For several centuries Cape Town has accommodated a great variety of musical genres which have usually been associated with specific population groups living in and around the city. Musical styles and genres produced in Cape Town have therefore been assigned an "identity" which is first and foremost social. This volume tries to question the relationship established between musical styles and genres, and social - in this case pseudo-racial - identities. In *Sounding the Cape*, Denis-Constant Martin recomposes and examines through the theoretical prism of creolisation the history of music in Cape Town, deploying analytical tools borrowed from the most recent studies of identity configurations. He demonstrates that musical creation in the Mother City, and in South Africa, has always been nurtured by contacts, exchanges and innovations whatever the efforts made by racist powers to separate and divide people according to their origin. Musicians interviewed at the dawn of the 21st century confirm that mixture and blending characterise all Cape Town's musics. They also emphasise the importance of a rhythmic pattern particular to Cape Town, the ghoema beat, whose origins are obviously mixed. The study of music demonstrates that the history of Cape Town, and of South Africa as a whole, undeniably fostered creole

societies. Yet, twenty years after the collapse of apartheid, these societies are still divided along lines that combine economic factors and "racial" categorisations. Martin concludes that, were music given a greater importance in educational and cultural policies, it could contribute to fighting these divisions and promote the notion of a nation that, in spite of the violence of racism and apartheid, has managed to invent a unique common culture.

Nonfiction. "This is not just the biography of a talented jazz musician, but a fascinating chronicle of the trials, tribulations, and triumphs of a few committed individuals who tried to create beauty in a land of hostility and segregation. Chris McGregor understood that music is more than an organization of sound, it is a measure of human relationships, and can be used to inspire and exhilarate as well as heal. Maxine McGregor's vivid descriptions of their world, and the many passages in Chris's own words, give us insight into the mind of a man for whom music was as natural and necessary as the air we breathe"--Art Lange (co-editor of *Moment's Notice: Jazz in Poetry and Prose*).

Christiaan Barnard:

The La Traviata Affair

Helsinki in Early Twentieth-Century Literature analyses experiences of the Finnish capital in prose fiction published in Finnish in the period 1890 – 1940. It examines the relationships that are formed between Helsinki and fictional characters, focusing, especially, on the way in which urban public space is experienced. Particular attention is given to the description of movement through urban space. The primary material consists of a selection of more than sixty novels, collections of short stories and individual short stories. This study draws on two sets of theoretical frameworks: on the one hand, the expanding field of literary studies of the city, and on the other hand, concepts provided by humanistic and critical geography, as well as by urban studies. This study is the first monograph to examine Helsinki in literature written in Finnish. It shows that rich descriptions of urban life have formed an integral part of Finnish literature from the late nineteenth century onward. Around the turn of the twentieth century, literary Helsinki was approached from a variety of generic and thematic perspectives which were in close dialogue with international contemporary traditions and age-old images of the city, and defined by events typical of Helsinki's own history. Helsinki literature of the 1920s and 1930s further developed the defining traits that took form around the turn of the century, adding a number of new thematic and stylistic nuances. The city experience was increasingly aestheticized and internalized. As the centre of the city became less prominent in literature, the margins of the city and specific socially defined neighbourhoods gained in importance. Many of the central characteristics of how Helsinki is experienced in the literature published during this

period remain part of the ongoing discourse on literary Helsinki: Helsinki as a city of leisure and light, inviting dreamy wanderings; the experience of a city divided along the fault lines of gender, class and language; the city as a disorientating and paralyzing cesspit of vice; the city as an *imago mundi*, symbolic of the body politic; the city of everyday and often very mundane experiences, and the city that invites a profound sense of attachment – an environment onto which characters project their innermost sentiments.

This book collects eighteen previously unpublished essays on the riddle--a genre of discourse found in virtually every human culture. Hasan-Rokem and Shulman have drawn these essays from a variety of cultural perspectives and disciplines; linguists, anthropologists, folklorists, and religion and literature scholars consider riddling practices in Hebrew, Finnish, Indian languages, Chinese, and classical Greek. The authors seek to understand the peculiar expressive power of the riddle, and the cultural logic of its particular uses; they scrutinize the riddle's logical structure and linguistic strategies, as well as its affinity to neighboring genres such as enigmas, puzzles, oracular prophecy, proverbs, and dreams. In this way, they begin to answer how riddles relate to the conceptual structures of a particular culture, and how they come to represent a culture's cosmology or cognitive map of the world. More importantly, these essays reveal the human need for symbolic ordering--riddles being one such form of cultural ritual.

