For centuries, artists have learnt from the art that came before them. This book explains how to make paint meaningful and imaginative responses to the works of the masters. There are step by step examples to illustrate how to get started and how to use thumbnail pencil sketches. Advice is given on how to make larger and slower drawings, and then oil-sketch copies of the masters' work. The author studies the composition, rhythms and colours of the masters and uses their work as a source to practise and understand paintings, and as a springboard for your own discovery and invention. This book explores how a brave and imaginative use of colour can reinterpret paintings to achieve a greater and more expressive effect. Images from the earliest art to the twentieth century are included to feed your creative imagination, and examples of contemporary interpretations to show you the way. With over two hundred inspiring images, it is a unique guide to developing your own artistic voice while studying and enjoying some of the art world's greatest treasures.

Handbook of Paintings by the Old Masters Belonging to the Detroit Museum of Art

As a result of the Napoleonic wars, vast numbers of Old Master paintings were released on to the market from public and private collections across continental Europe. The knock-on effect was the growth of the market for Old Masters from the 1790s up to the early 1930s, when the Great Depression put an end to its expansion. This

book explores the global movement of Old Master paintings and investigates some of the changes in the art market that took place as a result of this new interest. Arguably, the most important phenomenon was the diminishing of the traditional figure of the art agent and the rise of more visible, increasingly professional, dealerships; firms such as Colnaghi and Agnew's in Britain, Goupil in France and Knoedler in the USA, came into existence. Old Masters Worldwide explores the ways in which the pioneering practices of such businesses contributed to shape a changing market.
