

Ocr English Language Gcse Past Papers And Mark Schemes

This textbook is endorsed by OCR and supports the specification for GCSE Classical Civilisation (first teaching September 2017). It covers the Thematic Study Component 11 and all three Literature and Culture options (Components 21–23): Thematic Study: Myth and Religion by Ben Greenley Literature and Culture 1: The Homeric World by Dan Menashe Literature and Culture 2: Roman City Life by James Renshaw Literature and Culture 3: War and Warfare by James Renshaw Why does Greek and Roman mythology remain so popular today? Why is the hero Odysseus such an interesting character? What was it like to watch a gladiatorial fight? Why was the Roman army so successful? This book guides GCSE students to a greater understanding of such issues. The opening chapter examines the lives of women in Greece and Rome, and also focuses on women in myth and legend. The following three chapters invite readers to explore the culture of the Mycenaeans, city life in the Roman world, and ancient Greek and Roman warfare, focusing both on aspects of ancient society and on related literature. The ideal preparation for the final examinations, all content is presented by experts and experienced teachers in a clear and accessible narrative. Ancient literary and visual sources are described and analysed, with supporting images and examples of non-prescribed sources. Helpful student features include study questions, activities, further reading, and boxes focusing in on key people, events and terms. Practice questions and exam guidance prepare students for assessment. A Companion Website is available at www.bloomsbury.com/class-civ-gcse.

The aim of this book is to provide an accessible text for students, covering each of the elements in the OCR GCSE (9-1) Computer Science specification J276. It will be invaluable both as a course text and in revision for students nearing the end of the course. It is divided into eight sections, each broken down into manageable chapters of roughly one lesson. Sections 5 and 6 of the textbook cover algorithms and programming concepts with a theoretical approach to provide students with experience of writing, tracing and debugging pseudocode solutions without the aid of a computer. These sections would complement practical programming experience. Each of the eight sections cover one of the major topics in this course, and each subtopic contains sample examination questions from past papers, which can be set as homework.

The Teacher Companion helps teachers plan and deliver an effective GCSE programme in line with the requirements of the 2015 specification. The Teacher Companion, with CD-ROM, supports teachers from the planning phase through to the delivery of lessons and setting of progress-monitoring assessments, to help ensure all students progress.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Endorsed for the OCR J560 GCSE Mathematics Higher tier specification for first teaching from 2015, this Student Book provides full coverage of the new GCSE Mathematics qualification. With a strong focus on developing problem-solving skills, reasoning and fluency, it helps students understand concepts, apply techniques, solve problems, reason, interpret and communicate mathematically. Written by experienced teachers, it also includes a solid breadth and depth of quality questions set in a variety of contexts. GCSE Mathematics Online - an enhanced digital resource incorporating progression tracking - is also available, as well as Problem-solving Books, Homework Books and a free Teacher's Resource.

A Memoir

Embracing an Entirely New System of Plain Cookery and Domestic Economy

Covers the theory needed by students following full or short course specifications in GCSE Information and Communication Technology (ICT).

GCSE English Language for OCR is the most comprehensive and accessible endorsed support package for the 2010 OCR GCSE English Language curriculum. The Skills & Practice Books give students the confidence to tackle exams and controlled assessment.

“A perfect book!”—and basis for the Maggie Smith film—about a teacher who makes a lasting impression on her female students in the years before World War II (Chicago Tribune). “Give me a girl at an impressionable age, and she is mine for life!” So asserts Jean Brodie, a magnetic, dubious, and sometimes comic teacher at the conservative Marcia Blaine School for Girls in Edinburgh. Brodie selects six favorite pupils to mold—and she doesn’t stop with just their intellectual lives. She has a plan for them all, including how they will live, whom they will love, and what sacrifices they will make to uphold her ideals. When the girls reach adulthood and begin to find their own destinies, Jean Brodie’s indelible imprint is a gift to some, and a curse to others. The Prime of Miss Jean Brodie is Spark’s masterpiece, a novel that offers one of twentieth-century English literature’s most iconic and complex characters—a woman at once admirable and sinister, benevolent and conniving. This ebook features an illustrated biography of Muriel Spark including rare photos and never-before-seen documents from the author’s archive at the National Library of Scotland.

