used by our sales team. We've never had a year end sales meeting with content that was met with such widespread acceptance and enthusiasm." —Jerry D. Cline, Senior Vice President, Retail Sales and Marketing, AmerisourceBergen Drug Company

"The best salespeople sit across the table and make change easy for their customer by creating a succinct story and vision for what to change, how to change it, and how it will impact customer results. An enterprise focus on sales messaging, using the concepts in this book, is the hidden secret to driving incremental sales productivity and overwhelming customer success!" —Ken Powell, Vice President, Worldwide Sales Enablement, ADP

"The Power Messaging techniques in this book are the foundation of how our marketing team creates our sales messages, as well as the process our field sales teams use for delivering that message in a unique and compelling way. At Kronos our results are a reflection of the power of the tool."

—Aron Ain, CEO, Kronos

About the Book: In today's highly competitive world of complex sales, commoditization of your brand is one of the greatest dangers. You must differentiate yourself from the competition—or you will lose out. And the way to do that is through customer

engagement. Rather than sell your own corporate story and brand message, you need to tell customers their story—the one in which they are the heroes and they achieve success. Erik Peterson and Tim Riesterer have been developing and honing their Power Messaging sales technique for more than 20 years, and now they reveal all their secrets in *Conversations That Win the Complex Sale*. Presenting a catalog of facts or playing 20 questions with prospective customers is the surest way to lose the sale. Peterson and Riesterer provide the tools you need to recraft your message into a compelling story that wins more deals. With *Conversations That Win the Complex Sale*, you'll learn how to:

- Differentiate yourself from the competition by finding your "Value Wedge"
- Avoid parity in your value propositions by creating "Power Positions"
- Create a message that can literally double the number of deals you close
- Spike customer attention and create "Wow" in your conversations
- Prove all your claims without resorting to lists of boring facts and statistics
- Your competitors are out there telling their own corporate story—a story customers don't want to hear. Now is the time to seize the moment. This book is the one and only source you need to

reframe your sales story and turn the tables on the competition by fully engaging their would-be customers. *Conversations That Win the Complex Sale* helps you create and deliver messages that customers care about, giving your brand the clear edge in today's crowded markets. The objective of our New York State Test Prep Book for fourth grade ELA is to provide students, educators, and parents with practice materials focused on the core skills needed to help students succeed on the NY State ELA grade 4 assessment in 2017-18. A student will fare better on a test when s/he has practiced and mastered the skills measured by the assessment. A student also excels when s/he is familiar with the format and structure of the test. This book helps students do both. Students can use this workbook to review key material and practice with skill-building exercises tethered to New York's Next Generation Learning Standards. They can also take ELA practice tests that reflect the rigor and format of the official New York assessments. Students will become accustomed to how test content is presented, which will enhance their test-taking skills. By test day, students will feel confident and prepared to do their

He Made Trees Live Again

In this fast-paced adventure, the Landons trail a wounded wolf in Yellowstone National Park. The park is abuzz with rumors of a wolf attack. Meanwhile, a killer stalks the woods. Unaware of the danger, Jack and Ashley are more concerned about rebellious teenage foster child, Troy Haverson. From the opening moments at Old Faithful through 48 action-packed hours, the tension builds: What is lodged in the wolf's radio collar? And what is the meaning of the Native American story of Sin-a-Wavi? A heady mix of suspense, adventure, and moments of tenderness lure readers into this story of kids discovering the natural world. The book's afterword, by Yellowstone's Michael K. Phillips, explores the park's Wolf Restoration Program. National Geographic supports K-12 educators with ELA Common Core Resources. of Grandma Gatewood, as the reporters called her, who became a hiking celebrity in the 1950s and '60s. She appeared on TV with Groucho Marx and Art Linkletter, and on the pages of Sports Illustrated. The public attention she brought to the little-known footpath was unprecedented. Her vocal criticism of the lousy, difficult stretches led to bolstered maintenance, and very likely saved the trail from extinction. Author Ben Montgomery was given unprecedented access to Gatewood's own diaries, trail journals, and correspondence. He also unearthed historic newspaper and magazine articles and interviewed surviving family members and hikers Gatewood met along the trail. The inspiring story of Emma Gatewood illustrates the full power of human spirit and determination.

