This guide was developed by a PADI Open Water Scuba Instructor and Master Diver Trainer for use in training police divers for the Washington State Department of Emergency Services. This course and the Guide was designed to be used by qualified instructors in conjunction with the training textbook "Emergency Service Diver - A Training Manual for Police & Rescue Divers", published by the California Investigative Academy. The Instructor's Guide book provides detailed information on course standards, requirements & prerequisites, equipment requirements, certification requirements, course schedule, academic modules, open water training modules, outlines, written test for students, and detailed appendix. Instructions and assistance are available separately for PADI Instructors wishing to obtain a Distinctive Specialty Instructor's rating in underwater crime scene investigation. With this rating, a qualified PADI instructor can certify students in this specialty.

'Tales from the Desert' is the compelling, true story of a British expatriate who journeyed to Saudi Arabia as a young man to seek his fortune for a couple of years and ended up staying for twenty-five. The collection of real-life tales are amusing, mystifying, captivating and at times downright terrifying. Journeying to the mystical deserts of Arabia in the 1970s, when the world economy revolved around the price of oil and the concept of Islamic fundamentalism was barely known, the author takes the reader through a joyride of experiences including the unfolding drama of the first Gulf War and a 'too close for

comfort' view of the uprising during the Arab Spring.

PADI Open Water Diver Manual

I learned to dive in the mid 70 s by reading a short book about diving. Then my brother told me to NOT hold my breath and swim. My first dive was a solo dive in a stone quarry in Indiana. The next few years I got formal training and worked through the ranks to instructor. I worked as a YMCA and PADI instructor in Florida for several years before going to the West coast to train instructors at PADI College. In the mid 80 s I was hired by Werner and Myra Kurn to work as the Director of Training at Ocean Enterprises in San Diego, and trained instructors at Ocean Enterprises in Guantanamo Bay Cuba. I worked as a PADI Instructor examiner for more than 20 years and have more than 5000 dives.

THE ROUGH GUIDE TO SOUTHEAST ASIA is the essential handbook to this stunning region, covering nine countries plus Hong Kong and Macau. Features include: Full-colour section introducing Southeast Asia's highlights. Unrivalled accounts of every destination, from vibrant cities to the remotest beaches. Lively reviews of the best places to stay, eat, drink and party. Detailed coverage of a wealth of activities, such as the sunrise climb up Mount Bromo, travelling along the Mekong River and diving in the Philippines. Dependable transport details, including border crossings and island ferries. Maps and plans for every region.

Well-travelled divers all acknowledge that the best diving in the world is found in the warm waters of tropical Bali. Bali is located in the famous "coral triangle," the center of the world's tropical marine diversity, and the island is blessed with a stunning variety of dive sites—shipwrecks, quiet black sand bays, crystalline hard coral reefs over bright white sand, lava ridges draped in gorgonians and soft coral, and current-swept pinnacles, swirling with fish. Diving Bali is a comprehensive diving guide covering all of Bali and it's surrounding reefs. It presents in great detail some of the best dive sites in the tropical western Pacific. Our seasoned diver-authors have an aggregate half-century of experience exploring these waters, and each site receives thorough coverage, including detailed maps, color photos, and a full description of access, conditions, and facilities. This Bali diving guide features:
Practicalities: Detailed travel information for every budget, including accommodations, transportation, prices, seasons, and dive operators. **Information:** Local history, diving lore, site conditions, and more than 50 maps. **Photography:** More than 100 color photographs by top photographers.

