

Ordin Nr 1226 Din 3 Decembrie 2012 Emitent Ministerul

Rampant industrialization has caused high levels of contamination by various toxic chemicals in our water bodies, which is a matter of concern in terms of ecosystems, as well as human and animal health. Polluted wastewater can contaminate drinking water and is also a causal factor for bio-magnification of heavy metals into our food cycle. In the last decade, several methodologies have been adopted to clean the wastewaters, and among these, microbial remediation has emerged as an effective technology. Several variants of microbial technologies have been developed for wastewater treatment and biodegradation specific to the industry, type of waste and toxicity of the chemicals. This book describes the recent advances in microbial degradation and microbial remediation of various xenobiotic compounds in soil and wastewater. It also explains various modern microbial technologies for biodegradation and wastewater treatment. It covers various microbial technologies for wastewater treatment, biodegradation, bioremediation and solid waste management. Gathering contributions from leading international it focuses on the status quo in industrial wastewater treatment and its biodegradation. The book is intended for researchers in the field of industrial wastewater, students of environmental sciences and practitioners in water pollution abatement.

FOOD ETHICS, 2E explores the ethical choices we make each time we eat. With twenty-six readings that bring together a diverse group of voices, this textbook dives into issues such as genetically modified foods, animal rights, population and consumption, the food industry's impact on pollution, centralized versus localized production, and more. In addition, this edition includes new introduction, new readings, a comprehensive index, and study questions that frame these significant issues for discussion and reflection. In which the Rise, Progress, and Variations of Church Power, are Considered in Their Connexion with the State of Learning and Philosophy, and the Political History of Europe During that Period

Publication of the Association of College and Research Libraries, a Division of the American Library Association

Written around AD 1200 by an unnamed Icelandic author, the Orkneyinga Saga is an intriguing fusion of myth, legend and history. The only medieval chronicle to have Orkney as the central place of action, it tells of an era when the islands were still part of the Viking world, beginning with their conquest by the kings of Norway in the ninth century. The saga describes the subsequent history of the Earldom of Orkney and the adventures of great Norsemen such as Sigurd the Powerful, St Magnus the Martyr and Hrolf, the conqueror of Normandy. Savagely powerful and poetic, this is a fascinating depiction of an age of brutal battles, murder, sorcery and bitter family feuds. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Material objects must always be seen in context with the humans who created and used them. It is only possible to recognize and evaluate material culture in connection with human thought and behavior. The material world depends on the immaterial one, and vice versa. Neither sphere can exist without the other. In historical research, however, such contexts have not been considered regularly. In particular, the inter-connections between emotions and material culture have not been taken sufficiently into account in research. This was the reason for the "Institut fur Realienkunde des Mittelalters und der fruhen Neuzeit" to organize a round-table-discussion on "Emotions and Material Culture" and to publish its proceedings. The volume contains eleven contributions by specialists from eight countries. They show various possibilities to contextualize the material world and emotional behavior. They may be seen as a first step towards a "material emotionology" of the past. The complex results are intended to serve as a further impetus towards the systematic and comparative research into "emotional communities" and their material life in the Middle Ages and the early modern period.

The first volume of Agni: The Vedic Ritual of the Fire Altar, contains a discussion of the place of the Agnicayana in the Vedic srauta tradition, its textual loci, traditional and modern interpretations of its origins and significance and an overview of the Nambudiri Vedic tradition. The bulk of the volume, written in close collaboration with C.V. Somayajipad and M.Itti Ravi Nambudiri, is devoted to a detailed description of the 198\75 twelve-day performance, richly illustrated with tipped-in photographs, mostly in colour and almost all by Adelaide de Menil. There are numerous text illustrations, tables and maps. The mantras are published in Devanagari and translation. The second volume, edited with the assistance of Pamela MacFarland, contains contributions by an international galaxy of scholars on archeology, the pre-Vedic Indian background, geometry, ritual vessels, music, Mudras, Mimamsa, a survey of Srauta traditions in recent times, the influence of Vedic ritual in the Homa traditions of Indonesia, Tibet, China, Japan and related topics. There are translations of the relevant Srauta Sutras of Baudhayana (together with Calanda's text) and the Jaiminiya (with Bhavatrata's commentary) as well as the Kausitaki Brahmana; and a survey of the project with an inventory of the films and tape recording made in 1975.

Cast Iron Technology presents a critical review of the nature of cast irons. It discusses the types of cast iron and the general purpose of cast irons. It also presents the history of the iron founding industry. Some of the topics covered in the book are the description of liquid metal state; preparation of liquid metal; process of melting; description of cupola melting and electric melting methods; control of composition of liquid metal during preparation; description of primary cast iron solidification structures; and thermal analysis of metals to determine its quality. Solidification science and the fundamentals of heat treatment are also discussed. An in-depth analysis of the hot quenching techniques is provided. The graphitization potential of liquid iron is well presented. A chapter is devoted to microstructural features of cast iron. The book can provide useful information to iron smiths, welders, students, and researchers.

An indispensable reference for the history of monasticism in the western work, Montalembert's seven-volume masterpiece on the subject still reads with depth and conviction. Covering the monastic movement from its precursors to the period of the Venerable Bede, this set contains substantial information on a number of western saints.

Tract No. 1(-6).

Unstoppable is a word defined as "difficult or impossible to preclude or stop." As a human quality, it is something that we associate with people such as sports superstars, those who do whatever it takes to inspire others and lead teams to the greatest of victories. Sometimes, an idea or person can become unstoppable. Unstoppable, like Charles Lindbergh crossing the Atlantic in a solo flight when no one had thought it was possible, or track star Roger Bannister breaking the four-minute mile barrier. Not everyone can be an explorer or a great athlete, but anyone can be unstoppable in their chosen endeavors in life. If you are willing to possess an unwavering determination to succeed and a consistent willingness to learn and evolve, you can become unstoppable and triumph too. This book is about a personal struggle, one in which the author awoke from a coma after a terrible accident and faced a life of permanent paralysis. A long battle of driven determination resulted in Yanni Raz regaining his health and becoming a self-made millionaire after migrating from his native Israel to the United States. Through careers as a musician, a Starbucks barista, a salesman, a real estate whiz, a professional poker player and a hard money lender, Yanni learned reliable principles and the skills necessary for success. Unstoppable covers many topics including controlling your life, making the best decisions, creating new opportunities, properly assessing signals, expertly negotiating, and succeeding by storytelling across the media landscape. You'll learn about integrity in business, asset diversification, and many other life tips that thousands of people learn from Yanni on a daily basis. It is time to become fearless and lead a powerful life. With Yanni's new book Unstoppable, you can do just that.
