

Papers About Life

A real Hollywood-style tell-all, this is the extremely candid and highly explosive autobiography of one of the movie industry's most talented and troubled young stars. At age ten, Tatum O'Neal became the youngest Oscar winner in history for her performance in the film classic Paper Moon. As the sidekick to her father, the flamboyant star and man-about-town Ryan O'Neal, she became a fixture at the most glamorous Hollywood parties and counted celebrities ranging from Cher to Stanley Kubrick among her childhood friends. Yet behind the glittering façade of Tatum's life lay heartbreak: abandonment, abuse, neglect, and drug addiction. She reveals the most intimate secrets of her dysfunctional relationships with her father, Ryan O'Neal, and stepmother, Farrah Fawcett, as well as her alcoholic mother, Joanna Moore, and ex-husband, tennis pro John McEnroe. After the collapse of her marriage and with no real family to turn to, Tatum succumbed to the demons of her past that would nearly kill her. Now she has emerged clean and sober, rediscovering herself as an actress, mother, and wonderfully vibrant woman in what she considers the prime of her life.

Beloved television star of Fair Go, Kevin Milne's bestselling memoir is funny, insightful, incisive, moving and all-round entertaining. He talks of his long television career - 40 years - including 25 years of the long-running, top-rating Fair Go. Kevin writes in a relaxed, laconic style that draws the reader in immediately - he's an excellent story-teller and raconteur. He includes many wonderful anecdotes about the well-known people who have been Fair Go reporters over the years, for example Kerre Woodham, Brian Edwards, Carole Hirschfeld, Kim Hill. Plus hilarious tales of the best dodgy dealers, scams and rip-off artists that Fair Go has uncovered over the years. His personal story is told with self-deprecating humour and great honesty - it's the story of a boy who really didn't amount to much at school but who went on to make the most of his talents and become a household name. Kevin writes: 'The Listener magazine wrote, "In an age of glossy packaging, Kevin Milne is a brown paper bag". I think it was meant as a compliment and I'll settle for that. So, welcome to the life and times of a brown paper bag.'

A Paper Life

Proceedings of the Fourth International Conference on the Origin of Life and the First Meeting of the International Society for the Study of the Origin of Life Barcelona, June 25-28, 1973. Volume I: Invited Papers

A sustained reflection on philosopher John William Miller and the metaphysical presuppositions and implications of democracy.

William Burnside was one of the three most important algebraists who were involved in the transformation of group theory from its nineteenth-century origins to a deep twentieth-century subject. Building on work of earlier mathematicians, they were able to develop sophisticated tools for solving difficult problems. All of Burnside's papers are reproduced here, organized chronologically and with a detailed bibliography. Walter Feit has contributed a foreword, and a collection of introductory essays are included to provide a commentary on Burnside's work and set it in perspective along with a modern biography that draws on archive material.

Sessional Papers of the Dominion of Canada

"Report of the Dominion fishery commission on the fisheries of the province of Ontario, 1893", issued as vol. 26, no. 7, supplement.

This publication, in two volumes, includes most of the scientific papers presented at the first meeting of the International Society for the Study of the Origin of Life (ISSOL), held on June 25-28, 1973 in Barcelona, Spain. The first volume contains the invited articles and the second volume the contributed papers, which also appear in the 1974 and 1975 issues, respectively of the new journal Origin of Life, published by D. Reidel. A relatively large number of meetings on the subject of the origin of life have been held in different places since 1957. In terms of its organization, scope, and number and nationality of participants, the Conference celebrated last year in Barcelona closely followed the three international conferences held earlier in Moscow, U.S.S.R., 1957, Wakulla Springs, U.S.A., 1963, and Pont-a-Mousson, France, 1970. For this reason the first ISSOL meeting was also named the Ath International Conference on the Origin of Life.

Miller's Metaphysics of Democracy

The Story of Ligia Montoya

This fascinating volume explains the process by which paper is made and reused. Readers will learn the history of papermaking and the many ways paper is used in our society. The recycling process is explained, and readers are guided toward activities to get their school or community involved in making a difference.