Introduction to Business Information Systems

A farmhouse is being reproduced a dozen times, with slight variations, throughout a valley. Three small graves have been dug in the front garden, the middle one lying empty. A woman in a wheelchair sorts through boxes while her husband clammers around the old demolished buildings, wondering where the animals have gone. A young woman - called 'the barren one' behind her back - dreams of love, while an ageing headmaster contemplates the end of his life. At the entrance to the long dirt driveway, a car appears and pauses - pointed towards the house like a silver bullet, ticking with heat. So begins The Dream House, Craig Higginson's riveting and unforgettable novel set in the Midlands of KwaZulu-Natal. Written with dark wit, a stark poetic style and

extraordinary tenderness, this is a story about the state of a nation and a deep meditation on memory, ageing, meaning, family, love and loss. This updated 2016 edition contains new content, with Craig Higginson exploring the background to The Dream House, his varied experiences in a farmhouse in KwaZulu-Natal and the subsequent and poignant motivations for this moving novel.

Literary Helsinki: a city of leisure and light, divided along the fault lines of gender, class and language; a dizzying and dazzling threshold of modernity; alienating, mesmerizing and endearing. This first monograph to examine experiences of Helsinki in literature written in Finnish shows that rich descriptions of urban life have formed an integral part of Finnish literature from the late nineteenth century onward. Based on an analysis of more than sixty novels and collections of short stories, it tells the naturally evolving story of how Helsinki was experienced in literature.

After describing the functions of the PC and the role of computers in local and global networks, the authors explain the fundamentals of data management, as well as the support of firms' functions and processes through information processing. The concepts utilized are deployed in a multitude of modern and integrated application

systems in manufacturing and service industries. These application examples make up the core of the book. Many application examples illustrate the methodologies addressed.

The Law of Contract in South Africa

A captivating account of an interracial jazz opera that took apartheid South Africa by storm and marked a turning point in the nation's cultural history.

Taking an inclusive approach to South African film history, this volume represents an ambitious attempt to analyze and place in appropriate sociopolitical context the aesthetic highlights of South African cinema from 1896 to the present. Thoroughly researched and fully documented by renowned film scholar Martin Botha, the book focuses on the many highly creative uses of cinematic form, style, and genre as set against South Africa's complex and often turbulent social and political landscape. Included are

more than two hundred illustrations and a look at many aspects of South African film history that haven't been previously documented.

The Surgeon Who Dared

Race, politics, and opera production during apartheid South Africa intersect in this historiographic work on the Eoan Group, a "coloured" cultural organization that performed opera in the Cape. *The La Traviata Affair* charts Eoan's opera activities from the group's inception in 1933 until the cessation of their productions by 1980. It explores larger questions of complicity, compromise, and compliance; of assimilation, appropriation, and race; and of "European art music" in situations of "non-European" dispossession and disenfranchisement. Performing under the auspices of apartheid, the group's unquestioned acceptance of and commitment to the art of opera could not redeem it from the entanglements that came with the political compromises it made. Uncovering a rich trove of primary source materials, Hilde Roos presents here for the first time the story of one of the premier cultural agencies of apartheid South Africa.

Set against political tumult, this psychological thriller explores the dilemmas faced by the 1960s generation of Afrikaners in South Africa. A disjointed chronology reveals the quandaries of Delport, the existentialist hero

and protagonist who has lived alone deep in the African bush for nine years in hopes of evading his past. Always fearful that his nemesis, the mysterious Ritter, is out to find and kill him, Delport begins having paranoid visions as he endures days of burning sun, nights of buzzing mosquitoes, and the constant sound of inexplicable drumming. Then, when someone does arrive? a woman named Malia Domingo? Delport can't escape the feeling that she might be connected to Ritter in some way.

I can tell the difference between who I am and a side effect. The Effect is a clinical romance. Two young volunteers, Tristan and Connie, agree to take part in a clinical drug trial. Succumbing to the gravitational pull of attraction and love, however, Tristan and Connie manage to throw the trial off-course, much to the frustration of the clinicians involved. This funny, moving and perhaps surprisingly human play explores questions of sanity, neurology and the limits of medicine, alongside ideas of fate, loyalty and the inevitability of physical attraction. Following on from the critical and commercial success of Enron, The Effect offers a vibrant theatrical exploration into the human brain via the heart.
