Featuring more than 100 pages of never-before-seen material! The Harvey Award—nominated sensation that rocked the comics world—and left readers hanging in sheer suspense—is now a full-length graphic novel that finally carries the stunning Elk’s Run saga to its shocking conclusion. The town of Elk’s Ridge, West Virginia, was built on a dream: The dream of war-scarred Vietnam veterans to live in peace and harmony, in a place untouched by violence, crime, corruption, or greed. A living Norman Rockwell painting, governed by the most basic values and free of all things considered undesirable by its founders. It was supposed to be paradise. And for a while, it was. Over the years, some in Elk’s Ridge have grown restless. They fear their refuge has become a prison . . . or a tomb. And they yearn to do the forbidden: escape. But when one desperate bid for freedom ends in a tragic accident, a heinous act of mob justice suddenly tears the idyllic mask from this promised land and the evil its residents sought to keep out blooms from within. Now, as a deadly chain reaction of events threatens the future of Elk’s Ridge, its elders gird for battle against the real world. And a group of terrified teens prepare to make their own stand—against the people they once trusted and the only life they’ve ever known. Because there’s nothing left to do but fight or die. A chillingly lyrical tale, rendered in starkly beautiful, visceral artwork, Elk’s Run is an unforgettable and unrelentingly powerful graphic novel event not to be missed. With an introduction by Charlie Houston, author of Already Dead From the Trade Paperback edition.

Stephanie Beacham is one of the leading actors of her generation. In the course of a career which spans over 40 years, the RADA trained actress has treaded the boards of some of the most prestigious theatres in the world from the National Theatre to Broadway, made countless appearances on television in much loved series such as Tenko, Connie, Bad Girls and Coronation Street and starred in feature films alongside some of the greatest actors of their time such as Marlon Brando and Ava Gardner. But it was in her incarnation as the smouldering super-bitch Sable Colby in the long-running blockbuster soap of eighties Dynasty that Stephanie will perhaps be best remembered. It was a role that would bring the celebrated beauty both worldwide fame and awards and would earn her a fortune. But Stephanie's life has not always been glamour and glitz – for all the highs, she has had her low moments too as she reveals in this extraordinarily candid but heart-warming memoir. Born with just 40% hearing the young Stephanie would have to overcome her deafness to face the world and make it in a profession where hearing meant everything. She would struggle as a young actress, would go through the pain and the heartache of a divorce, raise her children as a single-parent, as well as overcoming a health scare which nearly killed her in her mid-thirties. And it would be this near death experience that would send Stephanie on what she describes as a 'spiritual adventure' to arm her with both the tools and knowledge she believes she needed to propel her through the rest of her life.

Multidimensional scaling (MDS) is a technique for the analysis of similarity or dissimilarity data on a set of objects. Such data may be intercorrelations of test items, ratings of similarity on political candidates, or trade indices for a set of countries. MDS attempts to model such data as distances among points in a geometric space. The main reason for doing this is that one wants a graphical display of the structure of the data, one that is much easier to understand than an array of numbers and, moreover, one that displays the essential information in the data, smoothing out noise. There are numerous varieties of MDS. Some facets for distinguishing among them are the particular type of geometry into which one wants to map the data, the mapping function, the algorithms used to find an optimal data representation, the treatment of statistical error in the models, or the possibility to represent not just one but several similarity matrices at the same time. Other facets relate to the different purposes for which MDS has been used, to various ways of looking at or "interpreting" an MDS representation, or to differences in the data required for the particular models. In this book, we give a fairly comprehensive presentation of MDS. For the reader with applied interests only, the first six chapters of Part I should be sufficient. They explain the basic notions of ordinary MDS, with an emphasis on how MDS can be helpful in answering substantive questions.

From the wickedly funny and feminist creator and host of the "Throwing Shade" podcast, a collection of hilarious personal essays and political commentary perfect for fans of Lindy West and Roxane Gay. Since women earned the right to vote a little under one hundred years ago, our progress hasn't been the Olympic sprint toward gender equality first wave feminists hoped for, but more of a slow, elderly mall walk (with frequent stops to Cinnabon) over the four hundred million hurdles we still face. Some of these obstacles are obvious-unequal pay, under-representation in government, reproductive restrictions, lack of floor-length mirrors in hotel rooms. But a lot of them are harder to identify. They're the white noise of oppression that we've accepted as lady business as usual, and the patriarchy wants to keep it that way. Erin Gibson has a singular goal-to create a utopian future where women are recognized as humans. In FEMINASTY-titled after her nickname on the hit podcast "Throwing Shade"-she has written a collection of make-you-laugh-until-you-cry essays that expose the hidden rules that make life as a woman unnecessarily hard and deconstructs them in a way that's bold, provocative and hilarious. Whether it's shaming women for having their periods, allowing them into STEM fields but never treating them like they truly belong, or dictating strict rules for how they should dress in every situation, Erin breaks down the organized chaos of old fashioned sexism, intentional and otherwise, that systemically keeps women down.