Recent changes in policy and law, along with advances in research, are making it necessary for an increasing number of school psychologists, special educators, and teacher consultants to develop skills in areas other than psychoeducational assessment. In response to this need, many professionals and students are expanding their careers to include the field of instructional consultation -- the synthesis of school- based consultation techniques and a solid knowledge of effective instructional practices. This book examines the major themes of instruction and gives a step-by-step outline of the consultation process from referral to the final report. Since the first edition of this book, e-learning has grown to account for at least 40% of all training delivery media. However, digital courses often fail to reach their potential for learning effectiveness and efficiency. This guide provides research-based guidelines on how best to present content with text, graphics, and audio as well as the conditions under which those guidelines are most effective. psychology, and applications for ways to improve learning through personalization techniques, coherence, animations, and a new chapter on evidence-based game design. The chapter on the Cognitive Theory of Multimedia Learning introduces three forms of cognitive load which are revisited throughout each chapter as the psychological basis for chapter principles. A new chapter on engagement in learning lays the groundwork for in-depth reviews of how to leverage worked examples, practice, online collaboration, and learner control to optimize learning. The updated instructor's materials include a syllabus, assignments, storyboard projects, and test items that you can adapt to your own course schedule and students. This revision of Bloom's taxonomy is designed to help teachers understand and implement standards-based curriculums. Cognitive psychologists, curriculum specialists, teacher educators, and researchers have developed a two-dimensional framework, focusing on knowledge and cognitive processes. In combination, these two define what students are expected to learn in school. It explores curriculums from three unique perspectives-cognitive psychologists (learning emphasis), curriculum specialists and teacher educators (C & I emphasis), and measurement and assessment experts (assessment emphasis). This revisited framework allows you to connect learning in all areas of curriculum. Educators, or others interested in educational psychology or educational methods for grades K-12.

teaching and learning is developed based on the notion of visible teaching and visible learning. A major message is that what works best for students is similar to what works best for teachers – an attention to setting challenging learning intentions, being clear about what success means, and an attention to learning strategies for developing conceptual understanding about what teachers and students know and understand. Although the current evidence based fad has turned into a debate about test scores, this book is about using evidence to build and defend a model of teaching and learning. A major contribution is a fascinating benchmark/dashboard for comparing many innovations in teaching and schools.

"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps:

Boost reading comprehension Improve organizational and study skills Enhance

*speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.*

This edition is not just a rehash of old, albeit classic and still important, stuff. Instead, it provides a fresh perspective on a topic of perennial interest for those working in the field that has been variously called training and development, human resource development, performance technology, and workplace learning and performance. The fresh perspective takes into consideration two additional instructor settings to the traditional face-to-face environments that most instructors and trainers know -- that is, online and blended settings. These settings are, of course, becoming more critical as instruction moves beyond classroom settings to include virtual and combinations of classroom and other media delivery methods.

The ibstpi instructor competencies match up well to Mapping the Future (Bernthal, Colteryahn, Davis, Naughton, Rothwell, & Wellins 2004), the current ASTD competency study of the field now known as Workplace Learning and Performance (WLP) and previously known as Training and Development (T&D). WLP is more than a new name for an old subject and represents a fundamental paradigm shift in what it means to be a professional in the field formerly known as training. WLP is all about getting improved performance -- and therefore improved results -- in organizational settings through planned and unplanned learning interventions. Instruction is thus a means to an end and not an end in itself. The ibstpi instructor competencies dovetail well with that philosophy.

Berlin wrote more than a thousand songs; many, like "God Bless America" and "White Christmas" are still hits.

Many brave individuals fought for racial equality during the Civil Rights era. One method of standing up for equality was "sitting in." Black Americans entered businesses that only served white people and calmly refused to leave as a form of peaceful protest. This innovative play follows three black students who courageously hold a sit-in at a lunch counter. This dramatization helps modern readers understand what these protests were like, and to appreciate the bravery of the many student protestors. Historical photographs illuminate this period of history. Stage directions, costume and prop notes, and character descriptions guide readers through the performance.