Highly illustrated, this title in the Alpha Holy Cities series offers clear and simple information on the important religious city of Rome. Giving a brief history of this fascinating city, the book looks at how Rome was once home of the Roman gods within a vast and powerful empire. It goes on to look at the city's social, economic and cultural developments and the role of its spiritual leaders to explain how Rome is now at the heart of the largest Christian Church in the world: the Roman Catholic Church.

Stig Kanger (1924-1988) made important contributions to logic and formal philosophy. Kanger's dissertation Provability in Logic, 1957, contained significant results in proof theory as well as the first fully worked out model-theoretic interpretation of quantified modal logic. It is generally accepted nowadays that Kanger was one of the originators of possible worlds semantics for modal logic. Kanger's most original achievements were in the areas of general proof theory, the semantics of modal and deontic logic, and the logical analysis of the concept of rights. He also contributed to action theory, preference logic, and the theory of measurement. This is the first of two volumes dedicated to the work of Stig Kanger. The present volume is a complete collection of Kanger's philosophical papers. The second volume contains critical essays on Kanger's work, as well as biographical essays on Kanger written by colleagues and friends.

Boys' Life is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting.

This book is based on interviews with over 200 scavengers, to reveal in their own words, their everyday life, the types of waste they collect, the dangers they are exposed to, the harassments they endure, as well as their desires for a cleaner and more orderly way of life. Hundreds of Thousands of people scavenge in cities throughout Serbia and the Balkans.

The Public Life of Henry Dearborn

Original Papers Illustrative of the Life and Writings of John Milton, Including 16 Letters of State Written by Him Etc

The Life of Paper offers a wholly original and inspiring analysis of how people facing systematic social dismantling have engaged letter correspondence to remake themselves—from bodily integrity to subjectivity and collective and spiritual being. Exploring the evolution of racism and confinement in California history, this ambitious investigation disrupts common understandings of the early detention of Chinese migrants (1880s – 1920s), the internment of Japanese Americans (1930s – 1940s), and the mass incarceration of African Americans (1960s – present) in its meditation on modern development and imprisonment as a way of life. Situating letters within global capitalist movements, racial logics, and overlapping modes of social control, Sharon Luk demonstrates how correspondence becomes a poetic act of reinvention and a way to live for those who are incarcerated.

Stig Kanger (1924-1988) made important contributions to logic and formal philosophy. Kanger's most original achievements were in the areas of general proof theory, the semantics of modal and deontic logic, and the logical analysis of the concept of rights. But he contributed significantly to action theory, preference logic and the theory of measurement as well. This is the second of two volumes dedicated to the work of Stig Kanger. The first volume is a complete collection of Kanger's philosophical papers. The present volume contains critical essays on the various aspects of Kanger's work as well as some biographical sketches. Lennart Åqvist, Jan Berg, Brian Chellas, Anatoli Degtyarev, Lars Gustafsson, Sören Halldén, Kaj Børge Hansen, Sven Ove Hansson, Risto Hilpinen, Jaakko Hintikka, Ghita Holmström-Hintikka, Lars Lindahl, Sten Lindström, Ingmar Pörm, Dag Prawitz, Włodek Rabinowicz, Kristler Segerberg, Amartya Sen, Sören Stenlund, Göran Sundholm, and Andrei Voronkov have contributed to this volume.

