That's where 2005 Online Shopping Directory For Dummies comes in. The first part of the book covers buying from online auctions and ads and "Let the buyer beware" information, reminding you to check out the product or company, check shipping and handling fees, look for secure sites, and more. Then comes the fun part—a listing more than 1,500 selected sites. Get ready to browse—literally. This is more than a directory—it's a Cybershopper's dream, with: Sites grouped into 21 categories such as apparel, computers and electronics, babies and children, home and garden, health and beauty, food, malls and mega stores, travel, and more. Icons that rate each site by price, selection, service, convenience, and security A description of each site that includes the URL, company name, types of merchandise, and a paragraph about the e-tailer**
