This study examines the changes in the American film industry, audiences, and feature films between 1965 and 1975. With transformations in production codes, adjustments in national narratives, a rise in independent filmmaking, and

Recent research on inequality and poverty has shown that those born into low-income families, especially African Americans, still have difficulty entering the middle class, in part because of the disadvantages

Online Library Other America Guided Answers

they experience living in more dangerous neighborhoods, going to inferior public schools, and persistent racial inequality. Coming of Age in the Other America shows that despite overwhelming odds, some disadvantaged urban youth do

Online Library Other America Guided Answers

achieve upward mobility. Drawing from ten years of fieldwork with parents and children who resided in Baltimore public housing, sociologists Stefanie DeLuca, Susan Clampet-Lundquist, and Kathryn Edin highlight the remarkable

Online Library Other America Guided Answers

resiliency of some of the youth who hailed from the nation's poorest neighborhoods and show how the right public policies might help break the cycle of disadvantage. Coming of Age in the Other America illuminates the profound effects of

Online Library Other America Guided Answers

neighborhoods on impoverished families. The authors conducted in-depth interviews and fieldwork with 150 young adults, and found that those who had been able to move to better neighborhoods—either as part of the Moving to Opportunity

Online Library Other America Guided Answers

program or by other means—achieved much higher rates of high school completion and college enrollment than their parents. About half the youth surveyed reported being motivated by an “identity project”—or a strong

Online Library Other America Guided Answers

passion such as music, art, or a dream job—to finish school and build a career. Yet the authors also found troubling evidence that some of the most promising young adults often fell short of their goals and remained mired in poverty. Factors

Online Library Other America Guided Answers

such as neighborhood violence and family trauma put these youth on expedited paths to adulthood, forcing them to shorten or end their schooling and find jobs much earlier than their middle-class counterparts. Weak labor markets and subpar

Online Library Other America Guided Answers

postsecondary educational institutions, including exploitative for-profit trade schools and underfunded community colleges, saddle some young adults with debt and trap them in low-wage jobs. A third of the youth surveyed—particularly

Online Library Other America Guided Answers

those who had not developed identity projects—were neither employed nor in school. To address these barriers to success, the authors recommend initiatives that help transform poor neighborhoods and provide institutional support for the identity

Online Library Other America Guided Answers

projects that motivate youth to stay in school. They propose increased regulation of for-profit schools and increased college resources for low-income high school students. Coming of Age in the Other America presents a sensitive, nuanced account

Online Library Other America Guided Answers

of how a generation of ambitious but underprivileged young Baltimoreans has struggled to succeed. It both challenges long-held myths about inner-city youth and shows how the process of “social reproduction”—where children end

Online Library Other America Guided Answers

up stuck in the same place as their parents—is far from inevitable.
