As significant current events unfold all around us and voices are heard everywhere, saying "look here" and "look there", it is important that we keep our feet firmly grounded on the Word of God. Outside God's Word there is no stability and it is easy to be alarmed or sidetracked by spectacular forecasts that have very little substance to them. Our primary task as Christians is to know what God's Word says about the last days and to refuse any information that may be hearsay and which cannot be reconciled with the Scriptures. Anyone could write a book about last things, and many do, but it's wise to take much of what is written with a pinch of salt. However, when, as in the case of Revelation, the author is God Himself, it is necessary that the facts be well affirmed. And in the opening verses John takes pains to impress upon his readers the accuracy and reliability of what he is about to write. The information did not originate with him. It came from God the Father to God the Son and was then communicated to John by an angel. Although our English Bibles record the title of this book as "The Revelation of John", it is not about John, nor his revelation. It is about Jesus Christ in His role as ruler, conqueror and controller of all things, spiritual and temporal. When Jesus said to His disciples, "All power is given unto me in Heaven and on earth" that is precisely what He meant, namely, ALL power, total control over all things. My prayer is that this commentary will help to clarify the immense scope of this book of Revelation to the minds of those who read it. In this book, Robert Caper provides the reader with an introduction to psychoanalysis focusing explicitly on whether psychoanalysis is part of the sciences, and if not, where it belongs. Many psychoanalysts, beginning with Freud, have considered their discipline a science. In this book, Caper examines this claim and investigates the relationship of theory to observation in both philosophy and the experimental sciences and explores how these observations differ from those made in psychoanalytic interpretation. Building Out into the Dark also explores topics including: the origins of psychoanalysis in the art of medicine the therapeutic effect of psychoanalysis the archaic superego psychoanalysis with the individual and groups what makes psychoanalytic work unique. Building Out into the Dark offers a thoughtful consideration of the nature of psychoanalytic knowledge and how it is gained. The book's accessible and concise style makes it a useful introductory resource for students studying psychoanalysis, for psychotherapists who are curious about the distinction between psychoanalysis and other forms of therapy as well as those interested in placing psychoanalysis in the context of current cultural and intellectual developments.

Steve Rasnic Tem once said his writing was filtered through "a different lens to view the world." With a style all his own, Tem has galvanized and thrilled fans of weird fiction worldwide. His efforts have earned him the Bram Stoker, World Fantasy and British Fantasy Awards. His métier is the monstrous secret, the unsettling darkness hidden within all of us. "Bedtime Story" opens with a line that defines Tem's style: "I don't know why bad things happen. There's never a good reason. They just do." The story introduces us to a nightmare conjured from the mind of a child, preparing to victimize her own father. "The Unmasking" takes us into the tortured psyche of a horribly deformed recluse obsessed with the intricacies of human skin. "Outside," one of several homages to the great H.P. Lovecraft, melds Tem's uniquely poetic style with the cosmic horror created by that twisted gentleman from Providence. "The Masque of Edgar Allan Poe" focuses on Tem's

fondness for mask imagery, and how the veneer we wear on the surface can become immobile, consuming our souls. "The Doll Thief" is a deeply disturbing exercise in pathos, perversion and psychosis. In "Pulled Down to Sleep," a man fights to remain awake, knowing that sleep will doom him to a life of unspeakable nightmares. "Worms" is a frightening tale of vengeance that will literally leave your skin crawling. With "Mother Hag," Tem gives us a "grim" fairy tale about monstrous motherly love, courtesy of a grotesque, carnivorous witch.

My goal with this book is to help anyone trying to find their way through my situation. Miracles do happen and I would like to think I am the living proof.

A Trish Maguire Mystery

A Memoir

Singing in the Dark

Out of the Dark

An eight-year-old boy comes running out of the dark to find barrister Trish Maguire one wet Sunday night. Just before he can reach her, he's knocked over by a skidding car. Fighting to save his life, the rescue team finds Trish's name and address sewn into the boy's clothes. The police are convinced that he must be her son—but Trish knows he can't be. Is he connected with one of her clients? Could he be a blood relation? And who has sent him to Trish? Recovering from a miscarriage, about to go to court with a career-changing commercial case, and missing her partner, George, who is 5,000 miles away, the last thing Trish wants is responsibility for a lost boy. But there is no one else. Her search for the boy's identity takes her to a brutal inner-city housing project, where she has to confront not only the reality of life for the poor and destitute, but also many of her own fears. News of a particularly brutal murder reaches her, and within hours she learns that her erratic father is the chief suspect. It will take all her resolution and integrity to pick her way through this maze. The gulfs between rich and poor—and between the heroically honest and those for whom life and the law are always negotiable—rip off the last of Trish's self-protective blinders. There are choices to be made and lives to be saved. *Out of the Dark* is a touching and gripping novel that looks unflinchingly at crime's most devastating consequences. From the comic genius behind *Curb Your Enthusiasm*—a play with "a perfect second-act twist, and a solid last-minute kicker" (*Vulture*). *Fish in the Dark* marked Seinfeld co-creator Larry David's playwriting debut, his Broadway debut—and his first time acting on stage since eighth grade. David starred as Norman Drexel, a man in his fifties who is average in most respects, except for his hyperactive libido. As Norman, his more successful brother Arthur, their elderly mother, and a host of other characters try to navigate the death of a loved one, old acquaintances and unsettled arguments resurface—with hilarious consequences.