This new 2nd edition of Bradt's Croatia: Istria, with Rijeka and the Slovenian Adriatic has been fully updated and remains the only full-length guide to the region including background and practical information. Istria has some of Croatia's most famous sites, including Pula's Roman amphitheatre, UNESCO-protected Byzantine mosaics in Porec, picturesque medieval hilltowns and frescoes, and the Brijuni Islands National Park, home to Tito's summer residence. This guide also includes the transport hub and gateway city of Rijeka in the neighbouring Kvarner region, which is set to become European Capital of Culture in 2020. Istria makes a great base to explore the nearby Capodistria region of the Slovenian coast and Karst areas, including beautiful coastal towns, Lipizzaner horses and UNESCO-listed caves, all of which are given expanded coverage in this new edition. Also new is increased coverage of the Parenzana cycling and hiking route. With detailed sections on trekking, cycling and diving, plus information on windsurfing, paragliding, wreck diving (including sites such as the Coriolanus and the Baron Gautsch) and sailing, Bradt's Croatia: Istria, with Rijeka and the Slovenian Adriatic is ideal for adventurous people of all ages and on all budgets, who are curious about this well-heeled part of the former Yugoslavia. There is also a comprehensive wildlife section. Croatia is renowned for its cuisine (and particularly its truffles) and there is plenty of pampering on offer, too, with some excellent luxury and boutique hotels and restaurants, as well as cheap spas and treatments compared to the rest of mainland Europe. Festivals, music, travelling with children, buying and maintaining property in Croatia, dinosaur tracks and ancient history are all included, as are inland areas which often receive comparatively little attention (and with the exception of Motovun see far fewer visitors than the coast).

This guide was developed by a PADI Master Instructor for use in training police divers for the Washington State Criminal Justice Training Commission. A PADI Distinctive Specialty Certification was authorized for students completing the course and a Specialty Instructor's Certification can be obtained from PADI using the Instructor's Certification Guide available from the California Investigative Academy. This course and the Guide was designed to be used in conjunction with the Underwater Crime Scene Investigation textbook, which was the first book of its kind to provide comprehensive training open water course instruction. The companion textbook has also been used by law enforcement divers throughout the U.S. and the world. The Instructor's Guide book provides detailed information on course standards, requirements & prerequisites, equipment requirements, certification requirements, course schedule, academic modules, open water training modules, outlines, written test & the entire text of the course textbook "Underwater Crime Scene Investigation" by Eric Tackett. Instructions and assistance are available separately for PADI Instructors wishing to obtain a Distinctive Specialty Instructor's rating in

underwater crime scene investigation. With this rating, a qualified PADI instructor can certify students in this specialty.

If you are planning to take your Rescue Diver course in a few weeks, then you need a study guide that will help you prepare for your certification and get ready for the next stage in your diving career. This Rescue Diver Guide will help you prepare and includes skills needed to pass the course, tips from an experienced instructor, updates for COVID and 100 practise questions. Our writing team includes an experienced PADI Diving Instructor and our study guide features 100 practise questions and answers.

If you are planning to take your Open Water Diver course in a few weeks, then you need a study guide that will help you prepare for the final test with practise questions. We include things to know before you take the test, tips from an experienced instructor, tricks for taking the exam, Recreational Dive Planner information and 57 practise questions. During the test you need to answer questions about the basic principles of scuba diving, which shows that you know how to plan dives, choose the right scuba gear and understand underwater signals and diving procedures. This book is written by an experienced instructor to help you make sure you are adequately prepared and ready! It was updated in 2022 to include Covid related questions.

Moving to Whidbey Island, surrounded by the Pacific Ocean, I met Monte Merserve and this is where the first chapter begins. Since then I still teach ARC Swim Lessons to others, and became a PADI Swim Instructor teaching scuba diving for fifteen years . Since then Ive been Scuba Diving around the world and meeting new friends in the World of waters. In this book I share stories of these underwater encounters both exciting and exhilarating. I also provided photos of these events, including my dive of a lifetime adventure in Antartica. ~ Virginia Huerlin Long Cross (PADI #3271) ~

The Rough Guides series contain full color photos, three maps in one, and are waterproof and tearproof. They contain thousands of keyed listings and brightnew graphics.

'New Frontiers in Marine Tourism' is the first book of this kind to address and analyse this burgeoning tourism sector comprehensively. By integrating aspects such as the

sustainability, safety, education, experiences and management of diving tourism the text highlights a variety of pressing topics related to the management of diving tourism, including: * different types of diving locations and their particular characteristics and the geographical distribution of dive locations * the growth and economic significance of diving tourism in destinations worldwide * different motivations and typologies of diving tourists, their learning behaviour, knowledge of marine environments, and their interaction with flora and fauna. * diver satisfaction, attitudes and preferences, education and interpretation, and compliance with regulations * environmental impacts, and aspects of risk and health.
