Cowritten by USA Today best-selling author Tara Sivec and award-winning narrator Andi Arndt, a hysterically funny, heartfelt romance about starting over and taking chances. Nothing good ever comes from drinking a box of wine alone. So when I decided to entertain my drunken self by setting up some hand-me-down podcasting equipment and reading the steamy parts from romance novels, I never thought anyone would actually listen. The fact that I admitted my huge crush on my sexy next door neighbor made the whole thing even more mortifying. But sometimes life surprises you, and that's how my podcast, Heidi's Discount Erotica, was born. Now I, Heidi Larsen, a sweet former kindergarten teacher in Waconia, Minnesota, lead a scandalous double life reading erotic novels to the listening world. And with each episode, I find myself embracing my new alter ego more and more. Now I'm starting to feel more comfortable in my own skin and do things I never would have dreamed of - like kissing my neighbor. Look out, Waconia, because Heidi's on the loose! She's in your ears, in your hearts, and down your pants...wait, that didn't sound as good as it did in my head. Well, you get the picture, don'tcha know!

Some of you will wonder how can health be forbidden, because initially it does not make any sense at all. This book is the result of many years of data collecting about allegedly incurable diseases by the bio-physicist Andreas Kalcker, who dares to speak the truth, offering solutions where there were none until now. After recovering from a disease deemed incurable himself, he has been able to find out the lowest common denominator to all diseases and the reason behind such an effective therapeutic response that raises polemic among the conventionalists. This book contains everything one needs to set out on a new paradigm about their physical and psychic wellness, at the same time that they discover that within the pharmaceutical industry... nothing is what it seems. Andreas Kalcker's new book is written in a simple and comprehensive style that is suitable for both beginners and health professionals, with a valuable collection of data, protocols and recovery testimonials for an A-Z list of diseases. Dr. Isabel Bellostas (Peditrician): "A fearless man in search of the Truth that seeks him." Dr. Jorge Valentín Esteves (Oncologist): "We are deeply grateful to Andreas for his invaluable support for our son and our patients and we want to encourage him so he doesn't lose heart and continues making the world aware of everything he teaches, which is wonderful." Dr. Rosa Ema Peuchot: "I witness the joy of these mothers when they see their children recovered and I value the noble task performed by Dr. Kalcker." Dr. Lucila Vera: "Andreas is a light being who helps patients and doctors with a holistic

I consider philosophy rather than arts and write not concerning manual but natural powers, and consider chiefly those things which relate to gravity, levity, elastic force, the resistance of fluids, and the like forces, whether attractive or impulsive: and there the mathematical principles of philosophy.In the third book I give an example of this in the explication of the System of the World. I derive from celestial phenomena the forces of gravity with which bodies tend to the sun and other planets.

"When Type-A Manhattan lawyer Dannie Cohan is asked this question at the most important interview of her career, she has a meticulously crafted answer at the ready. Later, after nailing her interview and accepting her boyfriend's marriage proposal, Dannie goes to sleep knowing she is right on track to achieve her five-year plan. But when she wakes up, she's suddenly in a different apartment, with a different ring on her finger, and beside a very different man. The television news is on in the background, and she can just make out the scrolling date. It's the same night -December 15 - but 2025, five years in the future. After a very intense, shocking hour, Dannie wakes again, at the brink of midnight, back in 2020. She can't shake what has happened. It certainly felt much more than merely a dream, but she isn't the kind of person who believes in visions. That nonsense is only charming coming from free-spirited types, like her lifelong best friend, Bella. Determined to ignore the odd experience, she files it away in the back of her mind. That is, until four-and-a-half years later, when by chance Dannie meets the very same man from her long-ago vision."--Publisher website.

WINNER OF THE PULITZER PRIZE • THE EMMY AWARD–WINNING HBO MINISERIES STARRING FRANCES MCDORMAND, RICHARD JENKINS, AND BILL MURRAY In a voice more powerful and compassionate than ever before, New York Times bestselling author Elizabeth Strout binds together thirteen rich, luminous narratives into a book with the heft of a novel, through the presence of one larger-than-life, unforgettable character: Olive Kitteridge. At the edge of the continent, Crosby, Maine, may seem like nowhere, but seen through this brilliant writer's eyes, it's in essence the whole world, and the lives that are lived there are filled with all of the grand human drama–desire, despair, jealousy, hope, and love. At times stern, at other times patient, at times perceptive, at other times in sad denial, Olive Kitteridge, a retired schoolteacher, deplores the changes in her little town and in the world at large, but she doesn't always recognize the changes in those around her: a lounge musician haunted by a past romance: a former student who has lost the will to live: Olive's own adult child, who feels tyrannized by her irrational sensitivities; and Henry, who finds his loyalty to his marriage both a blessing and a curse. As the townspeople grapple with their problems, mild and dire, Olive is brought to a deeper understanding of herself and her life–sometimes painfully, but always with ruthless honesty. Olive Kitteridge offers profound insights into the human condition-its conflicts, its tragedies and joys, and the endurance it requires. NAMED ONE OF THE BEST BOOK OF THE YEAR BY People • USA Today • The Atlantic • The Washington Post Book World • Seattle Post-Intelligencer • Entertainment Weekly • The Christian Science Monitor • San Francisco Chronicle • Salon • San Antonio Express-News • Chicago Tribune • The Wall Street Journal "Perceptive, deeply empathetic . . . Olive is the axis around which these thirteen complex, relentlessly human narratives spin themselves into Elizabeth Strout's unforgettable novel in stories."—O: The Oprah Magazine "Fiction lovers, remember this name: Olive Kitteridge. . . .