A *New York Times* Bestseller "A smart, edge-of-your-seat story with plot twists you'll never see coming. Stacy Willingham's debut will keep you turning pages long past your bedtime." —Karin Slaughter When Chloe Davis was twelve, six teenage girls went missing in her small Louisiana town. By the end of the summer, her own father had confessed to the crimes and was put away for life, leaving Chloe and the rest of her family to grapple with the truth and try to move forward while dealing with the aftermath. Now twenty years later, Chloe is a psychologist in Baton Rouge and getting ready for her wedding. While she finally has a fragile grasp on the happiness she's worked so hard to achieve, she sometimes feels as out of control of her own life as the troubled teens who are her patients. So when a local teenage girl goes missing, and then another, that terrifying summer comes crashing back. Is she paranoid, seeing parallels from her past that aren't actually there, or for the second time in her life, is Chloe about to unmask a killer? From debut author Stacy Willingham comes a masterfully done, lyrical thriller, certain to be the launch of an amazing career. *A Flicker in the Dark* is eerily compelling to the very last page.

A boy on the run. A girl determined to find him. A compelling fantasy looks at issues of privilege,

protest, and justice. All light in Chattana is created by one man — the Governor, who appeared after the Great Fire to bring peace and order to the city. For Pong, who was born in Namwon Prison, the magical lights represent freedom, and he dreams of the day he will be able to walk among them. But when Pong escapes from prison, he realizes that the world outside is no fairer than the one behind bars. The wealthy dine and dance under bright orb light, while the poor toil away in darkness. Worst of all, Pong's prison tattoo marks him as a fugitive who can never be truly free. Nok, the prison warden's perfect daughter, is bent on tracking Pong down and restoring her family's good name. But as Nok hunts Pong through the alleys and canals of Chattana, she uncovers secrets that make her question the truths she has always held dear. Set in a Thai-inspired fantasy world, Christina Soontornvat's twist on Victor Hugo's *Les Misérables* is a dazzling, fast-paced adventure that explores the difference between law and justice — and asks whether one child can shine a light in the dark.

OUT OF THE DARK INTO THE LIGHT

When nighttime arrives, the nocturnal animals of the woods come out and experience the night, including wolves, bats, owls, and hedgehogs. Far too often, life's challenges and questions cause people to fight feelings of doubt and despair, as they search endlessly for hope. In *Singing in the Dark*, Ginny Owens introduces the reader to powerful ways of drawing closer to God and how the elements of music, prayer, and lament offer rich, vibrant, and joyful communion with Him, especially on the darkest days. Ginny has gained a unique life perspective, as she has lived without sight since age three. She brings rich, biblical teaching that will encourage readers and compel them to dig deep into the beautiful songs, prayers, and poetry of Scripture—the same words through which the people of the Bible flourished in impossible circumstances. *Singing in the Dark* includes reflection and journaling prompts at the end of each chapter.

My Journey Through the Shadows to Find God's Joy

The launch of a new science fiction adventure series--by the New York Times-best selling author of the Safehold series and the Honor Harrington series The Galactic Hegemony has been around a long time, and it likes stability--the kind of stability that member species like the aggressive, carnivorous Shongairi tend to disturb. So when the Hegemony Survey Force encountered a world whose so-called "sentients"--"humans," they called themselves--were almost as bad as the Shongairi themselves, it seemed reasonable to use the Shongairi to neutralize them before they could become a second threat to galactic peace. And if the Shongairi took a few knocks in the process, all the better. Now, Earth is conquered. The Shongairi have arrived in force, and humanity's cities lie in radioactive ruins. In mere minutes, more than half the human race has died. Master Sergeant Stephen Buchevsky, who thought he was being rotated home from his latest tour in Afghanistan, finds himself instead prowling the back country of the Balkans, dodging alien patrols and trying to organize scattered survivors without getting killed. And in the southeastern US, firearms instructor and former Marine Dave Dvorak finds himself at the center of a growing network of resistance--putting his extended family at lethal risk, but what else can you do? On the face of it, Buchevsky's and Dvorak's chances look bleak, as do prospects for the rest of the surviving human race. But it may well be that Shongairi and the Hegemony alike have underestimated the inhabitants of that strange planet called Earth... in David Weber's Out of the Dark. Theory and Observation in Science and Psychoanalysis

