General Editor Patrick O'Brien was Director of Historical Research at the University of London.

In The Routledge Atlas of the Second World War, Martin Gilbert graphically charts the war’s political, military, economic and social history through 247 maps. Each map has been specially drawn for this atlas, many of them covering topics that have not previously been mapped. The atlas covers all the major events from the German invasion of Poland in September 1939 to the defeat of Japan in August 1945, including the Blitz, the Fall of France, Pearl Harbor, the naval Battles of the Atlantic, the Indian Ocean and the Pacific, Dieppe, Stalingrad, Midway, the Normandy Landings, the bombing of Warsaw, London, Coventry, Hamburg, Dresden, Tokyo, Hiroshima and Nagasaki, the Burma Railway, concentration camps and slave labour camps, and prisoner-of-war camps in Europe, the Americas and the Far East. Focusing on the human - and inhuman - aspects of the war, The Routledge Atlas of the Second World War includes examination of: Military, naval and air campaigns on all the war fronts The war on land, at sea and in the air The economic and social aspects of the war The global nature of the war, in armed combat and in suffering The impact of the war on civilians, both under occupation, and as deportees and refugees The aftermath of the war: the post-war political and national boundaries; war graves, and the human cost of the war on every continent.

This edition combines all four volumes in the series, depicting the world and its people between 10000 BCE and the present day. It covers all major human civilizations, from the ancient world to modern times, and examines the core curriculum themes of religion, exploration, colonization, industry, technology, war and diplomatic relations.

This classic study by the eminent Dutch historian of science E. J. Dijksterhuis (1892-1965) presents the work of the Greek mathematician and mechanical engineer to the modern reader. With meticulous scholarship, Dijksterhuis surveys the whole range of evidence on Archimedes’ life and the 2000-year history of the manuscripts and editions of the text, and then undertakes a comprehensive examination of all the extant writings. Originally published in 1987. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Humans are a recent event in the planet’s history, but we’ve wasted little time in making our mark. The range of our achievements has created a rich and elaborate heritage that we have the unique ability to capture and record-meaning we can look back and learn from the road traveled. Timelines of History begins with the emergence of our earliest African ancestors and takes the reader through the history of cultures and nations around the world to arrive at the present day-today of a new millennium. A dynamic, layered timeline zooms in and out of time, speeding up or slowing down to keep pace with the size and scope of events.

The dominant Mediterranean power in the fifth and sixth centuries, by the time of its demise at the hands of the Ottomans in 1453 the Byzantine empire was a shadow of its former self restricted essentially to the city of Constantinople, modern Istanbul. Surrounded by foes who posed a constant threat to its very existence, it survived because of its administration, army and the strength of its culture, of which Orthodox Christianity was a key element. This historical atlas charts key aspects of the political, social and economic history of a medieval empire which bridged the Christian and Islamic worlds from the late Roman period into the late Middle Ages.

It’s one of the first things we discover as children, reading and drawing: Maps have a unique power to transport us to distant lands on wondrous travels. Put a map at the start of a book, and we know an adventure is going to follow. Displaying this truth with beautiful full-color illustrations, The Writer’s Map is an atlas of the journeys that our most creative storytellers have made throughout their lives. This magnificent collection encompasses not only the maps that appear in their books but also the many maps that have inspired them, the sketches that they used while writing, and others that simply sparked their curiosity. Philip Pullman recounts the experience of drawing a map as he set out on one of his early novels. Philip Pullman recounts the experience of drawing a map as he set out on one of his early novels. Philip Pullman recalls the creative challenge of drawing up “The Marauder’s Map” for the Harry Potter films. David Mitchell leads us to the Mappa Mundi by way of Cloud Atlas and his own sketch maps. Robert Macfarlane reflects on the cartophilia that has informed his evocative nature writing, which was set off by Robert Louis Stevenson and his map of Treasure Island. Joanne Harris tells of her fascination with Norse maps of the universe. Reif Larson writes about our dependence on GPS and the impulse to map our experience. Daniel Reeve describes drawing maps and charts for The Hobbit film trilogy. This exquisitely crafted and illustrated atlas explores these and so many more of the maps writers create and are inspired by--some real, some imagined--in both words and images. Amid a cornucopia of over two hundred full-color images, we find here maps of the world as envisaged in medieval times, as well as maps of adventure, sci-fi and fantasy, nursery rhymes, literary classics, and collectible comics. An enchanting visual and verbal journey. The Writer’s Map will be irresistible for lovers of maps, literature, and memories--and anyone prone to flights of the imagination.

For an accessible, comprehensive global survey of the world’s major civilizations, Adler and Pouwels’s WORLD CIVILIZATIONS offers a great balance between detail and brevity. This unique student-oriented text offers 53 short chapters accompanied by strong pedagogy and critical thinking tools, giving instructors the flexibility to assign a wide range of major topics in world history in a variety of different ways, while making learning more manageable for students.
