Created for Greatness

In this work, Anne GIVAUDAN invites us to contact the men and women who have the painful sensation that their soul is not aligned with their body. Without any judgment, any a priori or any classification, she pushes back the limits of the known worlds to allow us to dive into an unknown world. What is hiding behind these faces with often tragic or guilt-generating situations? That is what we will discover behind the life stories of these beings who underwent extreme circumstances. This is not about indicting or glorifying anyone, or anything, but

What happens on and after December 21, 2012? There has been much confusion and many predictions based on the Mayan calendar. Some people think time on Earth will end, but what if there was an intact and complete resource from the ancestors that will give us the wisdom we need for the shift and an understanding of the coming era? In "2012-2021: The Dawn of the Sixth Sun," Sergio Magana (Ocelocoyotl), mystic and teacher of the ancient Toltec/Aztec lineage of Mesoamerica, discloses an in-depth understanding from a rich and uninterrupted oral tradition, the meaning of the shift from the Fifth to the Sixth Sun, the possibilities presented to humanity at this time, and ancient teachings and practices

Cosmic Cycles is a wide-ranging collection of articles that could just as well have been called Fragments of an Unknown History. Although they must remain fragments, as Guénon did not return to many of these themes again, it would have been regrettable to leave such fascinating articles buried in old journals, and so this posthumous collection is now offered to Anglophone readers for the first time. The book opens with the key article 'The Doctrine of Cosmic Cycles', followed by two pieces on Atlantis and Hyperborea. Two sections follow, concerned respectively with the Hebrew Tradition and the Egyptian Tradition. The former comprises five articles concerned primarily with the Kabbalah and the Science of Numbers,

The groundbreaking and classic study that first popularized occultism, alchemy, and paranormal phenomena in the 1960s • Provides profound insights into our perceptions of reality, telepathy, mutants, and parallel universes • Reveals the occult influences on the Nazis and introduces the alchemist Fulcanelli and the work of Charles Fort and Gurdjieff • Over Half a Million Copies Sold
This groundbreaking,

international bestseller, first published in 1960, couples profound insights into the hidden history of humanity and our perceptions of reality with the scientific evidence that supports the existence of paranormal activity, telepathy, and extraterrestrial communications. The first book to explore in depth the Nazi fascination with the occult, Pauwels and Bergier also broke new ground with their study of pyramidology, alchemy and its close kinship with atomic energy, and the possibility of a widespread mutation of humanity that would herald the dawn of a new age for the earth. Their study

of secret societies, starting with the Rosicrucians, suggests that such changes are actively being pursued in the present day by a “conspiracy” of the most spiritually and intellectually advanced members of the human race. The Morning of the Magicians also explores the anomalous events collected by Charles Fort, the work of Gurdjieff, and the history of the mysterious Fulcanelli, who was widely believed to have manufactured the philosopher’s stone--which provided the Nazis the motive for mounting an intensive search for him during their occupation of Paris. Much

more than a collection of strange facts defying conventional wisdom, this book remains a sophisticated philosophical exploration of repressed phenomena and hidden histories that asks its readers to look at reality with ever “awakened eyes.”

"Apocalypse 23" has won numerous literary awards and has been welcomed by critics. It has become a cult book thanks to bookcrossing as has long been the first book in the ranking of "most traveled" and still is the first Italian book in standings.

This method employs both some American miming and acting techniques as well as some muscular rehabilitation techniques used in hospitals. The result is that the face becomes more tonic and expressive (a combination which is impossible to achieve through plastic surgery!). It simply requires the use of your hands and takes up less than 15 minutes a day: the first results will appear just after three weeks.
