regarding profit making. - Professor Thuli Madonsela; June 4, 2020 A seventeen year journey of sheer guts and resilience... - Dr Charity Hove October 6, 2021 It is a baffling, bewildering and unsettling story best summarized by your insightful self-

observation (Part One: page 31), 'my inner desire for truth'. You write with fluency and power, the first part of your account, embracing your earlier life, is amusing, wry, entertaining and in parts engrossing. The later parts make for more challenging reading, because of the anguish of the cumulating injustices, delays, lawyerly and institutional disingenuousness and evasions you suffered. Your account is truly a Dickensian tale of the law's delays and obscurities, of lawyers and journalists' evasions, with very occasional light points of courage, loyalty and competence. - Retired Constitutional Court Justice, Edwin

Examine the anatomy of a horse from an entirely different perspective. This intriguing and original explanation of the 11 internal body systems of horses shows them painted on the outside to describe everything on the inside. Divided into 12 chapters, Horse Anatomy for Performance combines high quality photographs and intricate paintings with top tips and fascinating facts to provide a practical and useful guide to horse anatomy. Visually appealing, original and easily understandable, the book explains how anatomy influences the way we manage, ride and train our horses. This book is a sequel to How Your Horse Moves by Gillian Higgins; together the books provide a

The future of politics after the pandemic COVID-19 exposed the pre-existing conditions of the current global crisis. Many Western states failed to protect their populations, while others were able to suppress the virus only with sweeping social restrictions. In contrast, many Asian countries were able to make much more precise interventions. Everywhere, lockdown transformed everyday life, introducing an epidemiological view of

society based on sensing, modeling, and filtering. What lessons are to be learned? The Revenge of the Real envisions a new positive biopolitics that recognizes that governance is literally a matter of life and death. We are grappling with multiple interconnected dilemmas—climate change, pandemics, the tensions between the individual and society—all of which have to be addressed on a planetary scale. Even when separated, we are

still enmeshed. Can the world govern itself differently? What models and philosophies are needed? Bratton argues that instead of thinking of biotechnologies as something imposed on society, we must see them as essential to a politics of infrastructure, knowledge, and direct intervention. In this way, we can build a society based on a new rationality of inclusion, care, and prevention.
