NOTE: This Parent-Teacher-Mentor Edition of Shine In Your Life's Journey accompanies the student guide/workbook Shine In Your Life's Journey: A Student's Guide to Character Development, and contains helpful instructions to the lessons in the Student Guide for any parent, teacher, and mentor. "There is honor in meeting and overcoming life's challenges." This is the theme of Shine in Your Life's Journey (for students) and is meant to inspire children of all ages with the belief that with meaningful learning tools, they have the power to meet their personal challenges and goals with courage and purpose. Shine In Your Life's Journey is a simply formatted, straightforward guide/workbook to help students learn the important values and behaviors that build and sustain a strong character. Containing concise, thought-provoking, and enjoyable lessons, this easy-to-use guide encourages its student users to discover their own innate strengths as well as improve areas of lesser strengths that will help them achieve their hopes, dreams, and goals in their lives. The lessons are divided into three sections: Being an Honorable Person, Self-Discovery, and Self-Empowerment, and are a result of the curriculum the author has developed for the children he teaches and mentors at Jasper Mountain Center in Jasper, Oregon, an internationally renowned residential facility that addresses the significant needs of children and their families who have suffered the trauma of abuse. Author Greg Ahlijian has been a volunteer at the Jasper Mountain facility since 2008, teaching and mentoring children from ages 8-14 about character development, nature, and poetry. Inspired by the children, he has written two books that contain life lessons: The Large Rock and the Little Yew teaches the virtues of courage, perseverance, self-respect, and hope; and An Elephant Would Be Wonderful, a book about self-discovery. He says, "To be able to provide a smile on a child's face, a bit of joy or inspiration, is what my book projects are all about!"

Lillian stared at the closed door through which both her father and Mrs. Bolstreath had passed, and then looked at Dan, sitting somewhat disconsolately at the disordered dinner-table. She was a delicately pretty girl of a fair fragile type, not yet twenty years of age, and resembled a shepherdess of Dresden china in her dainty perfection. With her pale golden hair, and rose-leaf complexion; arrayed in a simple white silk frock with snowy pearls round her slender neck, she looked like a wreath of faint mist. At least Dan fancifully thought so, as he stole a glance at her frail beauty, or perhaps she was more like a silver-point drawing, exquisitely fine. But whatever image love might find to

express her loveliness, Dan knew in his hot passion that she was the one girl in the world for him. Lillian Halliday was a much better name for her than Lillian Moon. Dan himself was tall and slim, dark and virile, with a clear-cut, clean-shaven face suggestive of strength and activity. His bronzed complexion suggested an open-air life, while the eagle look in his dark eyes was that new vast-distance expression rapidly being acquired by those who devote themselves to aviation. No one could deny Dan's good looks or clean life or daring nature, and he was all that a girl could desire in the way of a fairy prince. But fathers do not approve of fairy princes unless they come laden with jewels and gold. To bring such to Lillian was rather like taking coals to Newcastle since her father was so wealthy; but much desires more, and Sir Charles wanted a rich son-in-law. Dan could not supply this particular adjective, and therefore--as he would have put it in the newest slang of the newest profession--was out of the fly. Not that he intended to be, in spite of Sir Charles, since love can laugh at stern fathers as easily as at bolts and bars. And all this time Lillian stared at the door, and then at Dan, and then at her plate, putting two and two together. But in spite of her feminine intuition, she could not make four, and turned to her lover--for that Dan was, and a declared lover too--for an explanation.

From floods to fires, tornadoes to terrorist attacks, governments must respond to a variety of crises and meet reasonable standards of performance. What accounts for governments' effective responses to unfolding disasters? How should they organize and plan for significant emergencies? With fifteen adapted Kennedy School cases, students experience first-hand a series of large-scale emergencies and come away with a clear sense of the different types of disaster situations governments confront, with each type requiring different planning, resourcing, skill-building, leadership, and execution. Grappling with the details of flawed responses to the LA Riots or Hurricane Katrina, or with the success of the Incident Management System during the Pentagon fire on 9/11, students start to see the ways in which responders can improve capabilities and more adeptly navigate between technical or operational needs and political considerations.