Grammy award-winning music artist Mandisa tells an inspiring story of peaks and valleys, trials and joys, wins and losses. Through her gripping narrative, she shows that our choice to trust God can not only overcome our need to understand why bad things happen, but can help us to embrace a life of joy and freedom. Out of the Dark is Mandisa's exploration of the journey she's taken from when she first became a Christian, to her rise as an American Idol finalist and receiving multiple Grammy and Dove Award nominations, as well as the dark and challenging times she experienced along the way. She writes personally and openly about the hardships she has faced and the way she felt betrayed by God, but also about how God has brought her out of the valley into His glorious light. Along the way, she also shares her struggles in learning how to love her body and care for her health. Just as Mandisa's Grammy-award winning song "Overcomer" was topping the Contemporary Christian Music charts, her friend for whom "Overcomer" had been written passed away. After losing this close friend to cancer, despite years of prayers on her behalf, Mandisa descended into depression, isolating herself and turning to her familiar friend, food, for comfort. Throughout Out of the Dark, Mandisa uses her experiences to address the following themes: The pain of grief and loss Surviving abuse Embracing true beauty and a healthy body image Coping with severe depression Healthy--and disordered--eating The role of faith in hope and healing Letting go of shame Following your unique calling and passion How friends and family are crucial for healing The challenges of 2020, including protecting mental and emotional health while navigating a public health crisis; quarantining; and coping with racial injustice Trusting God daily for hope and healing In the darkness, Mandisa knew God was there -- but she wondered if she could trust Him. Even at her lowest point where she saw no human way forward, God was at work, powerfully redeeming her story and calling her out of the dark. Mandisa tells her story with warmth and vulnerability, challenging us all to focus on God's purpose for our lives, surround ourselves with friends who will fight for us, and face life's challenges with courage and faith. If you've ever found yourself in a dark place as the result of grief, depression, or loss, Mandisa's story will reassure you that even when you're walking through dark valleys, God can and will lead you on a path to joy and hope.

Dr. Sam Keo is now an honored clinical psychologist working for the county of Los Angeles, and his story is one of triumph over adversity but not without a cost. The third of eleven children, Sam was in the eleventh grade when the Khmer Rouge took over Cambodia. They abolished schools and sent the children to work on farms. Those they deemed a threat were tortured and starved. Sam

was sent to these farms, where he was beaten, tortured, and left for dead on numerous occasions. His father and sister were killed by the Communists, and four of his younger brothers died of starvation and disease before they reached the age of ten. But Sam refused to die; he eventually made the journey to what he hoped would be a better life in America. Like many of his fellow Cambodians, Sam struggles with the impact of posttraumatic stress disorder, or PTSD. His own unique experiences, from trauma to success, have made it easier for him to empathize with others facing similar stresses. There are uncalculated challenges in the underserved Asian population, especially among the former refugees from Southeast Asia, such as the Cambodian, Hmong, Laotian, and Vietnamese people. He was told that America was the land of opportunity, but that was a dream the young immigrant found difficult to pursue. His Cambodian caseworker told him that he would never amount to anything, but he refused to let his dream die either. Now, he shares his story.

"Out There in the Dark is an old school Hollywood blockbuster. . . . A terrific, grab-you-by-the-throat movieland epic." ---Jerry Stahl, author of Permanent Midnight Since leaving Berlin, the proud, distinguished émigré director Dieter Seife has had to content himself cranking out B movies for Superior Pictures in Hollywood during World War II. Finally, Superior's founder, Arthur Lustig, gives Seife the chance to prove himself on a lavish, three-hankie "woman's picture" titled The Big Betrayal. Set to star is Harley Hayden, the young (and 4-F) actor who's engaged to Lustig's daughter. Though the town's biggest names are in uniform, Seife is convinced he can find a better male lead for his movie. Hayden counters by hiring a disgraced ex-cop named Roarke to look into Seife's private life---does the secretive German have something to hide? What Roarke uncovers is dangerous, disturbing . . . and, maybe, a very different mystery than it seems. With its atmosphere of lockstep patriotism and rampant paranoia, Wesley Strick's Out There in the Dark provocatively speaks to our own time even as it brings to life the sordid side of 1940's Hollywood.

In this long awaited follow-up to the best-selling An Altar in the World, Barbara Brown Taylor explores ' the treasures of darkness ' that the Bible speaks about. What can we learn about the ways of God when we cannot see the way ahead, are lost, alone, frightened, not in control or when the world around us seems to have descended into darkness?

hope. Evan Smoak returns in Gregg Hurwitz's #1 international bestselling Orphan X series in Out of the Dark. Taken from a group home at age twelve, Evan Smoak was raised and trained as part of the Orphan Program, an off-the-books operation designed to create deniable intelligence assets—i.e. assassins. Evan was Orphan X. He broke with the Program, using everything he learned to disappear and reinvent himself as the Nowhere Man, a man who helps the truly desperate when no one else can. But now Evan's past is catching up to him. Someone at the very highest level of government has been trying to eliminate every trace of the Orphan Program by killing all the remaining Orphans and their trainers. After Evan's mentor and the only father he ever knew was killed, he decided to strike back. His target is the man who started the Program and who is now the most heavily guarded person in the world: the President of the United States. But President Bennett knows that Orphan X is after him and, using weapons of his own, he's decided to counter-attack. Bennett activates the one man who has the skills and experience to track down and take out Orphan X—the first recruit of the Program, Orphan A. With Evan devoting all his skills, resources, and intelligence to find a way through the layers of security that surround the President, suddenly he also has to protect himself against the deadliest of opponents. It's Orphan vs. Orphan with the future of the country—even the world—on the line.
