The Great Depression

There are many theories about what caused the Great Depression, and the truth is that there is no simple answer. Rather, a perfect storm of events came together and changed the lives of millions of people. One of the first signs of this dark period was the stock market crash in October 1929. In the aftermath, the country fell into the Great Depression, the longest and most significant economic depression since the Civil War. Through most of the 1920s, the United States economy was growing, and the stock market had reached new highs.

People were making money in the stock market and having a grand time, so much so that few noticed the dark clouds forming on the horizon. By the end of the decade, industrial production had begun to decline, while unemployment was steadily rising. Stock market prices were plummeting from their peak in September 1929, and sales reached a crescendo in late October. On October 29, over sixteen million shares were traded in just one day. Billions of dollars were lost, with thousands of investors wiped out, and stock tickers were running hours behind because they were simply unequipped to manage this unprecedented amount of trading. The crash was not the only cause of the Great Depression, but it was certainly a symptom of a larger set of problems. Earlier in 1929, Herbert Hoover won the presidency under a wealth and prosperity platform. He made several unsuccessful attempts to prevent the economy from weakening during his administration. Despite his best efforts, banks continued to fail, and more Americans entered the ranks of unemployment. No one understood the extent of this economic downturn. But the election of 1932 brought Democrat Franklin D. Roosevelt into the White House by a

landslide. Roosevelt wasted no time, proposing extensive legislation called the New Deal to create new jobs, revitalize the banks, and give hope to the American people. Some of the New Deal programs were successful, while other fell short; but by the end of the 1930s, things had finally begun to improve. However, it would take the massive spending required during World War II for the economy to return to where it was a decade before. Since its original landmark publication in 1980, *A People's History of the United States* has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, *A People's History* is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States*, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new afterword by the author, this special

The Jungle is a 1906 novel written by the American journalist and novelist Upton Sinclair (1878-1968). Sinclair wrote the novel to portray the lives of immigrants in the United States in Chicago and similar industrialized cities. Many readers were most concerned with his exposure of health violations and unsanitary practices in the

American meatpacking industry during the early 20th century, based on an investigation he did for a socialist newspaper. The book depicts working class poverty, the lack of social supports, harsh and unpleasant living and working conditions, and a hopelessness among many workers. These elements are contrasted with the deeply rooted corruption of people in power. A review by the writer Jack London called it, "the Uncle Tom's Cabin of wage slavery." Sinclair was considered a muckraker, or journalist who exposed corruption in government and business. He first published the novel in serial form in 1905 in the Socialist newspaper, Appeal to Reason, between February 25, 1905, and November 4, 1905. In 1904, Sinclair had spent seven weeks gathering information while working incognito in the meatpacking plants of the Chicago stockyards for the newspaper. It was published as a book on February 26, 1906 by Doubleday and in a subscribers' edition.

Accounts from children, police, immigration officers, and the immigrants themselves come to life in a moving tale about the history of Ellis Island, enhanced with black-and-white photographs.

The little village of Rough and Ready in Upper Mahantongo Township, Schuylkill County, PA is set in the center of the Mahantongo Valley, famous for its Pennsylvania Dutch culture -- especially the painted furniture. This book focuses on the social history of the village, anchored by information from the 1850 census and Salem Reformed Church cemetery records. Out of Many A History of the American People Prentice Hall

"The creation of the United States of America is the greatest of all human adventures," begins Paul Johnson. "No other national story holds such tremendous lessons, for the American people themselves and for the rest of mankind." In his prize-winning classic, Johnson presents an in-depth portrait of American history from the first colonial settlements to the Clinton administration. This is the story of the men and women who shaped and led the nation and the ordinary people who collectively created its unique character. Littered with letters, diaries, and recorded conversations, it details the origins of their struggles for independence and nationhood, their heroic efforts and sacrifices to deal with the 'organic sin' of slavery and the preservation of the Union to its explosive economic growth and emergence as a world power. Johnson discusses contemporary topics such as the politics of racism, education, the power of the press, political correctness, the growth of litigation, and the influence of women throughout history. He sees Americans as a problem-solving people and the story of their country as "essentially one of difficulties being overcome by intelligence and skill, by faith and strength of purpose, by courage and persistence... Looking back on its past, and forward to its future, the auguries are that it will not disappoint humanity." Sometimes controversial and always provocative, A HISTORY OF THE AMERICAN PEOPLE is one author's challenging and unique interpretation of American history. Johnson's views of individuals, events, themes, and issues are original, critical, and in the

end admiring, for he is, above all, a strong believer in the history and the destiny of the American people.

