De Vita Beata or 'On the Happy Life' is a dialogue written by Seneca the Younger around the year 58 AD. It was intended for his older brother Gallio, to whom Seneca also dedicated his dialogue entitled De Ira ('On Anger'). It is divided into 28 chapters that present the moral thoughts of Seneca at their most mature. Seneca explains that the pursuit of happiness is the pursuit of reason - reason meant not only using logic, but also understanding the processes of nature. This new edition of De Vita Beata from Enhanced Media includes an introduction by William Smith.

In this perceptive retelling of *The Iliad*, a young Greek teacher draws on the enduring power of myth to help her students cope with the terrors of Nazi occupation. Bombs fall over a Greek village during World War II, and a teacher takes her students to a cave for shelter. There she tells them about another war—when the Greeks besieged Troy. Day after day, she recounts how the Greeks suffer from thirst, heat, and homesickness, and how the opponents meet—army against army, man against man. Helmets are cleaved, heads fly, blood flows. And everything had begun when Prince Paris of Troy fell in love with King Menelaus of Sparta's wife, the beautiful Helen, and escaped with her to his homeland. Now Helen stands atop the city walls to witness the horrors set in motion by her flight. When her current and former loves face each other in battle, she knows that, whatever happens, she will be losing. Theodor

Kallifatides provides remarkable psychological insight in his version of The Iliad, downplaying the role of the gods and delving into the mindsets of its mortal heroes. Homer's epic comes to life with a renewed urgency that allows us to experience events as though firsthand, and reveals timeless truths about the senselessness of war and what it means to be human.

**Alfred Tennyson, 1st Baron Tennyson, FRS was Poet Laureate of Great Britain and Ireland during much of Queen Victoria's reign and remains one of the most popular British poets. Tennyson excelled at penning short lyrics, such as "Break, Break, Break," "The Charge of the Light Brigade," "Tears, Idle Tears" and "Crossing the Bar." Much of his verse was based on classical mythological themes, such as Ulysses, although In Memoriam A.H.H. was written to commemorate his friend Arthur Hallam, a fellow poet and student at Trinity College, Cambridge, after he died of a stroke aged just 22. Tennyson also wrote some notable blank verse including Idylls of the King, "Ulysses," and "Tithonus." During his career, Tennyson attempted drama, but his plays enjoyed little success. between the Greeks and the Trojans after the kidnapping of Helen of Sparta. Based on the recent, superb, M.L. West edition of the Greek, this ILIAD is more readable and moving than any previous version. Thanks to the scholarship and poetic power of the highly acclaimed Stephen Mitchell, this new translation recreates the energy and simplicity, the speed, grace, and continual thrust and pull of the original, while the ILIAD's ancient story bursts vividly into life. This edition also includes book 10 as an appendix, making it indispensable for students and lay readers alike.

The ancient Greek lyric poet Simonides of Keos was the first poet in the Western tradition to take money for poetic composition. From this starting point, Anne Carson launches an exploration, poetic in its own right, of the idea of poetic economy. She offers a reading of

certain of Simonides' texts and aligns these with writings of the modern Romanian poet Paul Celan, a Jew and survivor of the Holocaust, whose "economies" of language are notorious. Asking such questions as, What is lost when words are wasted? and Who profits when words are saved? Carson reveals the two poets' striking commonalities. In Carson's view Simonides and Celan share a similar mentality or disposition toward the world, language and the work of the poet. Economy of the Unlost begins by showing how each of the two poets stands in a state of alienation between two worlds. In Simonides' case, the gift economy of fifth-century b.c. Greece was giving way to one based on money and commodities, while Celan's life spanned pre- and post-Holocaust worlds, and he himself, writing in German, became estranged from his native language. Carson goes on to consider various aspects of the two poets' techniques for coming to grips with the invisible through the visible world. A focus on the genre of the epitaph grants insights into the kinds of exchange the poets envision between the living and the dead. Assessing the impact on Simonidean composition of the material fact of inscription on stone, Carson suggests that a need for brevity influenced the exactitude and clarity of Simonides' style, and proposes a comparison with Celan's interest in the "negative design" of printmaking: both poets, though in different ways, employ a kind of negative image making, cutting away all that is superfluous. This book's juxtaposition of the two poets illuminates their differences--Simonides' fundamental faith in the power of the word, Celan's

ultimate despair--as well as their similarities; it provides fertile ground for the virtuosic interplay of Carson's scholarship and her poetic sensibility. Hamlet is a tragedy by William Shakespeare, believed to have been written between 1599 and 1601. The play, set in Denmark, recounts how Prince Hamlet exacts revenge on his uncle Claudius, who has murdered Hamlet's father, the King, and then taken the throne and married Hamlet's mother. The play vividly charts the course of real and feigned madness--from overwhelming grief to seething rage--and explores themes of treachery, revenge, incest, and moral corruption.

*This volume makes available in English for the first time Adorno's lectures on metaphysics. It provides a unique introduction not only to metaphysics but also to Adorno's own intellectual standpoint, as developed in his major work Negative Dialectics. Metaphysics for Adorno is defined by a central tension between concepts and immediate facts. Adorno traces this dualism back to Aristotle, whom he sees as the founder of metaphysics. In Aristotle it appears as an unresolved tension between form and matter. This basic split, in Adorno's interpretation, runs right through the history of metaphysics. Perhaps not surprisingly, Adorno finds this tension resolved in the Hegelian dialectic. Underlying this dualism is a further dichotomy, which Adorno sees as essential to metaphysics: while it dissolves belief in transcendental worlds by thought, at the same time it seeks to rescue belief in a reality beyond the*

*empirical, again by thought. It is to this profound ambiguity, for Adorno, that the metaphysical tradition owes its greatness. The major part of these lectures, given by Adorno late in his life, is devoted to a critical exposition of Aristotle's thought, focusing on its central ambiguities. In the last lectures, Adorno's attention switches to the question of the relevance of metaphysics today, particularly after the Holocaust. He finds in 'metaphysical experiences', which transcend rational discourse without lapsing into irrationalism, a last precarious refuge of the humane truth to which his own thought always aspired. This volume will be essential reading for anyone interested in Adorno's work and will be a valuable text for students and scholars of philosophy and social theory. Presents the essential Greek and Roman myths that form the basis of our cultural literary heritage.*