A thrilling travel book, following in the footsteps of a pioneering mountaineer.

Interdisciplinary Perspectives on Vergil’s Epic in the 20th and 21st Centuries

This collection of essays from a diverse group of scholars represents a multidisciplinary redeployment of the Aeneid which aims to illuminate its importance to our present moment. It provides a rigorous and multifaceted answer to the question, “why should we still think about the Aeneid ?” The book contains chapters detailing previously undocumented modern literary receptions of Vergil’s epic, addressing the Aeneid’s relevance to understanding modern political discourse, explaining how the Aeneid assists in making sense of the pressing current issues of trauma and damage to one’s sense of identity, and even looking at how the epic can shape our future. The chapters build upon and extend beyond reception studies to provide the most current and complete answer to the question of the epic’s current relevance. The primary audiences for this collection are undergraduate students, graduate students, and professional academics from all disciplines. This collection should be of interest to readers whose academic interests include textual and cultural studies, classics, comparative literature, pedagogy, medical humanities, veterans studies, trauma studies, immigration studies, young adult fiction, world literature, communication and political discourse, citizenship studies, and ethnic studies.

*OCR GCSE English Language: OCR GCSE English Language Book 1*Developing the Skills for Component 01 and Component 02

Endorsed by OCR for use with the OCR GCSE Health & Social Care specification this fantastic new book retains the clear, accessible language, attractive layout and useful pedagogical features from the original GCSE Health and Social Care text, and is precisely tailored to the new OCR specification. Chapters clearly lay out learning and assessment objectives for the specification, including a chapter covering the new OCR Unit on Safeguarding and Protecting Individuals.

A new series of bespoke, full-coverage resources developed for the 2016 GCSE Computer Science qualifications. Written for the OCR GCSE Computer Science specification for first teaching from 2016, this print Student Book uses an exciting and engaging approach to help students build their knowledge and master underlying computing principles and concepts. Designed to develop computational thinking, programming and problem-solving skills, this resource includes challenges that build on learning objectives, and real-life examples that demonstrate how computer science relates to everyday life. Remember features act as revision references for students and key mathematical skills relevant to computer science are highlighted throughout. OCR Classical Civilisation GCSE Route 1

English Language Teacher Companion

Assessment Preparation for Component 01 and Component 02

First Published in 2012. Routledge is an imprint of Taylor & Francis, an informa company.

Developed in partnership with OCR, OCR GCSE English Language offers teachers and students a fresh approach to the 2015 OCR GCSE English Language specification. Using a thematic approach, this Student Book combines skills development with exam preparation and supports students of all abilities.

First written in response to a JACT survey of over 100 schools, and now endorsed by OCR, this textbook has become a standard resource for students in the UK and for readers across the world who are looking for a clear and thorough introduction to the language of the ancient Greeks. Revised throughout and enhanced by coloured artwork and text features, this edition will support the new OCR specification for Classical Greek (first teaching 2016). Part 1 covers the basics and is self-contained, with its own reference section. It covers the main declensions, a range of active tenses and a vocabulary of 250 Greek words to be learned. Pupil confidence is built up by constant consolidation of the material covered. After the preliminaries, each chapter concentrates on stories with one source or subject: Aesop, Homer’s Odyssey and Alexander the Great, providing an excellent introduction to Greek culture alongside the language study. Written by a long-time school teacher and examiner, this two-part course is based on experience of what pupils find difficult, concentrating on the essentials and on the understanding of principles in both accidence and syntax: minor irregularities are postponed and subordinated so that the need for rote learning is reduced. It aims to be user-friendly, but also to give pupils a firm foundation for further study.

GCSE English Language for OCR is the most comprehensive and accessible endorsed support package for the 2010 OCR GCSE English Language curriculum. This OxBox offers resources and planning materials to support the Student Book and Teacher Guide.

OCR Computing for GCSE adopts an approach that provides comprehensive coverage of the specification, providing a cohesive and fully contextualised guide through the key content and skills demanded by all aspects of the course - Develops students understanding of the theoretical aspects of the course and the skills they need to display. The book offers students the opportunity to build on skills acquired at GCSE, extending them into their A Level course, ensuring that they are fully prepared for the assessment requirements of the qualifications and that students become successful, independent all-round learners. This brand new book includes the latest thinking and research thus maintaining relevance and instilling confidence in the resource. Whether students are taking AS or A Level OCR English Language, this resource offers guidance and activities to help all students achieve their potential.

