Greatest Salesman in the World

For those who believe that there must be a more agile and efficient way for people to get things done, here is a brilliantly discursive, thought-provoking book about the leadership and management process that is changing the way we live. In the future, historians may look back on human progress and draw a sharp line designating “before Scrum” and “after Scrum.” Scrum is that ground-breaking. It already drives most of the world’s top technology companies. And now it’s starting to spread to every domain where leaders wrestle with complex projects. If you’ve ever been startled by how fast the world is changing, Scrum is one of the

reasons why. Productivity gains of as much as 1200% have been recorded, and there's no more lucid – or compelling – explainer of Scrum and its bright promise than Jeff Sutherland, the man who put together the first Scrum team more than twenty years ago. The thorny problem Jeff began tackling back then boils down to this: people are spectacularly bad at doing things with agility and efficiency. Best laid plans go up in smoke. Teams often work at cross purposes to each other. And when the pressure rises, unhappiness soars. Drawing on his experience as a West Point-educated fighter pilot, biometrics expert, early innovator of ATM technology, and V.P. of engineering

or CTO at eleven different technology companies, Jeff began challenging those dysfunctional realities, looking for solutions that would have global impact. In this book you'll journey to Scrum's front lines where Jeff's system of deep accountability, team interaction, and constant iterative improvement is, among other feats, bringing the FBI into the 21st century, perfecting the design of an affordable 140 mile per hour/100 mile per gallon car, helping NPR report fast-moving action in the Middle East, changing the way pharmacists interact with patients, reducing poverty in the Third World, and even helping people plan their weddings and accomplish weekend

chores. Woven with insights from martial arts, judicial decision making, advanced aerial combat, robotics, and many other disciplines, Scrum is consistently riveting. But the most important reason to read this book is that it may just help you achieve what others consider unachievable – whether it be inventing a trailblazing technology, devising a new system of education, pioneering a way to feed the hungry, or, closer to home, a building a foundation for your family to thrive and prosper. It's safe to say that world-famous speaker and author Og Mandino has as many friends as any man alive, thanks to his inspiring motivational lectures and his

SECRETS FOR SUCCESS AND HAPPINESS is Og's beautifully written journal, an intimate record of his innermost thoughts and feelings, the heartwarming events of his day-to-day life. Whether he's writing in his old New Hampshire farmhouse on a snowy winter day or in a hotel room just about anywhere in the country; whether he's refilling the bird feeder, comforting a sick friend, racing to catch a plane, or planting his tomatoes; Og weaves his secrets of success into the fabric of his life and the pages of this book. He shares anecdotes, both sad and

funny, and his feelings about his fan mail and the people he meets. And when trouble comes to him, he shares that, too. Living with Og and listening to his thoughts as the rich days unfold, we once again find the sheer joy of wondering what tomorrow will bring, and the courage never to look back on yesterday.
