

Norton Anthology Of World Literature Volume F

Read by millions of students over seven editions, The Norton Anthology of Western Literature remains the most trusted undergraduate survey of Western literature available and one of the most successful college texts ever published.

An incomparable resource, an unmatched value

The Pain Tree tells stories that speak to all aspects of Jamaican life. Among the characters we hear from are: poor folk making the best of past hardships ("Coal"); rich folk plotting future selfishness ("The Goodness of My Heart"); an old man, familiar with darkness, who discovers in foreign capitalism a force even he cannot control ("Boxed-In"); a young girl, uprooted to a new country, forced to shoulder her mother's unspoken burdens in addition to her own ("Lollipop"). Bookending these are two powerful stories about the inextricability of home and history: in "The Pain Tree," the protagonist comes to realize the love she has abandoned, and the pain she has left behind; in "Flying," the lead character, searching for that which has been missing most of his life, comes home for good. Senior navigates the hills and valleys of narrative with natural ease, interweaving thick strands of emotion and insight yet never losing sight of a story's ebb and flow. Her Pain Tree is an engaging, thought-provoking read that transports readers fully to another place, where the unfamiliar and exciting clash and commingle with the universal.

World Literature

A classic, reimagined.

Literature remains one of the few disciplines that reflect the experiences, sensibility, worldview, and living realities of its people. Contemporary African literature captures the African experience in history and politics in a multiplicity of ways. Politics itself has come to intersect and impact on most, if not all, aspects of the African reality. This relationship of literature with African people's lives and condition forms the setting of this study. Tanure Ojaide's Indigeneity, Globalization, and African Literature: Personally Speaking belongs with a well-established tradition of personal reflections on literature by African creative writer-critics. Ojaide's contribution brings to the table the perspective of what is now recognized as a "second generation" writer, a poet, and a concerned citizen of Nigeria's Niger Delta area.

This book is a classic. Literature: Structure, Sound, and Sense has been consistently updated through its revised editions and remains the model for introductory literature texts. It is compact and easy to hold--not bloated and indiscriminate in its selections

An unmatched value and an incomparable resource

"The introductions in this anthology are meant to be just that: a basic overview of what students need to know before they begin reading, with topics that students can research further. An open access literature textbook cannot be a history book at the same time, but history is the great companion of literature: The more history students know, the easier it is for them to interpret literature. In an electronic age, with this text available to anyone with computer access around the world, it has never been more necessary to recognize and understand differences among nationalities and cultures. The literature in this anthology is foundational, in the sense that these works influenced the authors who followed them. A word to the instructor: The texts have been chosen with the idea that they can be compared and contrasted, using common themes. Rather than numerous (and therefore often random) choices of texts from various periods, these selected works are meant to make both teaching and learning easier. While cultural expectations are not universal, many of the themes found in these works are."--Open Textbook Library.

A West African Epic of the Mande Peoples

The Norton Anthology of Western Literature

Compact Anthology of World Literature

Read by millions of students over seven editions, The Norton Anthology of English Literature remains the most trusted undergraduate survey of English literature available and one of the most successful college texts ever published.

"The story of literature in sixteen acts, from Alexander the Great and the Iliad to ebooks and Harry Potter, this engaging book brings together remarkable people and surprising events to show how writing shaped cultures, religions, and the history of the world"--

A pillar of the West African oral tradition for centuries, this epic traces the adventures and achievements of the Mande hero, Sunjata, as he liberates his people from Sumaworo Kanté, the sorcerer king of Soso, and establishes the great medieval empire of Mali. David Conrad conveys the strong narrative thrust of the Sunjata epic in his presentation of substantial excerpts from his translation of a performance by Djanka Tasseý Condé. Readers approaching the epic for the first time will appreciate the translation's highly readable, poetic English as well as Conrad's informative Introduction and notes. Scholars will find the familiar heroes and heroines taking on new dimensions, secondary characters gaining increased prominence, and previously unknown figures emerging from obscurity. "Thanks to his careful editing and translating of Condé's narrative, Conrad offers a highly readable version of the epic that is about a third of its original length. The translation communicates not only the poetic qualities and the essential events of the Sunjata legend but also the master bard's performance values. Thus, this rendering will fascinate those who already know the story and culture and those coming to the epic for the first time. Conrad provides an excellent introduction to Mande oral tradition, the role of the griot, and the Manding belief system. Though he makes no claim for this as the complete scholarly edition, he does provide helpful scholarly notes, a glossary, and a good bibliography. . . . Summing up: Highly recommended." --L. W. Writing about World Literature, a new guide created to accompany the Norton Anthology, covers the processes and particulars of writing in the world literature survey course. Starting with the essential question, "(BWhat

is *Academic Writing*," the guide takes students step-by-step through the writing process - from generating ideas to researching to revising. It includes an entire chapter on the different types of writing about world literature - including textual and contextual analyses.

Gathers short stories, plays, and poems by authors from the Mediterranean, Europe, Africa, the Far East, Latin America, North America, and Great Britain. During the later Middle Ages, new optical theories were introduced that located the power of sight not in the seeing subject, but in the passive object of vision. This shift had a powerful impact not only on medieval science but also on theories of knowledge, and this changing relationship of vision and knowledge was a crucial element in late medieval religious devotion. In *Seeing through the Veil*, Suzanne Conklin Akbari examines several late medieval allegories in the context of contemporary paradigm shifts in scientific and philosophical theories of vision. After a survey on the genre of allegory and an overview of medieval optical theories, Akbari delves into more detailed studies of several medieval literary works, including the *Roman de la Rose*, Dante's *Vita Nuova*, *Convivio*, and *Commedia*, and Chaucer's dream visions and *Canterbury Tales*. The final chapter, 'Division and Darkness,' centres on the legacy of allegory in the fifteenth century. Offering a new interdisciplinary, synthetic approach to late medieval intellectual history and to major works within the medieval literary canon, *Seeing through the Veil* will be an essential resource to the study of medieval literature and culture, as well as philosophy, history of art, and history of science.

The Norton Anthology of World Masterpieces

"This anthology contains all the substantial surviving works from the golden age of Ancient Egyptian fictional literature (c.1940-1640 B.C.). Composed by an anonymous author in the form of a funerary autobiography, the Tale tells how the courtier Sinuhe flees Egypt at the death of his king. His adventures bring wealth and happiness, but his failure to find meaningful life abroad is only redeemed by the new king's sympathy, and he finally returns to the security of his homeland. Other works from the Middle Kingdom include a poetic dialogue between a man and his soul on the problem of suffering and death, a teaching about the nature of wisdom which is bitterly spoken by the ghost of the assassinated King Amenemhat I, and a series of light-hearted tales of wonder from the court of the builder of the Great Pyramid."--Jacket.