In And Another Thing... the outspoken and outrageous presenter Jeremy Clarkson, shares his opinions on just about everything. Jeremy Clarkson finds the world such a perplexing place that he wrote a bestselling book about it. Yet, despite the appearance of The World According to Clarkson, things - amazingly - haven't improved. Not being able to get on in life, he has to have another go. In And Another Thing... the king of the exasperated quip discovers that:
• Bombing North Carolina is bad for Yorkshire
• We can look forward to exploding at the age of 62
• Russians look bad in Speedos. But not as bad as we do
• Wasps are the highest form of life
Thigh-slappingly funny and in your face, Jeremy Clarkson brings you a new way of celebrating the special, the unique and the sheer bloody brilliant... And Another Thing... is a hilarious collection of Jeremy's Sunday Times columns and the second in hisThe World According to Clarkson series which also includes The World According to Clarkson, For Crying Out Loud! and How Hard Can It Be? Praise for Jeremy Clarkson: 'Brilliant' 'Outrageously funny . . . will have you in stitches' Time Out Number-one bestseller Jeremy Clarkson writes on cars, current affairs and anything else that annoys him in his sharp and funny collections. Born To Be Riled, Clarkson On Cars, Don't Stop Me Now, Driven To Distraction, Round the Bend, Motorworld and I Know You Got Soul are also available. Clarkson's new book, Clarkson's Cars, is available on Kindle. Clarkson's new App iClarkson: The Book of Cars can be downloaded on the App Store. Jeremy Clarkson because his writing career on the Rotherham Advertiser. Since then he has written for the Sun and the Sunday Times. Today he is the tallest person working in British television, and is the presenter of the hugely popular Top Gear.

The World According to Clarkson

Developing the Skills for Component 01 and Component 02

GCSE Art and Design for OCR

This book provides practical strategies and resources that have been proven effective in teaching English to pupils of all abilities, making English accessible, challenging and exciting. The author outlines important key principles that should underpin teaching and learning so that all pupils, including those with special educational needs, can enjoy the subject and make outstanding progress. The ideas and guidance draw on a wealth of experience, providing classroom activities and free online resources, which can be combined with different teaching approaches. A range of appendices provides teachers with real-life case studies and examples and templates for supporting pupils with SEND. Offering strategies that are specific to the context of English teaching, this book will enable teachers and their teaching assistants to: develop pupils’ understanding by engaging multi-sensory approaches; ensure all pupils are able to participate fully in lessons and achieve success; design and use individual plans for pupils with SEND; assess and adapt content and resources when differentiating materials for pupils with a wide range of learning needs; use formative

assessments to measure learning and inform planning. An invaluable tool for whole-school continuing professional development, this fully revised text will be essential for teachers and their teaching assistants seeking guidance specific to teaching English to all pupils, regardless of their individual needs. This book will also be of interest to SENDCOs, learning support units and senior management teams as well as to teacher-training professionals.

A memoir of the Spanish Civil War with “the plainness of Orwell but the metaphorical soaring of a poem . . . An extraordinary book” (The New York Times Book Review). In December 1937 I crossed the Pyrenees from France—two days on foot through the snow. I don’t know why I chose December; it was just one of a number of idiocies I committed at the time. Such was Laurie Lee’s entry into the Spanish Civil War. Six months after the Nationalist uprising forced him to leave the country he had grown to love, he returned to offer his life for the Republican cause. It seemed as simple as knocking on a farmhouse door in the middle of the night and declaring himself ready to fight. It would not be the last time he was almost executed for being a spy. In that bitter winter in a divided Spain, Lee’s youthful idealism came face to face with the reality of war. The International Brigade he sought to join was not a gallant fighting force, but a collection of misfits without proper leadership or purpose. Boredom and bad food and false alarms were as much a part of the experience of war as actual battle. And when the decisive moment finally came—the moment of him or the enemy—it left Lee feeling the very opposite of heroic. The final volume in Laurie Lee’s acclaimed autobiographical trilogy—preceded by Cider with Rosie and As I Walked Out One Midsummer Morning—is a clear-eyed and vital snapshot of a young man, and a proud nation, at a historic crossroads.

