The United States is in the midst of the largest military demobilization in its history. This is leading to an increase in

Read Free Outpatient Behavioral Health Bh Request

Aba Aetna

the demand for mental health clinicians who can provide services to hundreds of thousands of military veterans and members of the military. Nearly two million

Read Free Outpatient Behavioral Health Bh Request

Aba Aetna

Americans have been deployed to the wars in the Middle East, and thousands of them have been deeply affected, either psychologically, physically, or both.

Read Free Outpatient Behavioral Health Bh Request

Aba Aetna

Projections suggest that 300,000 are returning with symptoms of PTSD or major Depression; 320,000 have been exposed to probable Traumatic Brain Injuries; and hundreds of thousands

Read Free Outpatient Behavioral Health Bh Request

Aba Aetna

are dealing with psychological effects of physical injuries. Other veterans and members of the military without injuries will seek treatment to help them

Read Free Outpatient Behavioral Health Bh Request

Aba Aetna

with the psychological impact of serving in the military, being deployed, or transitioning and reintegrating back into the civilian world. As an example, hundreds of

Read Free Outpatient Behavioral Health Bh Request

Aba Aetna

thousands of service members are also leaving the armed forces earlier than they anticipated and will need to quickly adjust to life as civilians after assuming

Read Free Outpatient Behavioral Health Bh Request

Aba Aetna

that they would have many more years in the military. Many will be leaving the military because of demobilizations and downsizing due to budget cuts. Current

Read Free Outpatient Behavioral Health Bh Request

Aba Aetna

proposed cuts will shrink the military force to the same size it was in 1940. The Pew Center reports that 44% of veterans from the current wars are describing their

Read Free Outpatient Behavioral Health Bh Request

Aba Aetna

readjustment to civilian life as "difficult," and many of them are and will be turning to civilian mental health and primary care clinicians for assistance. The Handbook

Crisis Services are a continuum of

Read Free Outpatient Behavioral Health Bh Request Aba Aetna

services that are provided to individuals experiencing a psychiatric emergency. The primary goal of these services is to stabilize and improve psychological symptoms of distress and to engage individuals in an appropriate treatment service to address the problem that led to the

Read Free Outpatient Behavioral Health Bh Request Aba Aetna

crisis. Core crisis services include:
23-hour crisis stabilization/observation
beds, short term crisis residential
services and crisis stabilization, mobile
crisis services, 24/7 crisis hotlines,
warm lines, psychiatric advance
directive statements, and peer crisis
services. The research base on the

Read Free Outpatient Behavioral Health Bh Request Aba Aetna

effectiveness of crisis services is growing. There is evidence that crisis stabilization, community-based residential crisis care, and mobile crisis services can divert individuals from unnecessary hospitalizations and ensure the least restrictive treatment option is available to people

Read Free Outpatient Behavioral Health Bh Request Aba Aetna

experiencing behavioral health crises. Each year, more than 33 million Americans receive health care for mental or substance-use conditions, or both. Together, mental and substance-use illnesses are the leading cause of death and disability for women, the highest for men ages 15-44, and the

Read Free Outpatient Behavioral Health Bh Request Aba Aetna

second highest for all men. Effective treatments exist, but services are frequently fragmented and, as with general health care, there are barriers that prevent many from receiving these treatments as designed or at all. The consequences of this are seriousâ€"for these individuals and