The Life and Times of a Brown Paper Bag

Life

Background Paper on Family Life, Family Relationships, and Friends

The story of Ligia Montoya, an elusive artist known as the Angel of Origami. Her letters filled with delicate foldings earned her a distinguished place among the masters who revitalized, by mid-20th century, the ancient art of paperfolding. With instructions on how to fold some of her models. Editorial Reviews: "Paper Life is an important book describing the early history of the modern origami movement. Laura Rozenberg is an origami architect who really delves into the subject by going to original source documents including models folded by the creators themselves. A must have book for anyone serious about paper folding." — Wendy Zeichner, OrigamiUSA President/CEO "As a paperfolder, as a historian and as a longtime scholarly publisher, I know that writing for several different kinds/ages of audiences is a tricky thing, but Laura Rozenberg has pulled it off. She has given the origami world a classic!" —Karen Reeds, Princeton Public Library Origami Group. "A book for every person who loves origami, but also for those who like stories. It is an invitation to a different way of learning and teaching paperfolding." —Masao, founder of Origamiteca, Buenos Aires, Argentina. "Ligia Montoya has been the mother of a peculiar way of understanding creative freedom. Its highly engaging narrative thread has different reading levels, apt for novices and advanced paperfolders." —Polo Madueño, historiador del origami, Chubut, Argentina.

Few American newspapers, perhaps none, have matched the New York Herald Tribune in the crispness of its writing and editing, the bite of its commentators, the range of its coverage and the clarity of its typography. The "Trib", as it was affectionately called, raised newspapering to an art form. It had an influence and importance out of all proportion to its circulation. During the Civil War, Abraham Lincoln went to great lengths to retain the support of its co-founder, Horace Greeley. President Eisenhower felt it was such an important institution and Republican organ that he helped broker its sale to its last owner, multimillionaire John Hay Whitney. The Trib's spectacularly distinguished staffers and contributors included Karl Marx, Tom Wolfe, Walter Lippmann, Dorothy Thompson, Virgil Thomson, Eugenia Sheppard, Red Smith, Heywood Brown, Walter Kerr, Homer Bigart, and brothers Joseph and Stewart Alsop. At the close of World War II, the Herald Tribune, the marriage of two newspapers that had done more than any others to create modern daily journalism, was at its apex of power and prestige. Yet just twenty-one years later, its influence still palpable in every newsroom across the nation, the Trib was gone. This is the story The Paper, a 1986 finalist of the National Book Award for Nonfiction and winner of the George Polk Prize, tells. "Probably the best book ever written about an American newspaper. But it is more than that — a brilliant piece of social history that recounts in vivid and telling detail the changing conception of news in America... The book is chockablock with marvelous yarns... And what a cast of characters Kluger has to work with... Some of the most vivid pages in The Paper are Kluger's portraits of these arresting personalities." — J. Anthony Lukas, The Boston Globe "Monumental... with a narrative sweep that is always absorbing and sometimes breathtaking... What invigorates this history is Mr. Kluger's enthusiasm for his subject, which is apparent everywhere in the loving detail with which he tells the story... and in the liveliness of the prose with which he profiles some of the Tribune's more unusual personalities." — Christopher Lehmann-Haupt, The New York Times "Engrossing... If there is a better book about an American newspaper, I am unaware of it... It is loaded to the gunnels with newspaper anecdotes, but at its core The Paper is a book about the relationship between the press and the powerful, the press and the wealthy." — Jonathan Yardley, Washington Post Book World "The romance of The Front Page, genteel anti-Semitism, the disaster of newspaper labor relations, and the rise and fall of newspaper fortunes. All are there in The Paper. It is irresistible." — Anthony Lewis "Compelling... most delightfully so when Mr.

Kluger is limning the words and deeds of the people who made The Paper crackle with vitality for more than a century... He does a remarkable job of bringing these people to life on the printed page." — David Shaw, The New York Times Book Review "Remarkable... a fascinating account of a greatness that once was... This book will hold you in its narrative grip as you revel in a story of a grand venture and epic characters... Here the history of a newspaper is a graphic presentation of a nation's life." — Kirkus Reviews "Richard Kluger is uniquely qualified to tell this tale... He brings a novelist's imagination to some vivid material." — Paul Gray, Time Magazine "Fascinating from start to finish, the best book about American journalism since Swanberg's Citizen Hearst. Huge and engrossing."

— Larry Lee, San Francisco Chronicle "A magnificently romantic history not only of the ill-fated New York Herald Tribune but of New York newspapering generally... peopled with unforgettable heroes and knaves." — Robert Sherrill, Chicago Sun-Times