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Endorsed for the OCR J560 GCSE Mathematics Foundation tier specification for first teaching from 2015, this Student Book provides full coverage of the new GCSE Mathematics qualification.

With a strong focus on developing problem-solving skills, reasoning and fluency, it helps students understand concepts, apply techniques, solve problems, reason, interpret and communicate mathematically. In the bitter November wind, Mary Yellan crosses Bodmin Moor to Jamaica Inn. Her mother’s dying wish was that she take refuge there, with her Aunt Patience. But when Mary arrives, the warning of the coachman echoes in her mind: Jamaica Inn has a desolate power, and behind it’s crumbling walls Patience is a changed woman, cowering before her brooding, violent husband. When Mary discovers the inn’s dark secrets, the truth is more terrifying than anything she could possibly imagine, and she is forced to collude in her uncle’s murderous schemes. Against her will, she finds herself powerfully attracted to her uncle’s brother, a man she dares not trust.

A Novel

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Endorsed for the OCR J560 GCSE Mathematics Foundation tier specification for first teaching from 2015, this Problem-solving Book contains a variety of questions for students to develop their problem-solving and reasoning skills within the context of the new GCSE curriculum. Suitable for all Foundation tier students, this resource will stretch the more able and provide support to those who need it. Questions with worked solutions will help students develop the reasoning, interpreting, estimating and communication skills required to help them effectively solve problems. Encouraging progression by promoting higher-level thinking, our Problem-solving Books will help prepare students for further study.

The skies of Oxford are aflame with meteors the night Edgar Jones comes into the world—clearly this porter’s son, born in a small cottage in 1847, is no ordinary boy. While his mother is apprehensive about her restless, inquisitive child, Edgar’s father believes without a doubt that his son is destined for greatness. As the years pass, it becomes apparent that Edgar has a unique talent: He is a born inventor, and his gift for making is matched by a fierce will. Edgar turns his back on the scholarly life his father had intended for him and apprentices himself to a blacksmith. It is not long before his ingenuity and metalworking skills bring him to the attention of a maverick professor at Oxford University, a bone collector with plans for a museum of natural history. Finally, Edgar has the opportunity to showcase the singular gifts he’s learned in the hazardous soot and heat of the forge. But his great ability also becomes a curse, and his prominence is fraught with danger—both for him and for his family. Set at the dramatic midpoint of the nineteenth century, in a world on the cusp of change, The Ingenious Edgar Jones is an unforgettable coming-of-age story about the complexities of family life and the journey of one young man as he finds his place in a rapidly shifting world.

Student Book 2 provides guidance and activities, in the context of the Component 01 and Component 02 exam questions, on how to improve reading and writing skills. With the types of texts that students will face in the exams, in-context SPAG support and regular opportunities to monitor progress, this book aims to improve exam performance.

Apollo 11 astronaut Buzz Aldrin’s courageous, candid memoir of his return to Earth after the historic moon landing and his personal struggle with fame and depression. “We landed with all the grace of a freight elevator,” Buzz Aldrin relates in the opening passages of Return to Earth, remembering Command Module Columbia’s abrupt descent into the gravity of the blue planet. With that splash, Aldrin takes readers on a journey through the human side of the space program, as one of the first two men to land on the moon learns to cope with the pressures of his new public persona. In honest and compelling prose, Aldrin reveals a side of instant fame for which West Point and NASA could never have prepared him. One day a fighter pilot and engineer, the next a cultural hero burdened with the adoration of thousands, Aldrin gives a poignant account of the affair that threatened his marriage, as well as his descent into alcoholism and depression that resulted from trying to be too many things to too many people. He didn’t realize that when he landed on his home planet his odyssey had just begun. As Aldrin puts it, “I traveled to the moon, but the most significant voyage of my life began when I returned from where no man had been before.” Return to Earth is a powerful and moving memoir that exposes the stresses suffered by those in the Apollo program and the price Buzz Aldrin paid when he became an American icon.