"The best history of American whaling to come along in a generation." —Nathaniel Philbrick
The epic history of the "iron men in wooden boats" who built an industrial empire through the pursuit of whales. "To produce a mighty book, you must choose a mighty theme," Herman Melville proclaimed, and this absorbing history demonstrates that few things can capture the sheer danger and desperation of men on the deep sea as dramatically as whaling. Eric Jay Dolin begins his vivid narrative with Captain John Smith's botched whaling expedition to the New World in 1614. He then chronicles the rise of a burgeoning industry—from its

brutal struggles during the Revolutionary period to its golden age in the mid-1800s when a fleet of more than 700 ships hunted the seas and American whale oil lit the world, to its decline as the twentieth century dawned. This sweeping social and economic history provides rich and often fantastic accounts of the men themselves, who mutinied, murdered, rioted, deserted, drank, scrimshawed, and recorded their experiences in journals and memoirs. Containing a wealth of naturalistic detail on whales, Leviathan is the most original and stirring history of American whaling in many decades.

John Sutter, who left Switzerland to escape debtor's prison, came to California and built a giant land monopoly. Again, he became heavily in debt and died destitute. The entire Sacramento and San Joaquin valleys were inundated for 300 miles long and 20 miles wide by the flood of 1862. The cholera epidemic killed more than 1,000 citizens, including doctors and others who were caring for the patients. The Old City Cemetery is an exciting place. As docents are quick to remind, "People are dying to get in here." The docents know their job. It's almost as though they are trying to bring the city's cemeteries back to life. We love the epitaph on one headstone that simply reads: "See ya later."

Temples were important structures in any civilization and the ancient Egyptians were of no exception. How the temples were created, when they were created and who wanted them created hold important clues on the belief systems and religion dominated during that time. In this book, we'll be visiting the famous temples of Ancient Egypt. Grab a copy today!

#1 NEW YORK TIMES BESTSELLER • In this powerful new collection of oil paintings and stories, President George W. Bush spotlights the inspiring journeys of America's immigrants and the contributions they make to the life and prosperity of our nation. The issue of immigration stirs intense emotions today, as it has throughout much of American history. But what gets lost in the debates about policy are the stories of immigrants

themselves, the people who are drawn to America by its promise of economic opportunity and political and religious freedom—and who strengthen our nation in countless ways. In the tradition of Portraits of Courage, President Bush's #1 New York Times bestseller, Out of Many, One brings together forty-three full-color portraits of men and women who have immigrated to the United States, alongside stirring stories of the unique ways all of them are pursuing the American Dream. Featuring men and women from thirty-five countries and nearly every region of the world, Out of Many, One shows how hard work, strong values, dreams, and determination know no borders or boundaries and how immigrants embody values that are often viewed as distinctly American: optimism and gratitude, a willingness to strive and to risk, a deep sense of patriotism, and a spirit of self-reliance that runs deep in our immigrant heritage. In these pages, we meet a North Korean refugee fighting for human rights, a Dallas-based CEO who crossed the Rio Grande from Mexico at age seventeen, and a NASA engineer who as a girl in Nigeria dreamed of coming to America, along with notable figures from business, the military, sports, and entertainment.

President Bush captures their faces and stories in striking detail, bringing depth to our understanding of who immigrants are, the challenges they face on their paths to citizenship, and the lessons they can teach us about our country's character. As the stories unfold in this vibrant book, readers will gain a better appreciation for the humanity behind one of our most pressing policy issues and the countless ways in which America, through its tradition of welcoming newcomers, has been strengthened by those who have come here in search of a better life.