My Overdue Book: Too many stories not to tell: spells out the varied episodes in the life of a man who spent decades working in Hollywood. He began as a little boy in Cincinnati impressed early on by the broadcasting magic of radio and then TV in the middle of twentieth century America. His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong excursion in "Fun City East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. Following his wanderings through the jungles of Vietnam, Bright's interactions with many of America's top public figures throughout his decades in radio and television come to life with intriguing stories that are personal, professional, positive and negative. It's life without a filter! Readers across generations will share and co-experience numerous real life feelings and emotions with writer Bright as his winding trail of life opens in front of them. book endorsement for peter bright; i always thought that peter bright and i had many things in common; we both grew up in ohio, we both had careers in the live event and variety side of television, and the few times we had times to talk i thought we shared a mutual philosophy toward the ups and downs of life. but it wasn't until i read his "overdue" book that i realized just what a rich and storied life peter has had and how much more deeply he had experienced the highs and lows, particularly during his years in the military, than i ever could have imagined. it really amazes me just how little we know about people we think we know, and just how much more we appreciate who they are when we are fortunate enough to have that background filled in by someone as articulate and able to express both facts and feelings as peter has in this book. when i started to read it, i thought all of those common events that we shared would be an interesting parallel track to my life and as such i would have a great frame of reference, but as i read on, i realized just what an amazing story peter has to tell and just how well he tells it. ken ehrlich, executive producer, the grammy awards

Out of their unknown fourth dimensional realm materializes a horde of White Invaders with power invincible. Ray Cummings is an American author of science fiction literature and comic books. Cummings is identified as one of the "founding fathers" of the science fiction genre. His most highly regarded fictional work was the novel The Girl in the Golden Atom, which was a consolidation of a short story by the same name. For this novel Cummings combined the idea of Fitz James O'Brien's The Diamond Lens with H. G. Wells's The Time Machine. During the 1940s, Cummings anonymously scripted comic book stories for Timely Comics, the predecessor to

Marvel Comics. He recycled the plot of *The Girl in the Golden Atom* for a two-part Captain America tale, *Princess of the Atom* (Captain America #25 & 26).

There are many challenges that children with Asperger's syndrome (AS) will have to overcome to reach their highest potential. In order to help them progress in constructive ways, those who care for and about these children often need to make changes too, sometimes difficult ones. Stuck provides a roadmap for understanding and addressing the complexities of AS, especially the presence of obsessive-compulsive behaviors (OCBs) that so frequently complicate basic functioning for both the child and others involved in their lives. The more knowledge and skills that caregivers can gain about these issues the better.

Whether you are a parent, an educator, or a healthcare professional that wants to increase their awareness about Asperger's syndrome and obsessive-compulsive behaviors, you can benefit from the useful concepts and practical, action-oriented activities presented throughout this book.

We've all been there; what seemed like the perfect man or woman at the time has left our heart in pieces.

The weeks following a breakup are usually consumed by unbearable grief, hours in bed and multiple cartons of Ben and Jerry's. Rather than keep up this vicious cycle following the demise of one's relationship, Cardon offers various ways to break the cycle and move on in "Breakups Blow!" In a humorous, honest and heartfelt manner, Cardon uses her personal experiences and heartbreaks to help readers move through their own breakup wounds. The author feels that she has done the legwork on what eases the pain of a broken heart, and she has included it in "Breakups Blow!" to help her fellow woman. After reviewing a journal she had kept over the years, Cardon began to notice a pattern to her relationships. "My patterns were astounding, and with each mind-numbing breakup, I learned through trial and error what works for moving forward and what keeps you stuck," Cardon says. "I wish I had a book like 'Breakups Blow!' when I was going through my breakups."
